LABOR AND THE
ANTI-CHINESE MOVEMENT
IN CALIFORNIA

ALEXANDER SAXTON

The Indispensable Enemy Labor And The Anti Chinese Movement In California

Daniel Cornford

The Indispensable Enemy Labor And The Anti Chinese Movement In California:

The Indispensable Enemy Alexander Saxton, 1971 USA Historical analysis of employment discrimination and racial discrimination against Chinese minority group workers in California and its impact on American political ideology and on the trade union movement covers the period from 1865 to 1910 References **The Indispensable Enemy** Alexander Saxton, 1974 Japanese American History Brian Niiya, Japanese American National Museum (Los Angeles, Calif.), 1993 Produced under the auspices of the Japanese American National Museum in Los Angeles this comprehensive reference culls information from primary sources Japanese language texts and documents oral histories and other previously neglected or obscured materials to document the history and nature of the Japanese American experience as told by the people who lived it The volume is divided into three major sections a chronology with some 800 entries a 400 entry encyclopedia covering people events groups and cultural terms and an annotated bibliography of major works on Japanese Americans Includes about 80 bandw illustrations and photographs Annotation copyright by Book News Inc Portland OR Closing the Gate Andrew Gyory, 2000-11-09 The Chinese Exclusion Act of 1882 which barred practically all Chinese from American shores for ten years was the first federal law that banned a group of immigrants solely on the basis of race or nationality By changing America's traditional policy of open immigration this landmark legislation set a precedent for future restrictions against Asian immigrants in the early 1900s and against Europeans in the 1920s Tracing the origins of the Chinese Exclusion Act Andrew Gyory presents a bold new interpretation of American politics during Reconstruction and the Gilded Age Rather than directly confront such divisive problems as class conflict economic depression and rising unemployment he contends politicians sought a safe nonideological solution to the nation's industrial crisis and latched onto Chinese exclusion Ignoring workers demands for an end simply to imported contract labor they claimed instead that working people would be better off if there were no Chinese immigrants By playing the race card Gyory argues national politicians not California not organized labor and not a general racist atmosphere provided the motive force behind the era's most racist legislation *Working People of California* Daniel Cornford, 2023-11-15 From the California Indians who labored in the Spanish missions to the immigrant workers on Silicon Valley's high tech assembly lines California's work force has had a complex and turbulent past marked by some of the sharpest and most significant battles fought by America's working people This anthology presents the work of scholars who are forging a new brand of social history one that reflects the diversity of California's labor force by paying close attention to the multicultural and gendered aspects of the past Readers will discover a refreshing chronological breadth to this volume as well as a balanced examination of both rural and urban communities Daniel Cornford's excellent general introduction provides essential historical background while his brief introductions to each chapter situate the essays in their larger contexts A list of further readings appears at the end of each chapter This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds

and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 **Chinese American Transnational Politics** H. Mark Lai, 2010-05-05 Born and raised in San Francisco Lai was trained as an engineer but blazed a trail in the field of Asian American studies Long before the field had any academic standing he amassed an unparalleled body of source material on Chinese America and drew on his own transnational heritage and Chinese patriotism to explore the global Chinese experience In *Chinese American Transnational Politics* Lai traces the shadowy history of Chinese leftism and the role of the Kuomintang of China in influencing affairs in America With precision and insight Lai penetrates the overly politicized portrayals of a history shaped by global alliances and enmities and the hard intolerance of the Cold War era The result is a nuanced and singular account of how Chinese politics migration to the United States and Sino U S relations were shaped by Chinese and Chinese American groups and organizations Lai revised and expanded his writings over more than thirty years as changing political climates allowed for greater acceptance of leftist activities and access to previously confidential documents Drawing on Chinese and English language sources and echoing the strong loyalties and mobility of the activists and idealists he depicts Lai delivers the most comprehensive treatment of Chinese transnational politics to date

The African American Urban Experience J. Trotter, E. Lewis, T. Hunter, 2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation s industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race ethnicity and nationality within and across national boundaries

This Bittersweet Soil Sucheng Chan, 1986 The role of the Chinese in California agriculture during the later decades of the 19th century and early part of the 20th century was an integral aspect of the agricultural history of the western United States Although the number of Chinese involved in agricultural occupations at one time never exceeded 6000 to 7000 workers their lack of numbers does not diminish their impact Author Chan of Chinese origin has made extensive use of census records and county archival sources to produce the first full history of the Chinese in California agriculture

Workers of All Colors Unite Lorenzo Costaguta, 2023-03-21 As the United States transformed into an industrial superpower American socialists faced the vexing question of how to approach race Lorenzo Costaguta balances intellectual

and institutional history to illuminate the clash between two major points of view. On one side white supremacists believed labor should accept and apply the ascendant tenets of scientific theories of race. But others stood with International Workingmen's Association leaders J. P. McDonnell and F. A. Sorge in rejecting the idea that racial and ethnic division influenced worker-employer relations, arguing instead that class played the preeminent role. Costaguta charts the socialist movement's journey through the conflict and down a path that ultimately abandoned scientific racism in favor of an internationalist class-focused and racially conscious American socialism. As he shows, the shift relied on a strong immigrant influence personified by the cosmopolitan Marxist thinker and future IWW cofounder Daniel De Leon. The class-focused movement that emerged became American socialism's most common approach to race in the twentieth century and beyond.

Calaveras Gold Ronald H. Limbaugh, Willard P. Fuller, 2003-10-01 California's Calaveras County, made famous by Mark Twain and his celebrated Jumping Frog, is the focus of this comprehensive study of Mother Lode mining. Most histories of the California Mother Lode have focused on the mines around the American and Yuba Rivers. However, the Southern Mines, those centered around Calaveras County in the central Sierra, were also important in the development of California's mineral wealth. Calaveras Gold offers a detailed and meticulously researched history of mining and its economic impact in this region from the first discoveries in the 1840s until the present. Mining in Calaveras County covered the full spectrum of technology from the earliest placer efforts through drift and hydraulic mining to advanced hard-rock industrial mining. Subsidiary industries such as agriculture, transportation, lumbering, and water supply, as well as a complex social and political structure developed around the mines. The authors examine the roles of race, gender, and class in this frontier society; the generation and distribution of capital; and the impact of the mines on the development of political and cultural institutions. They also look at the impact of mining on the Native American population; the realities of day-to-day life in the mining camps; the development of agriculture and commerce; the occurrence of crime and violence; and the cosmopolitan nature of the population. Calaveras County mining continued well into the twentieth century, and the authors examine the ways that mining practices changed as the ores were depleted and how the communities evolved from mining camps into permanent towns with new economic foundations and directions. Mining is no longer the basis of Calaveras's economy, but memories of the great days of the Mother Lode still attract tourists who bring a new form of wealth to the region.

Fuel your quest for knowledge with Authored by is thought-provoking masterpiece, **The Indispensable Enemy Labor And The Anti Chinese Movement In California** .
