New Testament Texts on Greek Amulets from Late Antiquity Brice C. Jones, 2016-03-24 Brice C Jones presents a comprehensive analysis of Greek amulets from late antique Egypt which contain New Testament citations He evaluates the words they contain in terms of their text critical value The use of New Testament texts on amulets was common in late antiquity These citations were extracted from their larger Biblical contexts and used for ritual purposes that have traditionally been understood in terms of the ambiguous category of magic Often these citations were used to invoke the divine for some favour healing or protection For various reasons however these citations have not played a significant role in the study of the text of the Greek New Testament As such this is the first systematic treatment of Greek New Testament citations on amulets from late antique Egypt Jones work has real implications for how amulets and other such witnesses from this era should be treated in the future of the discipline of New Testament textual criticism

New Testament Manuscripts Thomas J Kraus, Tobias Nicklas, 2006-05-01 New Testament Manuscripts Their Texts and Their World comprises twelve essays dealing with manuscripts of the New Testament and or what we can learn from them today Starting from different angles the contributors distinguished scholars of international reputation focus on the fascinating and thrilling stories manuscripts tell for instance about the times they were produced in or the people who handled them The multitude of manuscripts used for establishing the critical text of the New Testament is often only perceived as abbreviations in form of single letters or numerals and today s biblical scholars may hardly ever take notice of the specific features of an original manuscript above all those not mentioned in a critical edition Therefore three sets of contributions deals with the conditions under which manuscripts from the early days of Christianity were produced and transmitted specific individual manuscripts and then special features observed in and with the help of various manuscripts In a final essay the usual method of how to organize and categorize New Testament manuscripts is challenged and an alternative method proposed The essays are linked with each other so that readers may get a feeling of how astounding an occupation with the original manuscripts of the New Testament and the days of the early Christians can be
