which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea **The John Adair Lexicon of Leadership** John Adair,2011-03-03

From the world renowned leadership expert John Adair comes this unique volume of all his classic works including How to Grow Leaders The Inspirational Leader Leadership and Motivation Not Bosses but Leaders Strategic Leadership and the international best seller Leadership of Muhammad With his distinctive insight into how leadership is learned John Adair presents six business books that cross boundaries into culture history strategy and motivation Leadership Lexicon is an essential volume and an exclusive opportunity to own all of Adair s ground breaking works that will help you transform your understanding of how leadership works and learn the skills to transform you into a leader **All Together Now** John

Harvey-Jones,1994 In this study of British industry one in a series of business books former chairman of ICI Sir John Harvey Jones argues that people are the most under exploited resource in industry being the one constant against the rapid changes in hardware and technology Sir John puts forward the claim that staff are underused and underestimated looks at recruitment and selection coaching and daily management of staff and gives his own blueprint for people managing that could put Britain at the forefront of world business **Masculinity and the British Organization Man since 1945**

Michael Roper,1994-01-20 The post war period is often regarded as a time when Britain underwent its managerial revolution the family firm and the gentleman amateur giving way to the large bureaucracy and the trained management expert Yet the conception of modern management as an objective process could hardly be further from the truth Drawing on detailed life history interviews with the post war generation of organization men this study explores the intimacies that operate among men in management It argues that despite the rise of professional management relations between managers continue to function in highly subjective ways The pleasure of technical innovation or of seeing a new product through to the market the mixture of rivalry and patronage that surrounds management succession the hard bargaining of industrial relations at every level managerial functions involve the dramatization of emotions among men By challenging the enduring myth of the rational organization man this book sheds new light on gender segregation in management It argues that the exclusion of women from senior positions cannot be understood simply as the outcome of unprofessional practices A focus on the emotional relations between male managers reveals the psychic dimensions of exclusionary behaviour An emotional economy flourishes among men in management but its workings have been hidden by the myth of the rational organization man
