We cannot live a full life unless we know who we are unless we know the essence of our being The sciences which have been immensely helpful in the way in which we live our lives have been helpless when it comes to telling us how our life should be lived and what its meaning is Accepting any philosophical or religious belief on the other hand limits our freedom to learn directly from personal knowledge of reality as any preconceived ideas do not only alter its perception but limit the spectrum of possibilities to which our reason can be applied To those who do not surrender their right to decide for themselves what reality is life offers a unique opportunity to apply their insights both in the worlds within and without and either validates or disproves their findings If they are true to themselves the continuous feedback life offers will reveal to them unique characteristics of our mind which are otherwise limited by its own beliefs **Richard Wright**
