The Hundred Million Dollar Lunch Sterling Quinlan, 1974 The Golden Age of Boston Television Terry Ann Knopf, 2017-06-06 There are some two hundred TV markets in the country but only one Boston Massachusetts hosted a Golden Age of local programming In this lively insider account Terry Ann Knopf chronicles the development of Boston television from its origins in the 1970s through its decline in the early 1990s During TV s heyday not only was Boston the nation s leader in locally produced news programming and public affairs but it also became a model for other local stations around the country It was a time of award winning local newscasts spirited talk shows thought provoking specials and documentaries ambitious public service campaigns and even originally produced TV films featuring Hollywood stars Knopf also shows how this programming highlighted aspects of Boston s own history over two turbulent decades including the treatment of highly charged issues of race sex and gender and the stations failure to challenge the Roman Catholic Church during its infamous sexual abuse scandal Laced with personal insights and anecdotes The Golden Age of Boston Television offers an intimate look at how Boston s television stations refracted the city s culture in unique ways while at the same time setting national standards for television creativity and excellence **Regulation and Its Reform** Stephen

Breyer, 2009-07-01 This book will become the bible of regulatory reform No broad authoritative treatment of the subject has been available for many years except for Alfred Kahn s Economics of Regulation 1970 And Stephen Breyer s book is not merely a utilitarian analysis or a legal discussion of procedures it employs the widest possible perspective to survey the full implications of government regulation economic legal administrative political while addressing the complex problems of administering regulatory agencies Only a scholar with Judge Breyer s practical experience as chief counsel to the Senate Judiciary Committee could have accomplished this task He develops an ingenious original system for classifying regulatory activities according to the kinds of problems that have called for or have seemed to call for regulation he then examines how well or poorly various regulatory regimes remedy these market defects This enables him to organize an enormous amount of material in a coherent way and to make significant and useful generalizations about real world problems Among the regulatory areas he considers are health and safety environmental pollution trucking airlines natural gas public utilities and telecommunications He further gives attention to related topics such as cost of service ratemaking safety standards antitrust and property rights Clearly this is a book whose time is here a veritable how to do it book for administration deregulators legislators and the judiciary and because it is comprehensive and superbly organized with a wealth of highly detailed examples it is practical for use in law schools and in courses on economics and political science **In for the Long Haul**
