The Emotion Machine Marvin Minsky, 2007-11-13 One of the world s leading thinkers on artificial intelligence and author of *The Society of Mind* explains the many ways that each mind works and shows why emotions and feelings are just different ways of thinking

Reasonable Faith Americo Tulipano, 2019-10-24 Christians and non Christians alike are troubled by powerful questions Why do innocent people suffer Why isn t spiritual truth objectively provable How can evolution be reconciled with belief in God What is a soul What is moral truth How much hard history do the gospels contain What did Jesus mean when he spoke of perfection What is evil Clear concise answers to these and 265 other questions are offered in *Reasonable Faith* Backed by many years of inquiry and research this book takes on questions that have been avoided or given terse treatment by other Christian answer books In the process of facing such questions this work provides an honest and reasonable basis for

compassionate Christian faith Like a breath of fresh air wonderful Dr Francis Collins Director of the National Institute of Health Author of The Language of God A masterpiece Brother Aelred Reid Benedictine Monk St John s Abbey Collegeville Minnesota Beautifully written and diligently researched Reverend Richard A Santella Retired United Methodist Minister Wonderful Joan Roughgarden Professor of biology Stanford University Author of Evolution and Christian Faith

Attack of the Killer Facts! Eric Gryzmkowski,2011-04-18 Factoid Attack Inherent sadistic streak in dentists confirmed The electric chair was invented by a dentist Dr Alfred Southwick Not surprising dentists have been perfecting torture devices for centuries Factoid Attack Galaxy at risk Intelligent life in short supply In 1961 Astronomer Frank Drake estimated the number of probable intelligent civilizations inhabiting our galaxy Using conservative numbers that estimate came to 10 000 Unfortunately we are not included in that total Factoid Attack Colorblind bulls hate all matadors equally The color of a matador s cape or muleta is traditionally red which is widely believed to irritate the bull In reality bulls are colorblind so it is irrelevant what color cape a matador uses to antagonize them Shot in the dark but maybe it s the being stabbed with swords bit that pisses them off Forget Fringe Warehouse 13 and The X Files In this book you ll find more weird and wacko truths than in all those combined From golden poison dart frogs with enough venom to kill ten grown humans to cockroaches that can survive radiation 15 times stronger than what kills people scary and strange just got scarier and stranger

In Defense of Science Frank R. Spellman,Joan Price-Bayer,2010-12-16 Today only a few people outside of the scientific community are conversant with the tradition of science and its many breakthroughs The rest are scientifically illiterate So say Frank R Spellman and Joni Price Bayer authors of In Defense of Science Why Scientific Literacy Matters This book explains why ordinary citizens need to have an understanding of science its methods and its groundbreaking discoveries The authors introduce the most basic scientific concepts in accessible and straightforward language Along the way they debunk several misconceptions of science and scientists and arrive at a view of science as an integral part of society policy and everyday life The book begins with an introduction to science and its basic concepts including a brief and entertaining history of science and scientific discoveries before taking on current views of science in society It surveys the many sources of our ideas of science including pop culture classics of literature news media and political discourse Much of the information from these sources tends to mislead and the only way to guard against such misinformation is to become scientifically literate and promote scientific literacy in society The book therefore delves into the reasons that so many people do not understand basic scientific principles and do not keep up with scientific breakthroughs and finishes by examining the current state of science education It includes many resources for further reading and is presented in an engaging and entertaining way It offers much food for thought for anyone concerned with science in today s world

The Code for Global Ethics Rodrigue Tremblay,2010-12 Humanists have long contended that morality is a strictly human concern and should be independent of religious creeds and dogma This principle was clearly articulated in the two Humanist Manifestos issued in the mid twentieth

century and in Humanist Manifesto 2000 which appeared at the beginning of the twenty first century Now this code for global ethics further elaborates ten humanist principles designed for a world community that is growing ever closer together In the face of the obvious challenges to international stability from nuclear proliferation environmental degradation economic turmoil and reactionary and sometimes violent religious movements a code based on the natural dignity and inherent worth of all human beings is needed more than ever In separate chapters the author delves into the issues surrounding these ten humanist principles preserving individual dignity and equality respecting life and property tolerance sharing preventing domination of others eliminating superstition conserving the natural environment resolving differences cooperatively without resort to violence or war political and economic democracy and providing for universal education This forward looking optimistic and eminently reasonable discussion of humanist ideals makes an important contribution to laying the foundations for a just and peaceable global community

What Happens After Life? Matthew O'Neil,2022-06-29 What happens to us when we die It s a question that has been debated for centuries moulded through time to fit our ever changing views Many religions teach that how we act in our life will determine where we will end up after life If you follow religious teachings and adhere to their ethical standards you will be rewarded and spend an eternity in heaven If not you will be punished and forced to spend forever in hell Modern science however will tell you a completely different story fanciful hopeful tales of an afterlife are both rationally explainable and lacking in evidence Theologian Matthew O Neil demonstrates that the contemporary religious view of the afterlife is far from what our ancestors envisioned Subjecting both original Scripture and contemporary faith to the rigours of modern science and rational philosophy he seeks to answer one of humanities most famous puzzles what happens After Life

THE SECRET SERVICE CHURCH:FAITH SEEKING RELATEDNESS George Gammack,2015-08-13 We all know what church is Likewise we are provided with a supply of set notions for God Christ and the Bible which make up the stock in trade equipment for both believer and non believer This study asks fundamental questions about all these from a relational perspective attempting to illumine the faith quest by way of clues from the common realities of human interaction In this it is the appropriate provisions of relationships rather than the assent to doctrines that forms the spiritual basis of community Such a theology of relatedness is urgently needed We must come out of our creedal closets to be part of a new diaspora This demands a secret discipline of servant relationship at work in that no man s land where there is space for all manner of secular saints and doctrinal devils to discover the possibilities of their togetherness the secret service church in odd places and often strange company

The Secret Revealed Rick Marschall,Jim Garlow,2007-07-31 Jim Garlow the bestselling author of *Cracking DaVinci s Code* along with Rick Marschall take on the New York Times bestseller *The Secret* to expose its distortion of truth from a biblical perspective

A Brief Guide to Ghost Hunting Leo Ruickbie,2013-08-15 There has been an upsurge in books television programmes films and websites exploring the reality or otherwise of the spirit world Not since the founding of The Ghost Club in 1862 and the Society for Psychical

Research in 1882 has ghost hunting been so popular Television and the internet in particular have fueled this new level of interest creating a modern media phenomenon that spans the globe But while the demand for information is high good information remains scarce A Brief Guide to Ghost Hunting leads us through the process of ghost hunting from initially weighing the first report to choosing equipment and investigating and identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more

A Short Course in Intellectual Self Defense Normand Baillargeon,2011-01-04 What is the relationship between democracy and critical thinking What must a citizen in a democracy know to make the word democracy meaningful In A Short Course in Intellectual Self Defense historian and educator Normand Baillargeon provides readers with the tools to see through the spin and jargon of everyday politics and news reporting in order to decide for themselves what is at stake and how to ask the necessary questions to protect themselves from the manipulations of the government and the media Whether the issue be the call to what we re told will be a bloodless war the debate around Intelligent Design or the meaning of a military expenditure Baillargeon teaches readers to evaluate information and sort fact from official and media spin

Decoding Persistent Depression: Book One - Mysteries and Mindsets Roger Di Pietro,2018-05-09 An investigation of how and why depression can rise survive and thrive Back cover *Beyond* Fred M. Frohock,2010-03-03 Is death the final event in human life or does another existence follow What are the signs and possible proofs of such continuity Such questions have sparked speculation in philosophy religion art and science throughout human history and remain a familiar concern for even the most casual observer of the human condition In his provocative new book Fred Frohock explores the possibility that our existence is neither defined by nor limited to the purely physical nor is it terminated at death Fearlessly pursuing such a sensitive subject Frohock suggests that death s domain may not be quite the undiscovered country lamented by Hamlet He wades boldly into the debates between hardcore materialists and devout spiritualists provides glimpses of recent findings in brain research the so called mind body problem and consciousness studies and in general offers an idiosyncratic introduction to some of the most provocative and least understood aspects of what we call conscious life In the process he provides fresh insights into the narratives claims and conundrums associated with life after death near death and out of body experiences

reincarnation and a host of psychic phenomena that continue to puzzle the experts Demonstrating a keen grasp of subjects ranging from neurochemistry to popular culture Frohock is a sure footed tour guide through a richly diverse field of research He considers what past life regression therapy suggests about reincarnation assessing the credibility of pioneering research by Brian Weiss and Ian Stevenson He introduces readers to the work of the University of Virginia s Near Death Experience Project with reports stretching back 35 years and the Human Consciousness Project s study of 1 500 survivors of cardiac arrest And he contemplates whether people in permanent vegetative states like Terri Schiavo and Sunny von Blow are alive or not and what these transitional states tell us about death Leavened with humor and a Renaissance style intellect that draws in Tolstoy and Hemingway along with films like Solaris and Blade Runner Frohock s deep meditations are deftly interposed with brief fictional interludes that humanize his book s more abstract dimensions while exploring claims about the supernatural Approaching the world s most baffling subjects with a critical eye an open mind and an agnostic s heart Beyond looks beyond the last threshold and points the way toward a better understanding of human existence

The Meaning of Death Kai Horsthemke,2024-07-23 If death is the cessation of life then as a concept it draws its meaning from the preceding life While death and dying are inextricably connected dying is still a part of life unlike death The Meaning of Death A Philosophical Investigation analyzes death and dying the biotechnical quest for immortality the afterlife and the rationality of self chosen death Assuming eternal life will one day become possible Kai Horsthemke argues that immortality is not obviously desirable and that even if the right to life in principle includes the right to eternal life it must also include the right to self determined dying and death Although there is no creationist basis for existence and the finality of death remains a universal inevitable prospect this need not undermine confidence in the personal and transpersonal value of human activities Life is valuable not only because of its uniqueness and unrepeatability but also because it is finite The meaning of death is essentially that it gives meaning to life
