The Inner Quarters Marriage And The Lives Of Chinese Women In The Sung Period:

The Inner Quarters Patricia Buckley Ebrey, 1993-12-01 The Sung Dynasty 960 1279 was a paradoxical era for Chinese women This was a time when footbinding spread and Confucian scholars began to insist that it was better for a widow to starve than to remarry Yet there were also improvements in women s status in marriage and property rights In this thoroughly original work one of the most respected scholars of premodern China brings to life what it was like to be a woman in Sung times from having a marriage arranged serving parents in law rearing children and coping with concubines to deciding what to do if widowed Focusing on marriage Patricia Buckley Ebrey views family life from the perspective of women She argues that the ideas attitudes and practices that constituted marriage shaped women s lives providing the context in which they could interpret the opportunities open to them negotiate their relationships with others and accommodate or resist those around them Ebrey questions whether women s situations actually deteriorated in the Sung linking their experiences to widespread social political economic and cultural changes of this period She draws from advice books biographies government documents and medical treatises to show that although the family continued to be patrilineal and patriarchal women found ways to exert their power and authority No other book explores the history of women in pre twentieth century China with such energy and depth

Chinese Urbanism: Urban Form And Life In The Tang-song Dynasties Jing Xie, 2020-02-25 Since the 1990s the urban landscape of China has witnessed revolutionary changes that are unrivalled in any country of the world throughout history Rapid urbanization facilitated by the modern planning mechanism for growth provides a feast for property developers Yet associated urban problems such as housing affordability traffic congestion energy consumption and environmental deterioration are aggravated This book takes a historic approach to investigate the planning philosophy urban form and life of the past Through a detailed study of urban development from early times through the imperial period with a focus on the Tang Song dynasties this book attempts to articulate the good qualities of urban landscapes from the past that still have instructive value for modern practices The focus on the Tang Song period is not only because China was the most advanced civilization of its time but also because it underwent a similar process of urbanization evident by tremendous economic growth a dramatic rise of urban population and an extended building boom

Through evaluating the streets city layout public places urban communities houses and gardens and using interdisciplinary research in urban planning urban design architecture history and cultural studies this book asserts that the past is quintessentially important The past not only truthfully records the course of social and cultural formation of urban community and its associated physical fabric but also regulates the directions we may take in the future *Women and Confucian Cultures in Premodern China, Korea, and Japan* Dorothy Ko,JaHyun Kim Haboush,Joan Piggott,2003-08-28

Representing an unprecedented collaboration among international scholars from Asia Europe and the United States this volume rewrites the history of East Asia by rethinking the contentious relationship between Confucianism and women The authors discuss the absence of women in the Confucian canonical tradition and examine the presence of women in politics family education and art in premodern China Korea and Japan What emerges is a concept of Confucianism that is dynamic instead of monolithic in shaping the cultures of East Asian societies As teachers mothers writers and rulers women were active agents in this process Neither rebels nor victims these women embraced aspects of official norms while resisting others The essays present a powerful image of what it meant to be female and to live a woman s life in a variety of social settings and historical circumstances Challenging the conventional notion of Confucianism as an oppressive tradition that victimized women this provocative book reveals it as a modern construct that does not reflect the social and cultural histories of East Asia before the nineteenth century *Polyandry and Wife-Selling in Qing Dynasty China* Matthew H.

Sommer,2015-09-15 This book is a study of polyandry wife selling and a variety of related practices in China during the Qing dynasty 1644 1912 By analyzing over 1200 legal cases from local and central court archives Matthew Sommer explores the functions played by marriage sex and reproduction in the survival strategies of the rural poor under conditions of overpopulation worsening sex ratios and shrinking farm sizes Polyandry and wife selling represented opposite ends of a spectrum of strategies At one end polyandry was a means to keep the family together by expanding it A woman would bring in a second husband in exchange for his help supporting her family In contrast wife sale was a means to survive by breaking up a family a husband would secure an emergency infusion of cash while his wife would escape poverty and secure a fresh start with another man Even though Qing law prohibited both practices under the rubric illicit sexual relations Sommer shows how magistrates charged with propagating and enforcing a fundamentalist Confucian vision of female chastity tried to cope with their social reality in the face of daunting poverty This contradiction illuminates both the pragmatism of routine adjudication and the increasingly dysfunctional nature of the dynastic state in the face of mounting social crisis By casting a spotlight on the rural poor and the experiences of both men and women Sommer provides an alternative to the standard paradigms of women s history that have long dominated scholarship on gender and sexuality in late imperial China

China's Cosmopolitan Empire Mark Edward Lewis,2009-06-30 The Tang dynasty is often called China s golden age a period of commercial religious and cultural connections from Korea and Japan to the Persian Gulf and a time of unsurpassed

literary creativity Mark Lewis captures a dynamic era in which the empire reached its greatest geographical extent under Chinese rule painting and ceramic arts flourished women played a major role both as rulers and in the economy and China produced its finest lyric poets in Wang Wei Li Bo and Du Fu The Chinese engaged in extensive trade on sea and land Merchants from Inner Asia settled in the capital while Chinese entrepreneurs set off for the wider world the beginning of a global diaspora The emergence of an economically and culturally dominant south that was controlled from a northern capital set a pattern for the rest of Chinese imperial history Poems celebrated the glories of the capital meditated on individual loneliness in its midst and described heroic young men and beautiful women who filled city streets and bars Despite the romantic aura attached to the Tang it was not a time of unending peace In 756 General An Lushan led a revolt that shook the country to its core weakening the government to such a degree that by the early tenth century regional warlordism gripped many areas heralding the decline of the Great Tang

Remembrance in Clay and Stone Hajni Elias, 2025-04-03 This book explores the memorial and funerary artistic traditions of Southwest China during the Eastern Han dynasty 25-220 CE In early imperial times the art of this region present day Sichuan province differed in both style and content from tomb and memorial art produced in other parts of the Han empire especially that of the Central Plains considered the heartland of Chinese civilization Although Southwest China was described in contemporaneous accounts as an uncultured backwater it had a vibrant and sophisticated artistic tradition Hajni Elias examines the Southwest's rich material culture which includes pictorial brick tiles mingqi or spirit vessels pottery figurines decorated stone sarcophagi architectural gate towers and commemorative and ancestral stelae She sheds light on the distinct traits and practices that arose from the region's complex geographical cultural and economic tapestry Elias also places the Southwest in a broader Han cultural framework offering a new perspective on early Chinese society and its mortuary and memorial practices Showcasing the quality and breadth of the achievements of the Southwest's artisans and craftsmen *Remembrance in Clay and Stone* reveals the distinctive and sophisticated ways in which people of this era recorded and memorialized their lives

The Cambridge World History of Sexualities: Volume 2, Systems of Thought and Belief Merry E.

Wiesner-Hanks, Mathew Kuefler, 2024-04-30 Volume II focuses on systems of thought and belief in the history of world sexualities ranging from early humans to contemporary approaches. Comprising eighteen chapters, this volume opens with a chapter on the evolutionary legacy and then delves into the sexualities of ancient Egypt, the Near East, Greece, and Rome, continuing with pre-modern South Asia, China, and Japan, Africa, the Americas, and Oceania. Chapters include an examination of sexuality in the religious traditions of Buddhism, Judaism, Christianity, and Islam, and also look at more recent approaches including scientific sex, sexuality in socialism and Marxism, and the intersections between sexuality, feminism, and post-colonialism. *Routledge Handbook of Revolutionary China* Alan Baumler, 2019-08-12 The Routledge Handbook of Revolutionary China covers the evolution of Chinese society from the roots of the Republic of China in the early 1900s until the end of the Cultural Revolution in 1976. The chapters in this volume explain aspects of the process of revolution and how people adapted to the demands of the revolutionary situation. Exploring changes in political leadership as well as transformation in culture, it compares the differences in experiences in urban and rural areas and contrasts rapid changes such as the war with Japan and Communist liberation with evolutionary developments such as the gradual redefinition of public space. Taking a comprehensive approach, the themes covered include War, occupation, and liberation; Religion and gender; Education, cities, and travel. This is an essential resource for students and scholars of Modern China, Republican China, Revolutionary China, and Chinese Politics.
