Stigand, 2015-08-06 Excerpt from Central African Game and Its Spoor This handbook is intended as a help or guide to the young or inexperienced sportsman who intends making a hunting trip to Central Africa Spoor cannot be put on paper to exactly resemble the real thing In drawing these spoor the outlines have been well defined and it must be noted that they are taken from picked specimens distinct impressions in the soil As may be surmised the finding and sketching of these spoor and dang has cost not a little time and trouble and in the case of the lesser known or scarcer animals much questioning of native hunters before the information has been deemed reliable enough to be put on paper It will take months and perhaps years of hard experience to tell at a glance to what animal a footprint belongs and the authors themselves have often felt the want of some fairly reliable handbook while in the field especially on going to a new country and meeting with species they have not seen before Before one can question a native a certain knowledge of the language is necessary and this in itself takes much study The authors therefore have given the native names of the different game Many of the ideas and conclusions put forward by the authors may not meet with the approval of perhaps older and more experienced sportsmen but at the same time they are the result of experience and differences of opinion concerning the habits of animals arise between most sportsmen no two holding exactly the same views It will be noticed that the words generally often or usually are of frequent occurrence in describing the habits of animals We think it the greatest mistake to say that any animal will do this or that as the behaviour of no two animals is any more alike than that of two human beings Moreover the same animal may have totally different habits in different localities About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

Illustrations of Most of the Game Tracks Denis David LYELL, 1929 *Central African Game and Its Spoor* Chauncy Hugh Stigand, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1906 edition Excerpt 51 is almost useless for it is tempered too highly and the blade is so thick that after it has got blunt it cannot be sharpened properly without the aid of a grindstone Never buy a knife with a folding handle for after a little wear the spring weakens and it is apt to close on one s hand and besides if the knife was wanted in an emergency it would be useless for it takes two hands to open it A few common butcher s skinning knives should be included to give the natives for skinning game These can be bought for about is For skinning small birds nothing is better than a small penknife it can be hung on the belt swivel and should be provided with a shackle for this purpose If a man is going in for collecting birds he should bring out a small 410 collector s gun with cartridges loaded with No 10 shot and a few No 6 for the larger specimens If a rook rifle is taken a 220 or 250 bore is large enough for it will mainly be used for killing birds for the pot and small mammalia such as cats c The cartridges for the rook rifle should be loaded with smokeless powder in preference to black as it makes less noise and some of the bullets should have hollow points which increase their killing power When one is on a trip after big game it is not advisable to fire off shot guns in the vicinity for this would be likely to scare away the game whereas the report of a small rook rifle would not be heard at a great distance It is also useful for practice on off days and helps to keep one s eye in A pair of good field glasses is a necessity and doubtless the latest form of prism glasses will be chosen A magnifying power of eight diameters is strong enough for all purposes The native hunter could carry the
