20th Anniversary Edition

Terror And Triumph The Nature Of Black Religion

Anthony B. Pinn

Terror And Triumph The Nature Of Black Religion:

Terror and Triumph Anthony B. Pinn, 2003-01-01 Given the unique history of African Americans and their diverse religious traditions seen in black Christianity the Nation of Islam Voodoo and others is there one fundamental meaning to black religion in America What is the heart and soul of African American religious life As a leader in both black religious studies and theology Anthony Pinn has probed the dynamism and variety of African American religious expressions In this work which he also delivered as the Edward Cadbury Lectures at the University of Birmingham England he searches out the basic structure of black religion tracing the black religious spirit in its many historical manifestations Pinn finds in the terrors of enslavement of black bodies and subsequent oppressions the primal experience to which the black religious impulse provides a perennial and cumulative response Oppressions entailed the denial of personhood and creation of an object the Negro Slave auctions punishments and later lynchings created an existential dread but also evoked a quest a search for complex subjectivity or authentic personhood that still fuels black religion today Pinn s promising work offers a major new understanding of what it means to be black and religious in the United States

What Is African American Religion? Anthony B. Pinn, 2024-06-04 Is there really a monolithic Black church Distilling the arguments of Anthony B Pinn s important and provocative work in *Terror and Triumph* this brief volume asks the central question What really is African American religion Sketching the religious landscape of African American communities today Pinn makes explicit the tension in traditional conversations about Black religion that privilege either Christianity in particular or organizations with doctrines and creeds in general Discussing the misunderstandings and historical inaccuracies of such views Pinn offers an alternate theory of Black religion that begins with a basic push for embodied meaning as its core impulse In this expanded edition Pinn offers new reflections on the state of the Black church

Introducing African American Religion Anthony B. Pinn, 2013 A creative and unique approach to the history of African American religion offering a reader friendly depiction of the major themes and issues confronted by African Americans involved in a variety of traditions

Varieties of African American Religious Experience Anthony B. Pinn, 1998 Pinn s work provides a fascinating look especially at Vodoo Santeria the Nation of Islam and Black Humanists in the United States Cover

Care for the Mental and Spiritual Health of Black Men Nicholas Grier, 2019-11-01 Black men need hope to survive and ultimately flourish As mental health is a critical but often neglected issue especially among Black men *Care for the Mental and Spiritual Health of Black Men* examines that sensitive topic in conjunction with reflections on race gender sexuality and class to offer a hopeful and constructive framework for care and counseling particularly for Black men These are not separate from spiritual health and growth as well but both are integral to holistic dynamic wellbeing In this the author provides a careful and critical analysis of spiritual hope and healing as ingredient to individual and communal flourishing As such this volume will be a vital resource for health practitioners spiritual caregivers and providers in community care who serve to bolster the mental wellbeing of Black men

Religion

and Hip Hop Monica R. Miller, 2013 This title brings together the category of religion hip hop cultural modalities and the demographic of youth Bringing postmodern theory and critical approaches in the study of religion to bear on hip hop cultural practices the book examines how scholars have deployed and approached religion when analyzing hip hop data The Oxford Handbook of Religion and Race in American History Kathryn Gin Lum, Paul Harvey, 2018-03-01 The Oxford Handbook of Religion and Race in American History brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview for those interested in the role of religion and race in American history Thirty four scholars from the fields of History Religious Studies Sociology Anthropology and more investigate the complex interdependencies of religion and race from pre Columbian origins to the present The volume addresses the religious experience social realities theologies and sociologies of racialized groups in American religious history as well as the ways that religious myths institutions and practices contributed to their racialization Part One begins with a broad introductory survey outlining some of the major terms and explaining the intersections of race and religions in various traditions and cultures across time Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four plus centuries Taken together The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject and to help make sense of contemporary issues and dilemmas *The Rise and Demise of Black Theology* Alistair Kee, 2017-11-28 Black Theology emerged in the 1960s as a response to black consciousness In South Africa it is a critique of power in the UK it is a political theology of black culture The dominant form of Black Theology has been in the USA originally influenced by Black Power and the critique of white racism Since then it claims to have broadened its perspective to include oppression on the grounds of race gender and class In this book the author contests this claim especially by Womanist black women Theology Black and Womanist Theologies present inadequate analyses of race and gender and no account at all of class economic oppression With a few notable exceptions Black Theology in the USA repeats the mantras of the 1970s the discourse of modernity Content with American capitalism it fails to address the source of the impoverishment of black Americans at home Content with a romantic imaginary of Africa this African American movement fails to defend contemporary Africa against predatory American global ambitions **Jimmy's Faith** Christopher Hunt, 2024-12-03 A novel approach to understanding the work of James Baldwin and its transformative potential The relationship of James Baldwin's life and work to Black religion is in many ways complex and confounding What is he doing through his literary deployment of religious language and symbols Despite Baldwin's disavowal of Christianity in his youth he continued to engage the symbols and theology of Christianity in works such as *The Amen Corner* *Just Above My Head* and others With *Jimmy's Faith* author Christopher W Hunt shows how Baldwin's usage of those religious symbols both shifted their meaning and served as a way for him to build his own religious and spiritual vision Engaging Jos Esteban Mu oz's theory of disidentification as a queer practice of imagination and survival Hunt

demonstrates the ways in which James Baldwin disidentifies with and queers Black Christian language and theology throughout his literary corpus Baldwin's vision is one in which queer sexuality signifies the depth of love's transforming possibilities the arts serve as the religious medium of knitting Black community together an agnostic and affective mysticism undermines Christian theological discourse androgyny troubles the gender binary and the Black child signifies the hope for a world made new In disidentifying with Christian symbols Jimmy's Faith reveals how Baldwin imagines both religion and the world otherwise offering a model of how we might do the same for our own communities and ourselves **Africana**

Religion in the Digital Age Margarita Simon Guillory, 2024-12-27 This book diversifies the fields of digital religion studies and Africana religious studies by considering the nuanced intersections between digital technologies and the religious experiences of African Americans While Christianity is a continuous marker of religious identity for many African Americans this digital approach to examining Africana religion in the US uncovers other non-Christian esoteric traditions that have often been marginalized within academia The book explores the diverse ways that African Americans employ the Internet social media human enhancement technologies and gaming to construct multidimensional modes of religious identities It also considers the ways that Africana religious practitioners employ digital platforms to both complement and disrupt religious authority Ultimately the book establishes Africana religious experiences as viable entry points in the scholarly engagement of religion in the digital age As such it will be a key resource for scholars of Religious Studies Africana Religious and Esoteric Studies Religion and Culture and Religion and Sociology
