Test Tube Babies In Vitro Fertilization:

Test Tube Babies Adam Miller, Ann Fullick, 2009-03-01 **Test-Tube Babies** Ann Fullick, 2009-01-01

Test Tube Babies In Vitro Fertilization looks at the reality of infertility including the causes and possible treatments. It looks into the techniques used in in vitro fertilization treatment and explains embryo transfer and storage, egg donation, and reproductive technologies. It also considers the ethics surrounding groundbreaking stem cell research, surrogacy, frozen embryos, and the older mothers debate.

Test Tube Babies Tamra Orr, 2003 Examines the causes of infertility, the history of in vitro fertilization, the steps involved in creating a test tube baby, and ethical questions the technology has raised.

Abortion Pills, Test Tube Babies, and Sex Toys L. L. Wynn, Angel M. Foster, 2017-07-25 From Viagra to in vitro fertilization, new technologies are rapidly changing the global face of reproductive health. They are far from neutral; religious, cultural, social, and legal contexts condition their global transfer. The way a society interprets and adopts or rejects a new technology reveals a great deal about the relationship between bodies and the body politic. Reproductive health technologies are often particularly controversial because of their potential to reconfigure kinship relationships, sexual mores, gender roles, and the way life is conceptualized. This collection of original ethnographic research spans the region from Morocco and Tunisia to Israel and Iran and covers a wide range of technologies including emergency contraception, medication abortion, gamete donation, hymenoplasty, erectile dysfunction, and gender transformation.

Local Babies, Global Science Marcia C. Inhorn, 2012-11-12 In the late 1990s Egypt experienced a boom period in in vitro fertilization (IVF) technology and now boasts more IVF clinics than neighboring Israel. In this book Marcia Inhorn writes of her fieldwork among affluent elite couples who sought in vitro fertilization in Egypt, a country which is not only at the forefront of IVF technology in the Middle East but also a center of Islamic education in the region. Inhorn examines the gender, scientific, religious, and cultural ramifications of the transfer of IVF technology from Euro American points of origin to Egypt, showing how cultural ideas reshape the use of this technology and in turn how the technology is reshaping cultural ideas in Egypt.

Brown Bodies, White Babies Laura Harrison, 2016-09-20 *Brown Bodies White Babies* focuses on the practice of cross racial gestational surrogacy in which a woman through in vitro fertilization using the sperm and egg of intended parents or donors carries a pregnancy for intended parents of a different race. Focusing on the racial differences between parents and surrogates, this book is interested in how reproductive technologies intersect with race, particularly when brown bodies produce white babies. While the potential of reproductive technologies is far from pre-determined, the ways in which these technologies are currently deployed often serve the interests of dominant groups through the creation of white middle class heteronormative families. Laura Harrison provides an important understanding of the work of women of color as surrogates, connecting this labor to the history of racialized reproduction in the United States. Cross racial surrogacy is one end of a continuum in which dominant groups rely on the reproductive potential of nonwhite women whose own reproductive desires have been historically thwarted and even demonized. *Brown Bodies White Babies*

provides an interdisciplinary analysis that includes legal cases of contested surrogacy historical examples of surrogacy as a form of racialized reproductive labor the role of genetics in the assisted reproduction industry and the recent turn toward reproductive tourism Joining the ongoing feminist debates surrounding reproduction motherhood race and the body *Brown Bodies White Babies* ultimately critiques the new potentials for parenthood that put the very contours of kinship into question
