Slums As Urban Villages:

Slums as Urban Villages Rajesh Gill, 1994 Comparative analysis of slums in terms of socio economic characteristics rural urban linkages integration with urban community a case study of Bombay and Chand garh *Suburb, Slum, Urban Village* Carolyn Whitzman, 2010-01-03 Suburb Slum Urban Village examines the relationship between image and reality for one city neighbourhood Toronto s Parkdale Carolyn Whitzman tracks Parkdale s story across three eras its early decades as a politically independent suburb of the industrial city its half century of ostensible decline toward becoming a slum and a post industrial period of transformation into a revitalized urban village This book also shows how Parkdale s image influenced planning policy for the neighbourhood even when the prevailing image of Parkdale had little to do with the actual social conditions there Whitzman demonstrates that this misunderstanding of social conditions had discriminatory effects For example even while Parkdale s reputation as a gentrified area grew in the post sixties era the overall health and income of the neighbourhood s residents was in fact decreasing and the area attracted media coverage as a dumping ground for psychiatric outpatients Parkdale s changing image thus stood in stark contrast to its real social conditions Nevertheless this image became a self fulfilling prophecy as it contributed to increasingly skewed planning practices for Parkdale in the late twentieth century This rich and detailed history of a neighbourhood s actual conditions imaginary connotations and planning policies will appeal to scholars and students in urban studies planning and geography as well as to general readers interested in Toronto and Parkdale s urban history **China's Reform and New Urbanization** Yining Li, Zhiqiang Cheng, 2021-11-09 This book presents a study of China s new urbanization which is one of the country s major economic issues and embodies the characteristics of its economic development Professor Yining Li proposed the framework and wrote the first article Under Li s guidance other articles were written by researchers at the Guanghua School of Management Peking University In the central government development plan urbanization is the main force stimulating domestic demand And after more than 10 years of high speed urbanization process the change from simple urbanization to the new urbanization is an inevitable development direction This book covers many crucial urbanization topics that directly affect China s reform

Crime and Control in China Børge Bakken, 2022-10-12 China is a transitional society with one of the highest inequality rates in the world Criminologists would typify this as a highly toxic combination creating very high levels of crime Yet China reports extremely low crime rates How might this be With this book Børge Bakken shows that the reality in China does not match the rosy picture of low crime and rule by law that the authorities present to the world Looking beyond the statistics Bakken discovers that violent crime is a particularly sensitive issue deliberately censored by party propaganda and by an unaccountable police force that can vanish any type of crime to a degree that makes a crime rate a mere formality As Bakken reveals official Chinese crime statistics cannot be used to make assumptions about China's crime profile Even the assumption that crime represents the problem and control its solution is not valid Bakken argues Because when control becomes part of the problem the false assumption of a harmonious society evaporates rendering harmony a myth and violence the traumatic reality This meticulous investigation of crime and justice in China is crucial reading for

those interested in the Chinese regime and China's state control as well as criminologists and sociologists of crime **The Towers of New Capital** P. Tiwari, 2016-04-29 With mega townships as the tool this book analyses the complexity scale and the challenges associated with the development paradigm in India from various built environment lenses The Towers of New Capital is an enquiry into how these global fixes are leading to territorial reorganization **Restructuring the Chinese City** Laurence J.C. Ma, Fulong Wu, 2004-08-02 A sea of change has occurred in China since the 1978 economic reforms Bringing together the work of leading scholars specializing in urban China this book examines what has happened to the Chinese city undergoing multiple transformations during the reform era with an emphasis on new processes of urban formation and the consequent reconstituted urban spaces With arguments against the convergence thesis that sees cities everywhere becoming more Western in form and suggestions that the Chinese city is best seen as a multiplex city Restructuring the Chinese City is an indispensable text for Chinese specialists urban scholars and advanced students in urban geography urban planning and China studies **Postsocialist Landscapes** Thomas Lahusen, Schamma Schahadat, 2020-04-02 Since the fall of the Iron Curtain formerly socialist countries have gone through manifold transformations whilst remnants of socialism remain ubiquitous The volume explores various spaces of the postsocialist landscape presenting a mixture of real and imaginary spaces of memory and nostalgia of aesthetic and political symbolism of the global East and the global South of academic and essayistic writing It casts a glance at the heterogeneous relics of socialism and their transformation in very different parts of the world From the description of post socialist interiors fa ades neighborhoods parks monuments and objects towards the imaginary spaces of literature the contributors describe the concreteness and intimacy of some of the places that span across and even beyond of what is left of the second world today

The Illegal City Ayona Datta, 2016-03-03 The Illegal City explores the relationship between space law and gendered subjectivity through a close look at an illegal squatter settlement in Delhi Since 2000 a series of judicial rulings in India have criminalised squatters as illegal citizens encroachers and pickpockets of urban land and have led to a spate of slum demolitions across the country This book argues that in this context it has become vital to distinguish between illegality and informality since it is those illegal slums which are at the receiving end of a force of law where law is violently encountered within everyday spaces This book uses a gendered intersectional lens to explore how a violence of law shapes how public subjectivities of gender class religion and caste are encountered and negotiated within the private spaces of home family and neighbourhood This book suggests that resettlement is not a condition that squatters desire rather something that is seen as the only way out of the illegal city The wait for resettlement is a temporal space of anxiety and uncertainty where particular kinds of politics around law space and gender takes shape which transform squatters relations with the state urban development civil society and with each other Through their everyday struggles around water sanitation social and political organisation and the transformation of their homes and families this book shows that the desire for the legal city is also the

irony and utopia of home which will remain an incomplete gendered project both for the state and for squatters **Slum Acts** Veena Das, 2022-01-31 This book examines the ways in which knowledge that is inordinate excessive and overwhelming comes to mark everyday life in low income poor neighborhoods in Delhi with crumbling infrastructures and pervasive violence Based on long term ethnography in these spaces this book provides a detailed analysis of the institutions of the state particularly of policing and law in India It argues that catastrophic events at the national level and the techniques of governance through which they are handled secrete forms of knowing that get embedded into the nooks and crannies of everyday life eroding trust sowing suspicions and leading to an exhaustion of capacity for care Yet the paths to survival honed within these spaces generate critique that compels us to ask how punishment and torture become routinized in democracies Following the paths of those who struggle with these questions in these neighborhoods the book finds that deep philosophical questions such as the inhuman as a possibility of the human rather than its boundary arise in the weaves of these lives and are experienced as a dimension of the social This book will be of great interest to students and scholars in anthropology and throughout the social sciences and humanities Sustainable Cities Development and Environment Protection IV Guang Fan Li, Chao He Chen, Bi Feng Jiang, Qi Zhong Shen, 2014-07-04 Selected peer reviewed papers from the 4th International Conference on Civil Engineering Architecture and Building Materials CEABM 2014 May 24 25 2014 Haikou China India's Villages in the 21st Century Surinder S. Jodhka, Edward Simpson, 2019-09-05 Post India's economic liberalization in the 1990s the village ceased to be central to ongoing sociological concerns As a result the period saw a marginalization of rural life and agrarian economy in the national imagination However in the 21st century as India transforms so does its rural life This book revisits the realities of contemporary rural India exploring the trajectories of change across regions such as those in rural economies the relationship of villages to the outside world and the dynamics of caste inequalities The volume puts together 14 papers based on empirical studies carried out by sociologists social anthropologists and economists over the past 15 years to begin a holistic conversation on contemporary rural India which continues to be an important site of social political and economic activities India's Villages in the 21st Century stresses diversity as a fundamental structure of Indian economy and society and illustrates the point by focusing on the economies patterns of settlements and organization of social and political life in India's villages
