while transcendentalists harbored deep skepticism towards benevolence in favor of Emersonian self reliance and Thoreau's insistence on an ascetic life. My Sister's Keeper Jodi Picoult, 2008-03 A major decision about me is being made and no one's bothered to ask the one person who most deserves it to speak her opinion. The only reason Anna was born was to donate her cord blood cells to her older sister. And though Anna is not sick she might as well be. By age thirteen she has undergone countless surgeries transfusions and shots so that her sister Kate can somehow fight the leukemia that has plagued her since she was a child. Anna was born for this purpose her parents tell her which is why they love her even more. But now that she has reached an age of physical awareness she can't help but long for control over her own body and respite from the constant flow of her own blood seeping into her sister's veins. And so she makes a decision that for most would be too difficult to bear at any time and at any age. She decides to sue her parents for the rights to her own body.

My Sister's Keeper Margaret Moorman, 2002 When Margaret Moorman's older sister Sally was first hospitalized with schizophrenia in 1959 her family denied the truth to neighbors friends and even themselves. Not until thirty years later when their mother's death made her Sally's sole caretaker did Margaret face the truth. Now in this poignant memoir she tells the brave story of her struggle to come to grips with the legacy of her sister's devastating disease and its effect on her own life and on her entire family. Margaret reveals her fears that she too would become ill and her ambivalence about having a family of her own. She writes about the difficulties of assuming the responsibility for Sally's care while trying to manage her own career relationships and the birth of her first child. And she tells how she and Sally finally learned to negotiate their relationship and accept each other.
