Terror Intent

**Yair Sharan, Ted J. Gordon, Elizabeth
Florescu**

Terror Intent:

Terror Intent Don Pendleton,1997 **Strategic Terror** Beau Grosscup,2013-07-18 Presenting a global history of aerial bombardment this book shows how certain European powers initiated aerial bombardment of civilians after World War I and how it was an instrument of choice in World War II Beau Grosscup shows that such methods used initially as a means of terrorizing native populations in Africa and the Middle East have become the primary form of terrorism in more recent decades While such strategic terror is not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized Terrorism and Homeland Security Paul Viotti,Michael Opheim,Nicholas Bowen,2008-06-17 Despite the fact that the Department of Homeland Security DHS has been active since November of 2002 the American homeland is still not secure from terrorist attack What passes as DHS strategy is often just a list of objectives with vague references to the garnering of national resources and the marshalling of support from other nations Drawi **International Cooperation in Counter-terrorism** Giuseppe Nesi,2016-04-22 This volume provides a timely analysis of global and regional responses to international terrorism The work assesses the role of the United Nations and its various organs particularly the General Assembly and the Security Council and discusses the key legal issues The second part of the book examines the activity of regional organizations both in their own right as well as their interaction with the UN The volume concludes with a discussion of whether to what extent and how the fight against terrorism has encroached upon fundamental rules of international law such as the international protection of human rights or the use of force among states The volume is the latest in a series drawing on the presentations of high ranking scholars diplomats and representatives of international organizations The result is a stimulating and thought provoking book which will be of interest to researchers and policy makers alike **Global Terrorism Threat Assessment 2025** Alexander Palmer,Riley McCabe,Daniel Byman,Skyeler Jackson,2025-07-24 Terrorism remains a threat to U S citizens assets and interests despite the national security community s decreasing focus on counterterrorism In 2025 domestic terrorism represents a greater threat to the United States than do international terrorist organizations Most domestic terrorist attacks in the United States are carried out by lone actors or small groups who believe in a wide range of ideologies such as white supremacy partisan extremism and Salafi jihadism In the Middle East the Al Qaeda core Al Qaeda in the Arabian Peninsula and the Islamic State remain committed to conducting attacks against the U S homeland as well as U S interests although all three are weaker than they were during their heydays Israel has degraded Hezbollah s and Hamas s capabilities while the Houthis have become a more active regional threat Africa remains the most active theater for Salafi jihadist organizations but the continent s groups are mostly tertiary priorities for the United States with the exception of East Africa s Al Shabaab This report consists of three regional assessments of the threat from terrorist groups and movements in the United States the

Middle East including Afghanistan and Africa The purpose of this assessment is to help U S national security policymakers intelligence and law enforcement professionals and military decision makers prioritize among different terrorist threats

Hostile Intent and Counter-Terrorism Glyn Lawson,Alex Stedmon,2017-09-18 This volume presents world leading ideas and research that explores some of the most prominent topics relevant to detecting terrorism The book is divided into six key themes conceptualising terrorism deception and decision making social and cultural factors in terrorism modelling hostile intent strategies for counter terrorism and future directions Twenty two chapters cover the spectrum of detecting terrorist activities hostile intent crowded public spaces and suspicious behaviour The work draws from high impact research findings and presents case studies to help communicate concepts Specific areas of interest include methodological issues in counter terrorism counter terrorism policy and its impact on end users novel research methods and innovative technologies in counter terrorism A variety of disciplines are represented by this work including ergonomics human factors psychology criminology cognitive science sociology political theory art design engineering and computer science This book not only expands the knowledge base of the subject area and is therefore of prime relevance to researchers investigating counter terrorism but provides a valuable resource to security stakeholders at policy and practitioner levels *Neoliberalism and Terror* Charlotte Heath-Kelly,Christopher Baker-Beall,Lee Jarvis,2017-10-02 Terrorism and neoliberalism are connected in multiple complex and often camouflaged ways This book offers a critical exploration of some of the intersections between the two drawing on a wide range of case studies from the United States United Kingdom Brazil and the European Union Contributors to the book investigate the impact of neoliberal technologies and intellectual paradigms upon contemporary counterterrorism where the neoliberal era frames counter terrorism within an endless war against political uncertainty Others resist the notion that a separation ever existed between neoliberalism and counter terrorism These contributions explore how counterterrorism is already itself an exercise of neoliberalism which practices a form of Class War on Terror Finally other contributors investigate the representation of terrorism within contemporary cultural products such as video games in order to explore the perpetuation of neoliberal and statist agendas In doing all of this the book situates post 9 11 counter terrorism discourse and practice within much needed historical contexts including the evolution of capitalism and the state Neoliberalism and Terror will be of great interest to readers within the fields of International Relations Security Studies Terrorism Studies and beyond This book was originally published as a special issue of Critical Studies on Terrorism

Tripping Points on the Roads to Outwit Terror Yair Sharan,Ted J. Gordon,Elizabeth Florescu,2021-04-26 This book assesses potential developments of terrorism and ways to prevent it the growing threats as new technologies become available and how the same new technologies may help trap those with potential mal intent The drumbeat of terror resonates from everywhere how can we stop it What are the tripping points along the road and how can we avoid them Increasingly more people have access to increasingly more information and increasingly more destructive technologies In the meantime

increasingly advanced technologies help us create an increasingly safer and more harmonious world Advantages and disadvantages are accelerating each other While hybrid threats are intensifying so are the opportunities to address them But what are the compromises and how can we mitigate them This book also looks at the unexpected and often random success and failure of policies to counter the evolving terror threat The various aspects of the terrorism phenomena are presented in a unique way using scenario vignettes which give the reader a realistic perception of the threat The combination of positive and negative implications of emerging technologies is describing what might well be one of the most important dimensions of our common future

A War on Terror? Marianne Wade,Almir Maljevic,2009-11-05 Marianne Wade and Almir Maljevi

Although the worries about terrorism paled in comparison to the economic crisis as a topic during the last US election one can find plenty of grounds to assume that they remain issue number one in the minds of politicians in Europe As the German houses of Parliament prepare to call in the mediation committee in the discussion of legislation which would provide the Federal Police thus far mandated purely with the post facto investigation of crime with powers to act to prevent acts of terrorism Spain s struggle with ETA and the British Government licks its wounds after a resounding defeat of its latest anti terrorist proposals by the House of Lords one cannot but wonder whether post 9 11 the Europeans are not even more concerned with terrorism than their US counterparts A look at media reports legislative and judicial activities in either Britain or Germany clearly underlines that those two countries are deeply embroiled in anti terrorist activity Can it be that Europe is embroiled in the War on Terror constantly providing for new arms in this conflict Or is it a refusal to participate in the War on Terror that fuels a constant need for Parliaments to grapple with the subject begrudgingly conceding one increasingly draconian measure after the other The question as to where Europe stands in the War on Terror is a fascinating one but one which is difficult to answer

Terror and War Kieran Jackel,2021-06-01 Terror and War provides the reader with contemporary insights into military strategy radicalisation and the challenges associated with countering the rising influence of terrorism Twenty Essays is a cautionary and timely collection of works given the current intra state and domestic tensions present within the world The author has seen operational service on several occasions through Southern Asia the Middle East and domestically all of which centred on countering terrorism This lived experience provides the reader with unique perspectives that complement the analysis of counter terrorism theory and military thinking The outcome is an immersive and sobering reflection on the challenges facing policy makers and society more broadly

Delve into the emotional tapestry woven by in **Terror Intent** . This ebook, available for download in a PDF format (PDF Size: *), is more than just words on a page; it's a journey of connection and profound emotion. Immerse yourself in narratives that tug at your heartstrings. Download now to experience the pulse of each page and let your emotions run wild.
