The Intercultural Campus Transcending Culture And Power In American Higher Education:

The Intercultural Campus Gregory Kazuo Tanaka, 2003 In a post 9 11 nation that is gripped by race fear this book presents an approach to diversity that promotes peace and understanding across difference Discussing studies conducted over an eight year period The Intercultural Campus reveals the underlying sources of racial fragmentation on college and university campuses and outlines a new framework for diversity Citing the results from an innovative four year project that completely transformed the culture of a university Greg Tanaka describes specific programs that all campuses should implement when admitting diverse classes Signaling a larger shift for progressives away from binary essentialized notions of identity to individual agency or subjectivity this book advances a social change philosophy based in interdependence and highlights the skills that future U S leaders will need to interact successfully with others in our diverse global society **The Struggle for Justice, Equity, and Peace in the Global Classroom** McClean, Marva, 2023-06-23 In the current state of global upheaval with the rallying call for human rights and justice for people who have been historically marginalized the curriculum must be decolonized to ensure that children identified as marginalized and at risk are receiving an equitable education that is based on respect and acceptance of their cultural heritage as well as their human rights The Struggle for Justice Equity and Peace in the Global Classroom investigates the global classroom as a site of transformation for educators who dare to take action to replace oppressive and repressive practices with emancipatory strategies grounded in critical consciousness The book s contents convey the pluralism that defines America and the world investigating how educators can re envision the future through an engagement with the past and an understanding of how the historical continuities of racial intolerance and social injustice continue to impact classroom teaching and the outcomes of children whose lives are shaped by the aftermath of slavery and oppression Covering topics such as colonial education inclusive classrooms and student agency this premier reference source is an excellent resource for teachers school administrators literary scholars community activists teacher educators preservice teachers researchers and academicians *How We Got Here: The Role of Critical Mentoring and Social Justice Praxis* , 2020-06-29 In 2018 24% of first time graduate school enrollments were members of minoritized populations while attrition rates continue to signal a blocked pathway to doctoral degree and assistant professorship attainment How We Got Here The Role of Critical Mentoring and Social Justice Praxis Essays in Honor of George W Noblit is a collective effort of scholars of education to deploy critical mentoring and social justice praxis to disrupt this pattern of institutional failure Critical mentoring rejects meritocratic discourses that deny the politicized racialized gendered and ableist spaces of higher education Social justice praxis centers the knowledge and struggle of doctoral students with multiple intersectional identities as interdisciplinary bodies of praxis These positionings speak back to institutional isms with the aim of broadening the participation of folx conventionally held in the margins of academia This volume is presented as a definitive collection that holistically honors nearly 40 years of critical mentoring and social justice

praxis with George W Noblit which each contributor has carried into their own work Contributors are Silvia Cristina Bettez Heather Bower Ashley S Boyd Mary Kay Delaney Josh Diem Deborah Eaker Rich Courtney George Beth Hatt Sherick Hughes Rhonda Jeffries Michael E Jennings Alison LaGarry Monica McKinney Jason Mendez Hillary Parkhouse Summer Melody Pennell Marta Sanch z M Billye Sankofa Waters Amy Senta Amy Swain and Luis Urrieta Jr *Black Lives Matter in US Schools* Boni Wozolek, 2022-07-01 Winner of the 2023 Outstanding Book Award presented by the Division B of the American Educational Research Association *Black Lives Matter in US Schools* critically examines the relationship between schooling and sociocultural abolitionist movements such as BlackLivesMatter Aligning with a long history of education scholars who have insisted on the enmeshed nature of schools and society the book addresses the role of various forms of curricula that perpetuate anti Blackness while simultaneously shaping Black ways of being knowing and doing While its focus tends toward issues of normalized violence *Black Lives Matter in US Schools* is equally concerned with possibilities for justice stemming from curricular change and affects like hope and love that are central to radical acts of resistance to oppression Themes range from critical literacies to IQ tests from Afro surrealism to historiography as the book strategically tacks between traditional forms of qualitative and quantitative research and more personal narratives *Black Lives Matter in US Schools* speaks powerfully against the continued onslaught of inequities in schools and their communities working to create space for forms of learning that are responsible to and for Black lives **Schooling and the Politics of Disaster** Kenneth J. Saltman, 2010-06-10 *Schooling and the Politics of Disaster* is the first volume to address how disaster is being used for a radical social and economic reengineering of education From the natural disasters of the Asian tsunami and the hurricanes in the Gulf Coast to the human made disasters in Iraq Afghanistan Haiti Sudan Indonesia the United States and around the globe disaster is increasingly shaping policy and politics This groundbreaking collection explores how education policy is being reshaped by disaster politics Noted scholars in education and sociology tackle issues as far ranging as No Child Left Behind the War on Terror Hurricane Katrina the making of educational funding crises in the US and the Iraq War to bring to light a disturbing new phenonmemon in educational policy *The Psychologically Literate Citizen* Dana Dunn, 2013-01-01 The concepts of psychological literacy and the psychologically literate citizen promise to invigorate a new global approach to psychology education They pose a basic question What attributes and capabilities should undergraduate psychology majors acquire Many psychological organizations have defined psychological literacy by guidelines and lists of student learning outcomes but although psychology educators across the globe have been working towards helping students to acquire these attributes over the past 50 years educators have only recently explicitly delineated attributes and learning outcomes and sought to develop appropriate learning teaching and assessment strategies including whole program approaches The contributors to this volume argue that psychological literacy is the most important outcome of an undergraduate psychology education and that psychologically literate citizens use their knowledge of psychology to problem solve in ethical and socially

responsible ways that directly benefit their communities In this book a rich variety of international perspectives contribute to the development of the two key concepts of psychological literacy and the psychologically literate citizen Authors provide practical guidance for classroom psychology educators as well as curriculum developers and reviewers Ultimately they make the case for a paradigm shift in psychology education Handbook of Research on Race, Gender, and the Fight for Equality Prescott, Julie, 2016-03-31 Diversity in the workforce can be attributed to both a popular cultural shift and legislative intervention Despite these forces discrimination endures in all aspects of Western society from education to employment Unequal pay and opportunities for promotion are symptoms of a systematic discrimination of individuals based on race and gender The Handbook of Research on Race Gender and the Fight for Equality provides a critical look at race gender and modern day discrimination Focusing on workplace and educational dynamics the research found within this book addresses equal opportunity and diversity requirements from a myriad of perspectives This book is an essential reference source for professionals and researchers working in equality as well as managers and those in leadership roles *Handbook of Multicultural Counseling* J.
