British Private Schools Geoffrey Walford, 2004-08-02 British private schools are a continuing topic of fascination for many. In particular the leading so called public schools have long been subjected both to criticism for their elitism and praise for their academic success. Traditionally Conservative governments have strongly supported the private sector through special funding such as the Assisted Places Scheme while Labour governments have reduced the private sector's support from the state and threatened to abolish it. However the present new Labour government has reversed Labour's former opposition to private schools and sought co-operation between the two sectors. This has led to an increasing interest in the realities of the private schools and this book brings together the best of recently conducted research on the various aspects of private schooling through a series of specially commissioned previously unpublished essays.

Educational Reconstruction Gary McCulloch, 2013-09-05 This book presents a clear overview of the debates that surrounded the making of the 1944 Act which affected every aspect of education in this country. It gives a detailed account of the tripartite divisions into three types of child that were sanctioned in the reforms of the 1940s. At the same time it also emphasises the idea of education as a civic project which underlay the reforms and which was such an important part of their lasting authority. The education policies of the past decade and the current attempts to shape a new education settlement need to be interpreted in a long term historical framework and in particular in relation to the aims and problems of the last great cycle of reform in the 1940s. This book makes an important contribution to the development of such a framework and the social history of education policy in this country.
Study of Education Pb Peter Gordon, 2018-10-24 First published in 1980 This collection of inaugural lectures shows clearly the many changes which have influenced the university study of education during the period 1965 to 1978. 1 Perhaps the most important has been the expansion in university student numbers which by 1963 was more than double the pre-war figure.
