investors out of their PJs. If you think checking out your funds in Morningstar and Lipper has covered you, best read this book. Maureen Nevin Duffy, Editor, Publisher, *The Turnaround Tactician*. This book is a must read for fund investors. Gastineau carefully discusses many important factors such as taxes, capital gains, overhang, trading costs, turnover, benchmark selection, active management, expense ratio, and aggressive trading by market timers. These factors significantly affect fund performance but may be ignored by investors. Gastineau goes on to build a strong case for choosing ETFs over mutual funds, especially for long-term investors. I strongly recommend this book for investors. Vijay Singal, J. Gray Ferguson, Professor of Finance and Chairperson of the Finance Department, Pamplin College of Business, Virginia Tech, and author of *Beyond the Random Walk: A Guide to Stock Market Anomalies and Low Risk Investing*. Gastineau's message is very powerful. He not only challenges some conventional wisdom on investing but truly emphasizes how to add value to a portfolio. What is unique is his ability to move quickly from the big picture to implementation strategies, offering investment solutions to both investment advisors and individual investors. Portfolio adjustments discussed can potentially have significant impact on a long-term investor's standard of living.
