Sisters And Wives The Past And Future Of Sexual Equality:

Sisters and Wives Karen Brodtkin, 1979 A lively and well researched analysis of women's roles in the kinship systems of precapitalist African societies turns out to be pertinent to women's struggle for equality everywhere. For any theorist of social organization this is an important book. American Anthropologist. For anthropologists, historians, social theorists and

Sisters and Wives Karen Sacks, 1982 **Sister or Wife?** J. Dorcas Gordon, 1997-11-01 This work investigates the social dynamics within the Corinthian community and the function of Paul's argumentation in the light of those dynamics. The models of Victor Turner and Mary Douglas, cultural anthropologists, guide the inquiry. Gordon concludes that the conflict in 1 Corinthians 7 arose as the result of two antithetical views of the root metaphor. In Christ, all are children of God, no male and female. One group supported a kinship system based on patrilineal marriage and hierarchical community structures. A second group demanded that an egalitarian sibling relationship should order the community. Paul attempts to persuade both factions that their commitment to each other and to him is primary. His arguments encourage each group to reconsider the absoluteness of its stance and to learn to live with ambiguity. Emergentist Marxism Sean Creaven, 2013-04-15 In tackling

emergentist Marxism in depth, this well-written volume demonstrates that critical realism and materialist dialectics are indispensable to theorizing the functioning of complex social and physical systems. Author Sean Creaven investigates Marx's dialectics of being and consciousness, forces and relations of production, base and superstructure, class structure and class conflict, and demonstrates how they allow the social analyst to conceptualize geo-history as embodying a tendential evolutionary directionality rather than as simply random or indeterminate in terms of its outcomes. For those interested in social and political theory, Marxism and communism and contemporary social theory, this outstanding volume is an important read and a valuable resource. Women's Work, Men's Property Stephanie Coontz, Peta Henderson, 2016-03-01 To

some, a book on the origins of sexual inequality is absurd. Male dominance seems to them a universal, if not inevitable, phenomenon that has been with us since the dawn of our species. The essays in this volume offer differing perspectives on the development of sex role differentiation and sexual inequality but share a belief that these phenomena did have social origins that must be sought in sociohistorical events and processes. In this way, Stephanie Coontz and Peta Henderson introduce a book which fills a yawning gap in Marxist and feminist theory of recent years. *Women's Work, Men's Property* brings together specialist historical and anthropological skills of a group of American and French feminists to examine the origins of the sexual division of labor, the nature of pre-state kinship societies, the position of women in slave-based societies, and the specific forms taken by the oppression of women in archaic Greece. *Men's Work, Women's Property* will be welcomed by teachers and students of women's studies and anyone with an interest in the biological, psychological, and historical roots of sexual inequality. Agency in Archaeology Marcia-Anne Dobres, John Robb, 2014-06-11 *Agency in Archaeology* is the first critical volume to scrutinise the concept of agency and to examine in depth its potential to inform our understanding of the

past Theories of agency recognise that human beings make choices hold intentions and take action This offers archaeologists scope to move beyond looking at broad structural or environmental change and instead to consider the individual and the group Agency in Archaeology brings together nineteen internationally renowned scholars who have very different and often conflicting stances on the meaning and use of agency theory to archaeology The volume is composed of five theoretically based discussions and nine case studies drawing on regions from North America and Mesoamerica to Western and central Europe and ranging in subject from the late Pleistocene hunter gatherers to the restructuring of gender relations in the north eastern US

A History of African Motherhood Rhiannon Stephens, 2015-08-06 This history of African motherhood over the longue dur e demonstrates that it was ideologically and practically central to social economic cultural and political life The book explores how people in the North Nyanzan societies of Uganda used an ideology of motherhood to shape their communities More than biology motherhood created essential social and political connections that cut across patrilineal and cultural linguistic divides The importance of motherhood as an ideology and a social institution meant that in chiefdoms and kingdoms queen mothers were powerful officials who legitimated the power of kings This was the case in Buganda the many kingdoms of Busoga and the polities of Bugwere By taking a long term perspective from c 700 to 1900 CE and using an interdisciplinary approach drawing on historical linguistics comparative ethnography and oral traditions and literature as well as archival sources this book shows the durability mutability and complexity of ideologies of motherhood in this region

A Millennium of Family Change Wally Seccombe, 1992 How do changes in family form relate to changes in society as a whole In a work which combines theoretical rigour with historical scope Wally Seccombe provides a powerful study of the changing structure of families from the Middle Ages to the beginning of the Industrial Revolution Responding to feminist critiques of sex blind historical materialism Seccombe argues that family forms must be seen to be at the heart of modes of production He takes issue with the mainstream consensus in family history which argues that capitalism did not fundamentally alter the structure of the nuclear family and makes a controversial intervention in the long standing debate over European marriage patterns and their relation to industrialization Drawing on an astonishing range of studies in family history historical demography and economic history *A Millennium of Family Change* provides an integrated overview of the long transition from feudalism to capitalism illuminating the far reaching changes in familial relations from peasant subsistence to the making of the modern working class

Re-thinking Sexualities in Africa Signe Arnfred, 2004 This volume sets out to investigate critically existing lines of thought about sexuality in Africa while also creating space for alternative approaches P 4 of cover

What is Masculinity? J. Arnold, S. Brady, 2011-06-14 Across history the ideas and practices of male identity have varied much between time and place masculinity proves to be a slippery concept not available to all men sometimes even applied to women This book analyses the dynamics of masculinity as both an ideology and lived experience how men have tried and failed to be Real Men
