be the best single volume covering his life career and thought For all its breadth and complexity Heidegger s perspective is quite simple he is concerned with the meaning of Being as disclosure Heidegger s life was almost as simple He was a German professor except for a brief but significant period in which he supported the Nazi regime While that departure from philosophy continues to haunt his name and work one must question whether his thought from 1912 to 1976 should be measured by the yardstick of his politics from May 1933 through February 1934 Th is anthology addresses his complex but simple thought and his simple but complex life In a real sense Sheehan claims there is no content to Heidegger s topic and legacy only a method But method must not be taken to mean a technique or procedure for philosophical thinking Rather the topic of Heidegger s thought and his pursuit of that topic the what and the how are one and the same thing Heidegger writes Alles ist Weg Everything is way and man s Being is to be on the way in essential movement Heidegger argues in our essence we humans are the topic and the point is not to be led there so much as to come to know what we already know and to become what we already are This brilliant collection confirms this truism and is an excellent introduction to the work of this seminal thinker

Time in the Philosophy of Gabriel Marcel
Helen Tattam, 2013 Gabriel Marcel 1889-1973 stands outside the traditional canon of twentieth century French philosophers Where he is not simply forgotten or overlooked he is dismissed as a relentlessly unsystematic thinker or following Jean Paul Sartre's lead labelled a Christian existentialist a label that avoids consideration of Marcel's work on its own terms How is one to appreciate Marcel's contribution especially when his oeuvre appears to be at odds with philosophical convention Helen Tattam proposes a range of readings as opposed to one single interpretation a series of departures or explorations that bring his work into contact with critical partners such as Henri Bergson Paul Ricoeur and Emmanuel Levinas and offer insights into a host of twentieth century philosophical shifts concerning time the subject the other ethics and religion Helen Tattam's ambitious study is an impressively lucid account of Marcel's engagement with the problem of time and lived experience and is her first monograph since the award of her doctorate from the University of Nottingham
