Describes members of the twenty nine different species known as small cats including the bobcat lynx puma and ocelot

**Small Wild Cats** James G. Sanderson, Patrick Watson, 2011-10-01 Did you know that most wild cat species are small and that lions tigers and other large cats are the exception That adult bobcats clouded leopards and other small wild cats are completely asocial And that they fight only as a last resort This entertaining and informative book reveals these and hundreds of other facts about the behavior biology and conservation of the more than 30 small wild cat species From bobcats to servals small cats are spread across the globe They range in size from the rusty spotted cat and African black footed cat each of which weighs around 5 pounds when fully grown to the Eurasian lynx which can reach an adult weight of 60 pounds These felids are elusive some are nocturnal others are arboreal and all are rare and secretive making them especially difficult to study James G Sanderson the world s leading field expert on small wild cats and naturalist and wildlife artist Patrick Watson provide informative and entertaining answers to common and unexpected questions about these animals The authors explain why some small cats live on the ground while others inhabit trees discuss the form and function of their coat types and colors offer scientifically sound information on human small wild cat interactions and even review the role that small wild cats have played in literature religion and mythology The world of cats is as fascinating as it is diverse *Small Wild Cats* The Animal Answer Guide shows just how important and interesting the littlest of the nondomesticated feline family are *Big Cats, Small Cats* Calvin Smith, 2004-12 This work has three major sub goals first to give a history of cats in general from earliest recorded times to the present Second to cover 26 different cats or cat species in alphabetical order so the reader has a representative feline for each of the alphabet s 26 letters Third to accomplish these ends through poetry The poetic mode was chosen to give reader a little different slant on each covered cat s special qualities and temperament An additional prose portion gives the reader a straightforward description of each cat s natural territory and a brief coverage of its special talents and challenges The overall goal was to make learning about cats both fun and educational and make us more fully appreciate

our feline friends      Small Wild Cats James G. Sanderson, Patrick Watson, 2011-10 This book examines the behavior biology and conservation of the more than 30 small wild cat species      *Cats of Africa* Luke Hunter, 2006 Cats of Africa behaviour ecology and conservation      **Planet Cat** Sandra Choron, Harry Choron, Arden Moore, 2007 Presents more than four hundred lists on various information on cats including cat breeds training and behavior as well as such topics as famous cats in history cat food recipes and gifts for pampered cats      **The Behaviour of the Domestic Cat** John W. S. Bradshaw, 2012 Describing feline behaviour from both a mechanistic and functional approach this textbook provides an accessible overview of this fascinating subject The book begins by addressing physiological developmental and psychological aspects with chapters on domestication the development of the senses learning communication and feeding behaviour The authors then build on this foundation to discuss social behaviour hunting and predation cat human interactions and welfare Fully updated throughout this new edition also includes two new chapters on behavioural disorders due to pathologies and      *Wild Cats of the World* Mel Sunquist, Fiona Sunquist, 2017-05-15 Did you know that European royalty once used cheetahs to hunt deer or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start Have you ever wondered whether domestic cats really do land on their feet when they fall or how Canada lynx can stalk their prey in the winter without falling through the deep snow Wild Cats of the World is a treasure trove of answers to questions like these and many others for anyone who's interested in learning more about the world's felids including the ones with whom we share our homes Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source many of them quite difficult to find including scientific papers descriptions of hunts archeological findings observations by naturalists and travelers reports from government agencies and newsletters from a wide variety of organizations Weaving information from these sources together with their own experiences observing wild cats around the world the Sunquists have created the most comprehensive reference on felids available Each of their accounts of the 36 species of cat contains a description of the cat including human interactions with it as well as detailed data on its distribution ecology and behavior status in the wild and efforts to conserve it Numerous photographs including more than 40 in full color illustrate these accounts Ranging from the two pound black footed cat to the five hundred pound tiger and from the African serval with its satellite dish ears to the web footed fishing cat of Asia Wild Cats of the World will fascinate and educate felid fans of any stripe or spot      **The Tribe of Tiger** Elizabeth Marshall Thomas, 2015-07-14 From the majestic Bengal tiger to the domesticated Siamese comes a meditation on cats from the bestselling author of *The Hidden Life of Dogs* and *The Social Lives of Dogs* From as far back in time as the disappearance of the dinosaurs cats have occupied an important place in our evolutionary social and cultural history The family of the cat is as diverse as it is widespread ranging from the lions tigers and pumas of the African and Asian wilds to the domesticated cats of our homes zoos and circuses When she witnesses her housecat Rajah effortlessly scare off two fully grown deer acclaimed anthropologist Elizabeth Marshall Thomas starts

studying the links that bind the feline family together Immersing herself in the subtle differences of their social orders feeding behaviors and means of communication Thomas explores the nature of the cat both wild and domestic and the resilient streak that has ensured its survival over thousands of years
