Biographical Dictionary of Literary Influences John Powell,2000-10-30 Over the past two decades the process of cultural development and in particular the role of reading has been of growing interest but recent research has been episodic and idiosyncratic In this biographical dictionary research devoted specifically to the reading habits of 19th century individuals who shaped Western culture is brought together for the first time While giving prominent coverage to literary and political figures the volume s 270 entries also include musicians painters educators and explorers Each entry includes brief biographical information a concise summary of literary influences on the subject and clear direction for further research The book provides a practical tool for scholars wishing to trace the reading experience of important Western cultural figures Subjects were selected from the people most responsible for the cultural development of Europe Britain and the British Empire and the Americas between 1800 and 1914 Although selective the sample of 270 figures is substantial enough to suggest broad cross cultural habits and effects enabling scholars to better understand the relationship between reading and culture In an introductory essay Powell explores the patterns and relationships that can be discerned from the entries The first of three anticipated volumes the book is an important step forward in researching the role of reading in cultural development **Revolutions & Watersheds** ,2022-02-28 The years between 1775 and 1815 constitute a crucial episode in the evolutionary history of Europe and America Between the start of the American Revolution with the first armed clashes between British regulars and American militiamen at Concord and Lexington and the closing act of the French Revolution with the eclipse of Napoleon s dreams of pan European glory on the battlefield of Waterloo America and Europe witnessed the rise and fall of radicalism which left virtually no aspect of public and private life untouched While the American colonies managed to wrench themselves away from their colonial parent and while France careered down the stormy rapids of its own Revolution Great Britain went through the turbulent process of redefining itself vis vis both these emerging nations and the world at large But the period 1775 to 1815 offers more than the two ideological Revolutions that determined the face of modern America and Europe feeding into and emanating from these Revolutions there were major watersheds in virtually all areas of cultural intellectual and political life varying from the rise of Romanticism to the birth of abolitionism and from the beginnings of modern feminism to the creation of modern nationhood and its enduring cultural stereotypes In this collection of interdisciplinary essays historians and literary critics from both sides of the Atlantic analyze a broad spectrum of the watersheds and faultlines that arose in this formative era of Euro American relations Individually the essays trace one or

more of the transatlantic patterns of intellectual cultural or scientific cross pollination between the Old and the New World between pre and post Revolutionary modes and mores Collectively the essays argue that the many revolutions that produced the national ideologies identities and ideas of state of present day America and Europe did not merely play a role in national debates but that they very much belonged to an intricate network of transnational and more particularly transatlantic dialogues
