The Sociology of Mathematics Education Paul Dowling,2002-11-01 Until the 1960s maths was studied as an academic subject in a desire to have more mathematicians The current trend however has moved away from viewing maths as a purely intellectual endeavour and towards developing a more mathematically competent workforce and citizenry This trend has seen a large increase in the number of maths schemes being produced by the major educational publishers which attempt to make maths easier and more approachable by using language instead of symbols So why do so many children still fail at maths The author contends that to understand this teachers need to analyze and evaluate the maths textbooks they are currently using The author shows the reader how to systematically analyze and evaluate these textbooks This interrogation of classroom resources should have important implications for teaching strategies and for textbook design and use

Teaching and Learning Geometry Doug French,2004-12-23 This fascinating title reviews the teaching and learning of school geometry from the perspective of both the new teacher and the more experienced teacher It is designed to extend and deepen subject knowledge and to offer practical advice and ideas for the classroom in the context of current practice and research Particular emphasis is given to the following elements understanding the key ideas of the geometry curriculum learning geometry effectively lessons from research and current practice misconceptions and errors the role of technology in learning geometry *The British National Bibliography* Arthur James Wells,2001 Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 *EBOOK: Assessing Children's Mathematical Knowledge* Barry Cooper,Mairead Dunne,1999-12-16 this work is highly relevant to the proliferation of accountability measures worldwide James Scheurich and Douglas Foley In many countries the lives of teachers and children are increasingly dominated by programmes of national testing of mathematics and other subjects In England the majority of the items in such tests have set mathematical tasks in every day situations such as shopping This requires children to make decisions about whether to use or not their own every day knowledge and experience in their problem solving Some children are likely to have a better feel for this game than others *Assessing Children s Mathematical Knowledge* draws on the analysis of national curriculum test data from more than 600 children of 10 11 and 13 14 years of age as well as in depth interviews with 250 of these as they attempt to solve test problems in order to explore the nature of the difficulties children experience with realistic items The book shows by comparing test and interview data that many children as a consequence of their confusion over the requirements of realistic test items fail in tests to demonstrate mathematical knowledge and understanding that they actually possess The book also explores whether this problem of invalid measurement is equally spread across children from different social backgrounds and across the sexes The book will be of interest to academics and teachers studying for advanced degrees in mathematics education sociology of education and educational assessment **The Australian Mathematics Teacher** ,1989

Algebra in the Early Grades James J. Kaput,David W. Carraher,Maria L. Blanton,2017-09-25 This volume is the first to

offer a comprehensive research based multi faceted look at issues in early algebra In recent years the National Council for Teachers of Mathematics has recommended that algebra become a strand flowing throughout the K 12 curriculum and the 2003 RAND Mathematics Study Panel has recommended that algebra be the initial topical choice for focused and coordinated research and development in K 12 mathematics This book provides a rationale for a stronger and more sustained approach to algebra in school as well as concrete examples of how algebraic reasoning may be developed in the early grades It is organized around three themes The Nature of Early Algebra Students Capacity for Algebraic Thinking Issues of Implementation Taking Early Algebra to the Classrooms The contributors to this landmark volume have been at the forefront of an effort to integrate algebra into the existing early grades mathematics curriculum They include scholars who have been developing the conceptual foundations for such changes as well as researchers and developers who have led empirical investigations in school settings Algebra in the Early Grades aims to bridge the worlds of research practice design and theory for educators researchers students policy makers and curriculum developers in mathematics education *For the Learning of Mathematics* ,1991 New Society ,1968 **Key Stage 3 Mathematics** Annie Gammon,2002 An essential file to support teachers and heads of department by bringing together all the recent developments and issues of concern in Key Stage 3 mathematics In fact it s a complete guide to successful planning teaching and assessment work as a team to develop a clear departmental vision translate that vision into planning specific examples of good practice guided INSET activities for the whole team help with differentiation classroom organisation and transition for Year 7 children **Proceedings of the 7th International Conference on Learning Innovation and Quality Education (ICLIQE 2023)** Moh Salimi,Gunarhadi Gunarhadi,Ratna Hidayah,Dewanta Arya Nugraha,2024-11-22 This is an open access book The 7th International Conference on Learning Innovation and Quality Education ICLIQE 2023 is organized by Faculty of Teacher Training and Education The purpose of the ICLIQE 2023 activity is as a forum to accommodate researchers academics educators and education staff consultants government and other stakeholders to share perspectives related to educational trends seen from the perspective of society 5 0 era which includes the fields of science and technology education social and humanities management education basic education special education early childhood education guidance and counseling curriculum and educational evaluation and innovation Proceedings of the Unima International Conference on Social Sciences and Humanities (UNICSSH 2022) Recky Harold Elby Sendouw,Theodorus Pangalila,Sjamsi Pasandaran,Vivi P.
