Situated Meaning Inside And Outside In Japanese Self Society And Language:

Situated Meaning Jane M. Bachnik, Charles J. Quinn Jr., 2019-01-15 Situated Meaning adds a new dimension both literal and metaphoric to our understanding of Japan. The essays in this volume leave the vertical axis of hierarchy and subordination an organizing trope in much of the literature on Japan and focus instead on the horizontal interpreting a wide range of cultural practices and orientations in terms of such relational concepts as *uchi* inside and *soto* outside. Evolving from a shared theoretical focus, the essays show that in Japan the directional orientations inside and outside are specifically linked to another set of meanings denoting self and society. After Donald L. Brenneis's foreword, Jane M. Bachnik, Charles J. Quinn Jr., Patricia J. Wetzel, Nancy R. Rosenberger, and Robert J. Soble discuss Indexing Self and Social Context, Failure to Index Boundary, Disintegration and Social Breakdown. This is the topic of Dorinne Kondo, Matthews M. Hamabata, Michael S. Molasky, and Jane Bachnik. Finally, Charles Quinn explores Language as a Form of Life. Jane M. Bachnik is Associate Professor of Anthropology at the University of North Carolina at Chapel Hill. She is presently pursuing research in Japan under a Senior Fellowship Grant from the Japan Foundation. Charles J. Quinn Jr. is Associate Professor of East Asian Languages and Literatures at the Ohio State University. [Life in a Japanese Women's College](#) Brian J. McVeigh, 2013-09-13 One third of the Japanese female workforce are office ladies and their training takes place in the many women's junior colleges. Office ladies are low wage, low status secretaries who have little or no job security. Brian J. McVeigh draws on his experience as a teacher at one such institution to explore the cultural and social processes used to promote femininity in Japanese women. His detailed and ethnographically informed study considers how the students of these institutions are socialized to fit their future dual roles of employees and mothers and illuminates the sociopolitical role that the colleges play in Japanese society as a whole. **Language in Public Spaces in Japan** Nanette Gottlieb, 2014-06-11 This book throws light on ideologies, practices, and sociocultural developments currently shaping language use in Japan by departing from the more common investigation of language in private contexts and examining aspects of the language found in a range of significant public spaces: from the material, an international airport, the streets of Tokyo, the JSL classroom in Japan, and courtrooms to the electronic television dramas, local government web pages, and cyberspace. Through its study of the language encountered in such settings, the volume provides a deeper understanding of multifaceted aspects of linguistic diversity both in terms of the use of languages other than Japanese and of issues relating to the Japanese language itself. The variety of theoretical approaches brought to bear by contributing authors ensures a

substantial intellectual contribution to the literature on language in contemporary Japan This book was published as a special issue of Japanese Studies **Understanding Japanese Society** Joy Hendry, Emma E. Politeness in East Asia Dániel Z. Kádár, Sara Mills, 2011-09-08 We use politeness every day when interacting with other people Yet politeness is an impressively complex linguistic process and studying it can tell us a lot about the social and cultural values of social groups or even a whole society helping us to understand how humans encode states of mind in their words The traditional stereotypical view is that people in East Asian cultures are indirect deferential and extremely polite sometimes more polite than seems necessary This revealing book takes a fresh look at the phenomenon showing that the situation is far more complex than these stereotypes would suggest Taking examples from Japanese Korean Chinese Vietnamese and Singaporean Chinese it shows how politeness differs across countries but also across social groups and subgroups This book is essential reading for those interested in intercultural communication linguistics and East Asian languages **Complementation** Kaoru Horie, 2000-11-15 Complementation i e predication encoded in argument slots is well renowned for its syntactic and semantic variability across languages As such it poses a tantalizing descriptive explanatory challenge to linguists of any theoretical persuasion Recent developments in Cognitive and Functional typological linguistics have enabled researchers to address various unexplored research questions on complementation phenomena The seven papers included in this volume represent the most recent endeavors to explore cognitive functional foundations of complementation phenomena from various theoretical perspectives Cognitive Grammar Mental Space Theory Typology Discourse functional linguistics Cognitive Science The seven papers are prefaced by an introductory chapter Kaoru Horie and Bernard Comrie which situates the current volume within the major complementation studies of the past forty years This work presents a new theoretical venue of complementation studies and enhances our understanding of this complex yet

intriguing syntactic and semantic phenomenon *Schooling Selves* Peter Cave, 2016-06-07 Balancing the development of autonomy with that of social interdependence is a crucial aim of education in any society but nowhere has it been more hotly debated than in Japan where controversial education reforms over the past twenty years have attempted to reconcile the two goals In this book Peter Cave explores these reforms as they have played out at the junior high level the most intense pressure point in the Japanese system a time when students prepare for the high school entrance exams that will largely determine their educational trajectories and future livelihoods Cave examines the implementation of relaxed education reforms that attempted to promote individual autonomy and free thinking in Japanese classrooms As he shows however these policies were eventually transformed by educators and school administrators into curricula and approaches that actually promoted social integration over individuality an effect opposite to the reforms intended purpose With vivid detail he offers the voices of teachers students and parents to show what happens when national education policies run up against long held beliefs and practices and what their complex and conflicted interactions say about the production of self and community in education The result is a fascinating analysis of a turbulent era in Japanese education that offers lessons for educational practitioners in any country
