Dictatorship. Barrington Moore, Jr Barrington Moore,1954 **Democratization and Revolution in the USSR, 1985-91** Jerry F. Hough,1997-05-01 Democratization and Revolution in the USSR 1985 91 presents a strikingly new view of the Gorbachev era and the reasons for the collapse of the Soviet Union Written by one of America s most distinguished specialists on the former Soviet Union this is the first comprehensive overview of the Gorbachev period and describes it as a real revolution not mere reform According to Hough despite Mikhail Gorbachev s talk of a regulated market he never understood that a market must be created on a solid institutional and legal base He was determined to use democratization to free himself from party control but he saw democracy as a way of achieving near universal consensus not a mechanism for forcing through difficult choices The many memoirs that have become available in the last few years including those of Gorbachev himself show that Premier Nikolai Ryzhkov and the bureaucrats in his government actually were the serious economic reformers in the leadership Gorbachev opposed the key transitional steps at every stage and was far closer to the assumptions of shock therapy than he or his opponents ever recognized Hough explains that Gorbachev was not alone in thinking that the destruction of old institutions was enough to unleash a market Westerners also talked of leaping a chasm in a single jump as if democratic and market institutions existed pre created on the other side But precisely because Gorbachev and later Boris Yeltsin was encouraged in all his worst mistakes by Western advice his failure has crucial implications for Western thinking about the process of democratization and marketization This unprecedented book explores those implications in depth Selected by Choice as an Outstanding Book for 1998 **Professionalization of Soviet Society**

Alexander Simirenko,1982-01-01 *The Soviet Bloc, Unity and Conflict* Zbigniew Brzezinski,1967 This is the first full length study of relations among the communist states The study explores the implications of the status of Yugoslavia and China the significance of the Hungarian revolution and the position of Poland in the Soviet bloc and clarifies the Khrushchev Gomulka clash of 1956 and the complex role of Tito Zbigniew Brzezinski emphasizes the role of ideology and power in the relations among the communist states contrasting bloc relations and the unifying role of Soviet power under Stalin with the present situation He suggests that conflicts of interest among the ruling elites will result either in ideological disputes or in weakening the central core of the ideology leading to a gradual decline of unity among the Communist states The author while on leave from his post as Professor and Director of the Research Institute on Communist Affairs Columbia University

and serving on the U S State Department s Policy Planning Council has revised and updated his important study and added three new chapters on more recent developments He gives particular attention to the Sino Soviet dispute
