

A sepia-toned photograph of a steam locomotive pulling a passenger train. The locomotive is on the left, emitting a large plume of dark smoke that rises into the sky. The train tracks curve to the right in the foreground. The overall tone is historical and nostalgic.

Slow Train To Paradise How Dutch Investment Helped Build American Railroads:

Slow Train to Paradise A. J. Veenendaal, 1996 Railroad historians have long been aware of Dutch investment in the building of American railroads but how extensive was that investment This text reveals that because of the frequent failure of railroad companies to meet their debt obligations several railroads were for a time completely in Dutch control Though Dutch capitalists initially believed they had discovered a shortcut to El Dorado by buying American railroad securities it turned out that only long term investment brought financial paradise within their reach This book is a history of Dutch investment in American railroads up to World War 1 telling in detail not only why the Dutch invested in US railroads but also in which companies and how much they invested Introductory chapters survey the Dutch capital market from the late 18th century until World War 1 and appendices provide information on individual Dutch brokers and their financial activities **A**

Journey into Florida Railroad History Gregg M. Turner, 2012-03-25 It is safe to say that without railroads Florida wouldn't be what it is today Railroads connected the state's important cities and towns conquered the peninsula's vast and seemingly impenetrable interior ushered in untold numbers of settlers and tourists and conveyed to market faster than any previous means of transportation the myriad products of Florida's mines forests factories farms and groves Gregg Turner traces the long slow development of Florida railroads from the first tentative lines in the 1830s through the boom of the 1880s to the maturity of the railroad system in the 1920s At the end of that decade nearly 6 000 miles of labyrinthine track covered the state Turner also examines the decline of the industry as the automobile rose to prominence in American culture and lines were abandoned or sold for hiking trails and green spaces Meticulously researched and richly illustrated including many never before published images *A Journey into Florida Railroad History* is a comprehensive authoritative history of the subject Written by one of the nation's foremost authorities on Florida railroads it explores all the key players and companies and every significant period of development This engaging and lively story will be savored and enjoyed by generations to come

The Model Man Hans Krabbendam, 2022-06-08 Edward William Bok was the most famous Dutch American in early twentieth century America thanks to his thirty year editorship of the *Ladies Home Journal* the most prestigious women's magazine of the day This first complete coverage of Edward Bok's life places him against his ethnic background and portrays him as the spokesman for and the mold of the American middle class between 1890 and 1930 He acted as a mediator between a Victorian and a modern society reconciling consumerism with idealism As a Dutch immigrant he became a model for successful adaptation to a new country and modern times He used his national reputation to restore America's internationalism in the 1920s His life story is relevant to those interested in the history of immigration journalism the rise of big business the women's movement and the Progressive Movement **The Civil War Era and Reconstruction** Mary Ellen Snodgrass, 2015-03-26 The encyclopedia takes a broad multidisciplinary approach to the history of the period It includes general and specific entries on politics and business labor industry agriculture education and youth law and

Industry and Subsistency Larry Hasse, 2017-07-31 The people of the Camas Valley in Washington State were founded in two socioeconomic streams as they survived the Great Depression of the 1930s and moved into the war years of the 1940s. The theoretical foundation of this history asserts the existence of a perpetual socioeconomic process of relationship between two interacting streams of human culture: Premodern subsistency whereby persons utilize their immediate material environment to make family livings and the modernizing commercial industrial culture whereby people incrementally move beyond subsistency to a convenient level of commerce, manufacture and urban specialization. By this understanding throughout the flow of times and places of human society a rise and fall of progress and regress exists. Here in this place and time the relationship between the industry of Spokane and the agriculture of Stevens County provided the dynamic. This book is intended for academic and general readers alike. It includes extensive endnotes identifying the information used in creating this micro history of agriculture and industry in the Inland Pacific Northwest. The author hopes the book will be interesting and informative to the descendants of the people who built a life in a swath of hinterland reaching from the city of Spokane to the end of Camas Valley and beyond in Stevens County.

Wall Street to Main Street Edwin J. Perkins, 1999-04-28 A 1999 biography of Charles Merrill, the founder of the world's largest brokerage and investment firm.

The Global Securities Market Randal Michie, 2006-11-09 This history of the global securities market is the product of over 30 years of research by one of the world's foremost financial historians. It covers all aspects of the history of the securities markets from its beginnings in Medieval Venice through Amsterdam and London to its operations in Tokyo and New York today. It also integrates the history of both stocks and bonds, established and emerging markets, stock exchanges and over the counter trading and the crises and continuity that have made the global securities market such a force in the world over the centuries. A path breaking book unlike any other written before it provides in one volume an authoritative account of the global securities market from its earliest developments to the present day.

Law, Infrastructure and Human Rights Michael B. Likosky, 2006-10-30 From attacks on oil infrastructure in post war reconstruction Iraq to the laying of gas pipelines in the Amazon Rainforest through indigenous community villages, infrastructure projects are sites of intense human rights struggles. Many state and non state actors have proposed solutions for handling human rights problems in the context of specific infrastructure projects. Solutions have been admired for being lofty in principle however they have been judged wanting in practice. This book analyzes how human rights are handled in varied contexts and then assesses the feasibility of a common international institutional solution under the auspices of the United Nations to the alleged problem of the inability to translate human rights into practice.

Consuls and the Institutions of Global Capitalism, 1783-1914 Ferry de Goey, 2015-10-06 The

nineteenth century saw the expansion of Western influence across the globe A consular presence in a new territory had numerous advantages for business and trade Using specific case studies de Goey demonstrates the key role played by consuls in the rise of the global economy
