Terror Unleashed:

Terror and Modernity Donatella Di Cesare, 2019-06-10 We are inclined to see terrorist attacks as an aberration a violent incursion into our lives that bears no intrinsic relation to the fundamental features of modern societies But does this view misconstrue the relationship between terror and modernity In this book philosopher Donatella Di Cesare takes a historical approach and argues that terror is not a new phenomenon but rather one that has always been a key part of modernity At its most basic level terrorism is about the struggle for power and sovereignty The growing concentration of power in the hands of the state which is a constitutive feature of modern societies sows the seeds of terrorism which is deployed as a weapon by those who are exposed to the violence of the state and feel that they have no other recourse As Di Cesare illustrates her argument with examples ranging from the Red Brigades and 9 11 to jihadism and ISIS her sophisticated analysis will appeal to anyone who wishes to understand contemporary terrorism more deeply as well as to students and scholars of philosophy and political theory

Shooting Terror Meenakshi Bharat, 2020-02-20 Shooting Terror highlights the disturbing immediacy of acts of terror and how cinema responds to them It follows the changing representations of terrorism in Hindi cinema by fielding in depth textual analyses of films such as Roja Maachis Black Friday Tere Bin Laden Uri The Surgical Strike among others It traces how terror and the terrorist have come to be viewed in the Indian cultural space and lays the grounds for a multivalent perspectival reading of cinema and terrorism Moving from the threat of terror condensed in the Mogambo esque villain in Mr India to the showcasing of terror and the terrorist in their lived in realities in Haider and Shahid the book explores the fraught connections between terror and the themes of devastation and trauma between terror and the urban cityscape It also seeks to highlight the place of humour and satire in films on terrorism and the presence of the reactionary far right in these films One of the first books to present a composite picture of terrorism in contemporary Hindi cinema this volume will be of interest to researchers and academics of cultural studies media and film studies and the study of sociopsychological violence in media and culture

The Oxford Handbook of Terrorism Erica Chenoweth, Richard English, Andreas Gofas, Stathis N. Kalyvas, 2019-03-14 The Oxford Handbook of Terrorism systematically integrates the substantial body of scholarship on terrorism and counterterrorism before and after 9 11 In doing so it introduces scholars and practitioners to state of the art approaches methods and issues in studying and teaching these vital phenomena This Handbook goes further than most existing collections by giving structure and direction to the fast growing but somewhat disjointed field of terrorism studies The volume locates terrorism within the wider spectrum of political violence instead of engaging in the widespread tendency towards treating terrorism as an exceptional act Moreover the volume makes a case for studying terrorism within its socio historical context Finally the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields including political science political economy history sociology anthropology criminology law

geography and psychology In doing so the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s *Terrorism History and Facets* N. Horror examines contemporary regimes of horror into horror's intricacies and into their deployment on and through human bodies and body parts To track horror's work what horror decomposes and perhaps recomposes Debrix goes beyond the idea of the integrality and integrity of the human body and it brings the focus on parts pieces or fragments of bodies and lives Looking at horror's production of bodily fragments both against and beyond humanity the book is also about horror's own attempt at re-forming or re-creating matter from the perspective of post-human non-human and inhuman fragmentation Through several contemporary instances of dismantling of human bodies and pulverization of body parts this book makes several interrelated theoretical contributions It works with contemporary post-geo-political figures of horror faces of concentration camp dwellers body parts of victims of terror attacks the outcome of suicide bombings graphic reports of beheadings re-compositions of melted and mingled remnants of non-human and human matter after 9/11 to challenge regimes of terror and security that seek to forcefully and ideologically reaffirm a biopolitics and thanatopolitics of human life in order to anchor today's often devastating deployments of the metaphysics of substance Critically enabling one to see how security and terror form a geo-political continuum of violent mobilization utilization and often destruction of human and non-human bodies and lives this book will be of interest to graduates and scholars of bio-politics international relations and security studies
