Horses in Warfare Sir Walter Gilbey, 2015-06-24 Excerpt from Small Horses in Warfare The present seems an appropriate time to put forward a few facts which go to prove the peculiar suitability of small horses for certain campaigning work which demands staying power hardiness and independence of high feeding The circumstance that the military authorities have been obliged to look to foreign countries for supplies of such horses for the war in South Africa has suggested the propriety of pointing out that we possess in England foundation stock from which we may be able to raise a breed of small horses equal to or better than any we are now obliged to procure abroad About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Small Horses in Warfare**

Sir Walter Gilbey, 2020-05-22 Breeders of every class of horse saving only those who breed the Shetland pony and the few who aim at getting ponies for polo have for generations made it their object to obtain increased height There is nothing to be urged against this policy in so far as certain breeds are concerned the sixteen hand thoroughbred with his greater stride is more likely to win races than the horse of fifteen two the sixteen hand carriage horse other qualities being equal brings a better price than one of less stature and the Shire horse of 16 2 or 17 hands has commonly in proportion greater strength and weight the qualities most desirable in him than a smaller horse Thus we can show excellent reason for our endeavours to increase the height of our most valuable breeds and the long period that has elapsed since we were last called upon to put forward our military strength has allowed us to lose sight of the great importance of other qualities **Small Horses in**

horses for general work inasmuch as they cannot withstand the climate hard living bad roads and rough usage which make up the conditions of a horse's life in the Colony In past years before the present war large numbers of English horses have been sent to Natal for military service but the results were not satisfactory all became useless and the large majority died the change from English stables and English methods of management to those in vogue in the Colony almost invariably proved fatal About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
