Man of Reason Alfred Owen

Aldridge,2018-12-02 HERE IS THE FIRST twentieth century biography of Thomas Paine to be based on original research in France and England as well as in this country If for no other reason than that Man of Reason would be a valuable book

because few men in history have been so maligned and misunderstood as this fiery defender of the rights of man This biography will do much to dispense the mythology that has gathered about the name of Thomas Paine The author re creates

Paine s stormy life as a paradoxical one of alternating acclaim and rejection by a fickle public in three countries The first to call publicly for American independence and a constitutional convention Thomas Paine was given no voice in drawing up

either the Declaration of Independence or the Constitution He campaigned for popular rights in England and as his books circulated by the thousands the British government hounded him from the country In France he sat in the National

Convention then narrowly escaped the guillotine for allegedly anti revolutionary sympathies For eight years he worked to promote Franco American friendship and was denounced for his efforts Basing this biography on his thorough research of

newly discovered manuscript and printed sources Alfred Owen Aldridge has been able to give important new insight into the man who was one of the most eloquent defenders of humanity but how died in lonely obscurity unrecognized and unrewarded

The strength of Aldridge s book lies in its thorough investigation of primary sources The author worked to good purpose in French and British archives not just the repositories in Paris and London but also in various provincial collections What Paine

s life most needed was a scholar who could find his way around in European libraries The result is a book that supersedes all previous biographies of Paine James Woodress Science Society *The Emergence of a National Economy, 1775-1815* Curtis

P. Nettels,2017-07-28 Part of a series of detailed reference manuals on American economic history this volume traces the development of agriculture transportation labour movements and the factory system foreign and domestic commerce

technology and the ramifications of slavery

Beyond Confederation Richard Beeman,Stephen Botein,Edward C. Carter

II,2013-04-01 Beyond Confederation scrutinizes the ideological background of the U S Constitution the rigors of its writing and ratification and the problems it both faced and provoked immediately after ratification The essays in this collection

question much of the heritage of eighteenth century constitutional thought and suggest that many of the commonly debated

issues have led us away from the truly germane questions The authors challenge many of the traditional generalizations and the terms and scope of that debate as well The contributors raise fresh questions about the Constitution as it enters its third century What happened in Philadelphia in 1787 and what happened in the state ratifying conventions Why did the states barely ratify the Constitution What were Americans of the 1789s attempting to achieve The exploratory conclusions point strongly to an alternative constitutional tradition some of it unwritten much of it rooted in state constitutional law a tradition that not only has redefined the nature and role of the Constitution but also has placed limitations on its efficacy throughout American history The authors are Lance Banning Richard Beeman Stephen Botein Richard D Brown Richard E Ellis Paul Finkelman Stanley N Katz Ralph Lerner Drew R McCoy John M Murrin Jack N Rakove Janet A Riesman and Gordon S Wood

The Rights of man Thomas Paine, 1794 Rights of Man is a classic statement of the belief in humanity's potential to change the world for the better Published as a reply to Burke's Reflections on the Revolution in France it differs from that great work in every relevant respect Where Burke uses the language of the governing classes Paine writes with the vigour of a self-taught mast-maker and exciseman With passionate and rapier wit Paine challenges Burke's assertion that society cannot be judged by rational standards and found wanting
