Skeptical Selves Empiricism And Modernity In The French Novel:

Skeptical Selves Elena Russo, 1996 **Empiricism and the Early Theory of the Novel** Roger Maioli, 2017-03-18 This book is about the empiricist challenge to literature and its influence on eighteenth century theories of fiction British empiricism from Bacon to Hume challenged the notion that imaginative literature can be a reliable source of knowledge This book argues that theorists of the novel from Henry Fielding to Jane Austen recognized the force of the empiricist challenge but refused to capitulate It traces how in their reflections on the novel these writers attempted to formulate a theoretical link between the world of experience and the products of the imagination and thus update the old defenses of poetry for empirical times Taken together the empiricist challenge and the responses it elicited signaled a transition in the longstanding debate about literature and knowledge as an inaugural round in the persisting conflict between the empirical sciences and the literary humanities *The Progressive Poetics of Confusion in the French Enlightenment* John C. O'Neal, 2011-03-14 In *The Progressive Poetics of Confusion in the French Enlightenment* John C O Neal draws largely on the etymological meaning of the word confusion as the action of mixing or blending in order to trace the development of this project which he claims aimed to reject dogmatic thinking in all of its forms and recognized the need to embrace complexity Eighteenth century thinkers used the notion of confusion in a progressive way to reorganize social classes literary forms metaphysical substances scientific methods and cultural categories such as taste and gender In this new work O Neal explores some of the paradoxes of the Enlightenment s theories of knowledge Each of the chapters in this book attempts to address the questions raised by the eighteenth century s particular approach to confusion as a paradoxical reorganizing principle for the period s progressive agenda Perhaps the most paradoxical thinker of his times Diderot occupies a central place in this study of confusion Other authors include Marivaux Crillon Voltaire and Pinel among others Rousseau and Sade serve as counterexamples to this kind of enlightenment but ultimately do not so much oppose the period s poetics of confusion as they complement it The final chapter on Sade combines contemporary discussions of politics society culture philosophy and science in an encyclopedic way that at once reflects the entire period s tendencies and establishes important differences between Sade s thinking and that of the mainstream philosophies Ultimately confusion serves O Neal argues as an overarching positive notion for the Enlightenment and its progressive ideals Michel-Jean Sedaine (1719-1797) David Charlton, Mark Ledbury, 2019-01-15 Originally published in 2000 this book highlights the interest Sedaine s life and work is now belatedly provoking in many scholarly disciplines If Sedaine speaks today to literary history theatre history and opera studies it is because he possessed a multivalent vision one which accounts for both his past neglect and is present rediscovery Like many others he believed that the established official genres needed to be reformed unlike many he made it his business to transform the actual language and operation of the theatre arts he practised Until late eighteenth century opera and drama in France become better understood Sedaine s immense importance for the development of Romantic opera

and theatre risks remaining generally concealed to reveal something of this importance is one main reason for publishing the present volume This book includes chapters on Sedaine and the question of genre the representation of the female in the dramas of Sedaine and the words gestures and other signs in the era of Sedaine **Fiction and the Philosophy of**

Happiness Brian Michael Norton, 2012-09-28 Fiction and the Philosophy of Happiness explores the novel's participation in eighteenth century inquiries after happiness an ancient ethical project that acquired new urgency with the rise of subjective models of wellbeing in early modern and Enlightenment Europe Combining archival research on treatises on happiness with illuminating readings of Samuel Johnson Laurence Sterne Denis Diderot Jean Jacques Rousseau William Godwin and Mary Hays Brian Michael Norton's innovative study asks us to see the novel itself as a key instrument of Enlightenment ethics His central argument is that the novel form provided a uniquely valuable tool for thinking about the nature and challenges of modern happiness whereas treatises sought to theorize the conditions that made happiness possible in general eighteenth century fiction excelled at interrogating the problem on the level of the particular in the details of a single individual's psychology and unique circumstances Fiction and the Philosophy of Happiness demonstrates further that through their fine tuned attention to subjectivity and social context these writers called into question some cherished and time honored assumptions about the good life happiness is in one's power virtue is the exclusive path to happiness only vice can make us miserable This elegant and richly interdisciplinary book offers a new understanding of the cultural work the eighteenth century novel performed as well as an original interpretation of the Enlightenment's ethical legacy The Delirium of Praise Eleanor Kaufman, 2003-05-01 The laudatory essay in which one author praises the work of another is frequently characterized as an unimportant even uncritical mode of writing But as Eleanor Kaufman argues in The Delirium of Praise this mode of exchange is serious and substantial enough to merit scholarly attention By not conforming to standard practices of critical discourse laudatory essays give new status to supposedly inferior forms of communication and states of being including chatter silence sickness imbalance and absence of work and emphasize affective states or emotions such as joy friendship and longing The Delirium of Praise examines a group of five twentieth century French intellectuals Georges Bataille Maurice Blanchot Michel Foucault Gilles Deleuze and Pierre Klossowski and their laudatory essays about each other Structured as a circular series of exchanges the book examines pairings of two thinkers with respect to a given theme The exchange between Bataille and Blanchot takes up the themes of chatter and silence with regard to the novelist Louis Ren des For ts the Blanchot Foucault exchange explores friendship and impersonality through the lens of Jacques Derrida the Foucault Deleuze exchange considers absence of work d soeuvement and the obscure French philosopher Jacques Martin the Deleuze Klossowski exchange revolves around the question of the sick body and the person of Nietzsche and the final exchange between Klossowski and Bataille focuses on imbalanced economies and the writings of the Marquis de Sade Where the praise is most excessive approaching delirium Kaufman locates a powerful thought energy that pushes the laudatory

essay to its limits In her conclusion she presents this unique mode of thought exchange as a form of intellectual hospitality Kaufman uncovers a suspension of subjectivity of personality even of place and time that is both articulated in the laudatory essays and enacted by them Her examination of this neglected mode as practiced by five important French thinkers offers a unique perspective on twentieth century intellectual history **Skeptical Selves** Elena Russo,1996 This is the best book I have read regarding the convergence of language theories the representation of the self and the aesthetic of the novel The general framework is a tour de force Josue Harari Emory University EMF David Lee Rubin,Julia V. Douthwaite,2000-12

A Revolution in Language Sophia A. Rosenfeld,Sophia Rosenfeld,2003-08-01 What is the relationship between the ideas of the Enlightenment and the culture and ideology of the French Revolution This book takes up that classic question by concentrating on changing conceptions of language and especially signs during the second half of the eighteenth century The author traces first the emergence of a new interest in the possibility of gestural communication within the philosophy theater and pedagogy of the last decades of the Old Regime She then explores the varied uses and significance of a variety of semiotic experiments including the development of a sign language for the deaf within the language politics of the Revolution A Revolution in Language shows not only that many key revolutionary thinkers were unusually preoccupied by questions of language but also that prevailing assumptions about words and other signs profoundly shaped revolutionaries efforts to imagine and to institute an ideal polity between 1789 and the start of the new century This book reveals the links between Enlightenment epistemology and the development of modern French political culture The Serious Pleasures of Suspense Caroline Levine,2003 Scholars have long recognized that narrative suspense dominates the formal dynamics of 19th century British fiction This study argues that various 19th century thinkers John Ruskin Michael Faraday Charlotte Bronte saw suspense as a vehicle for a new approach to knowledge called realism **Changing Minds** John C. O'Neal,2002 In this study of the epistemological underpinnings of cultural changes in the French enlightenment the author shows how many of the cultural changes brought about by Eighteenth century French thinkers arose from the different forms of knowledge and experiences they pursued The various chapters illustrate the rich interdisciplinarity of the period s thinking which is unified by a central concern with the mind and discuss important Enlightenment developments in aesthetics historiography metaphysics anthropology language and literature political theory and medicine **Encyclopedia of Media and Communication** Marcel Danesi,2013-06-17 The first comprehensive encyclopedia for the growing fields of media and communication studies the Encyclopedia of Media and Communication is an essential resource for beginners and seasoned academics alike Contributions from over fifty experts and practitioners provide an accessible introduction to these disciplines most important concepts figures and schools of thought from Jean Baudrillard to Tim Berners Lee and podcasting to Peircean semiotics Detailed and up to date the Encyclopedia of Media and Communication synthesizes a wide array of works and perspectives on the making of meaning The appendix includes timelines covering the whole historical record for each

medium from either antiquity or their inception to the present day Each entry also features a bibliography linking readers to relevant resources for further reading The most coherent treatment yet of these fields the Encyclopedia of Media and Communication promises to be the standard reference text for the next generation of media and communication students and scholars

Enlightenment and Pathology Anne C. Vila, 1998 If moods are as contagious as colds and wickedness as debilitating as a bad diet inquiries into assorted discourses in 18th century France still have much to tell Author Anne Vila shows that multiple junctures between the body and the mind promoted a steady commerce of speculation and discussion between science and the social salons of the time 9 illustrations

Imagining Religious Toleration Alison Conway, David Alvarez, 2019-08-31 Formerly a site of study reserved for intellectual historians and political philosophers scholarship on religious toleration from the perspective of literary scholars is fairly limited Largely ignored and understudied techniques employed by writers to influence cultural understandings of tolerance are rich for exploration In investigating texts ranging from early modern to Romantic Alison Conway David Alvarez and their contributors shed light on what literature can say about toleration and how it can produce and manage feelings of tolerance and intolerance Beginning with an overview of the historical debates surrounding the terms toleration and tolerance this book moves on to discuss the specific contributions that literature and literary modes have made to cultural history studying the literary techniques that philosophers theologians and political theorists used to frame the questions central to the idea and practice of religious toleration Tracing the rhetoric employed by a wide range of authors the contributors delve into topics such as conversion as an instrument of power in Shakespeare the relationship between religious toleration and the rise of Enlightenment satire and the ways in which writing can act as a call for tolerance
