the vast interdisciplinary approaches to the study of science and religion Individually and together the essays show how the study of ourselves our planet and the universe helps us understand our place as spiritual beings within God s universe The book is a tribute to Sir John Templeton and his pioneering commitment toward new research that results in one hundredfold more spiritual information than humankind has ever possessed before It begins with essays that reflect on Sir John s principal domains of interest and expertise free enterprise based finance and accelerating spiritual progress Themes of the sections are Science Religion Dialogue Cosmology Physics and Astronomy Mathematics Musicology and Speculation Biological Evolution the Human Being Social Evolution the Human Mind and Heart Religion and Health The Nature of the Divine Theology and Philosophy Faith Traditions Sir John s leadership has enabled us to edge ever closer to the frontier where knowledge meets wisdom at the threshold of ultimate reality notes the editor in the preface to this volume As Spiritual Information presents an overview of how far we have come in the science and religion dialogue it also opens windows to the vast possibilities for additional research and further advances in spiritual information

**Vying for Truth - Theology and the Natural Sciences** Hans Schwarz,2014-06-18 The emancipation of the natural sciences from religion was a gradual affair during the last four centuries Initially many of the leading scientists were churchmen indicating a symbiosis between faith and reason Due to the increasing specialization in the sciences this close connection came to an end often leading to antagonism and mutual suspicion This book traces this historical development with its twists and turns in both Europe and North America It depicts the major players in this story and outlines their specific contributions The main focus is on the 19th and 20th centuries with figures such as Darwin and Hodge but also Beecher and Abbott in the 19th century In the 20th century the narrative starts with Karl Barth and moves all the way to Hawking and Tipler Special attention is given to representatives from North America Great Britain and Germany In conclusion important issues are presented in the present day dialogue between theology and the natural sciences The issue of design and fine tuning is picked up and advances in brain research Finally technological issues are assessed and the status of medicine as a helpmate for life is discussed An informative and thought provoking book

*God in Proof* Nathan Schneider,2013-06-10 In this tour of the history of arguments for and against the existence of God Nathan Schneider embarks on a remarkable intellectual historical and theological journey through the centuries of believers and unbelievers from ancient Greeks to medieval Arabs to today s most eminent philosophers and the New Atheists Framed by an account of Schneider s own unique journey *God in Proof* illuminates the great minds who wrestled with one of history s biggest questions together with their arguments bringing them to life in their time and our own Schneider s sure handed portrayal of the characters and ideas involved in the search for proof challenges how we normally think about doubt and faith while showing that in their quest for certainty and the proofs to declare it thinkers on either side of the God divide are often closer to one another than they would like to think
