Ernest Solvay philanthropist and organizer of the world famous Solvay conferences on physics discovered a profitable way of making soda ash in 1861 Together with a handful of associates he laid the foundations of the Solvay company which successfully branched out into other chemicals plastics and pharmaceuticals Since its emergence in 1863 Solvay has maintained world leadership in the production of soda ash This is the first scholarly book on the history of the Solvay company which was one of the earliest chemical multinationals and today is among the world s twenty largest chemical companies It is also one of the largest companies in the field to preserve its family character The authors analyze the company s 150 year history 1863 2013 from economic political and social perspectives showing the enormous impact geopolitical events had on the company and the recent consequences of global competition *Urban History* 19:2 Kajal Lahiri,Geoffrey H. Lahiri,1992-12-10 *Proceedings of the First International Soda Ash Conference* John R. Dyni,Richard Warren Jones,1998 *Toxic Lake* Thomas Shevory,2023-12-05 2024 Outstanding Academic Title given by Choice Reviews
The environmental history of the most polluted lake in America Native Americans have long regarded Onondaga Lake as one of the most sacred spaces in the continent the place where peace between nations was achieved and the Haudenosaunee Confederacy was created In the mid twentieth century however it acquired a wholly different reputation as the most polluted lake in America *Toxic Lake* is an environmental history of this complex ecological system tracking how it was tarnished the costly efforts to clean it up and the controversies those efforts generated Thomas Shevory argues that the history of Onondaga Lake mirrors the larger environmental history of the US from colonization to the industrial era resulting eventually in the rise of social movements and legislative action for environmental protection Layered within this history is the dismissal of indigenous land claims and the marginalization of indigenous voices in clean up efforts *Toxic Lake* illustrates that the failure to prevent the environmental destruction of Onondaga Lake was part of a political climate which favored unregulated industrial production and urban growth ignoring the destructive impacts on local environments Shevory argues this larger failure was the result of an active process of privileging the economic interests of polluters over other business interests expanding neighborhoods and indigenous rights He concludes with an investigation of New York s recent declaration that the clean up is complete questioning what exactly that means and whether the lake s status as a sacred space will ever be re established *Toxic Lake* is a compelling work of history demonstrating the disastrous effects of pollution and the importance of community involvement in environmental activism **Becoming American Becoming Ethnic** Thomas Dublin,2010-09-09
Personal reflections on the challenges that face college students coming to understand their ethnicity in contemporary America **A Company Town Becomes a Community** Norma Jean Hervey,1991 **The Immigration History Newsletter** ,1989 **Migration World Magazine** ,1990 **Public Information Circular** ,1994
