Testaments of Toluca Caterina Pizzigoni, 2006-12-14 Testaments written in their own language Nahuatl have been crucial for reconstructing the everyday life of the indigenous people of central Mexico after Spanish contact Those published to date have largely been from the sixteenth and early seventeenth centuries Testaments of Toluca presents a large body of Nahuatl wills 98 from 1652 to 1783 from an important valley not much studied thus greatly enlarging our perspective on the evolution of indigenous society and culture in central Mexico Each testament is transcribed translated and accompanied by a commentary on the testator's situation and on interesting terminology A substantial introductory study fully analyzes the testamentary genre as seen in this corpus a first and summarizes the content of the documents in realms such as gender kinship household and land Wills are very human documents and the apparatus draws out this aspect telling us much of local indigenous life in central Mexico in the third century after Spanish contact so that the book is of potential interest to a broad spectrum of readers

Angels, Demons and the New World Fernando Cervantes, Andrew Redden, 2013-02-07 When European notions about angels and demons were exported to the New World they underwent remarkable adaptations Angels and demons came to form an integral part of the Spanish American cosmology leading to the emergence of colonial urban and rural landscapes set within a strikingly theological framework Belief in celestial and demonic spirits soon regulated and affected the daily lives of Spanish Indigenous and Mestizo peoples while missionary networks circulated these practices to create a widespread and generally accepted system of belief that flourished in seventeenth century Baroque culture and spirituality This study of angels and demons opens a particularly illuminating window onto intellectual and cultural developments in the centuries that followed the European encounter with America The volume will be of interest to scholars and students of religious studies anthropology of religion history of ideas Latin American colonial history and church history

The Forgotten Diaspora Travis Jeffres, 2023-06 2023 Robert M Utley Award Winner Western History Association 2023 David J Weber Book Prize Finalist Western History Association 2024 Choice Outstanding Academic Title In *The Forgotten Diaspora* Travis Jeffres explores how Native Mexicans involved in the conquest of the Greater Southwest pursued hidden agendas deploying a covert agency that enabled them to reconstruct Indigenous communities and retain key components of their identities even as they

were technically allied with and subordinate to Spaniards Resisting modifying and even flatly ignoring Spanish directives Indigenous Mexicans in diaspora co created the U S Mexico borderlands and laid enduring claims to the region Jeffres contends that tens of thousands perhaps hundreds of thousands of central Mexican Natives were indispensable to Spanish colonial expansion in the Greater Southwest in the sixteenth and seventeenth centuries These vital allies populated frontier settlements assisted in converting local Indians to Christianity and provided essential labor in the mining industry that drove frontier expansion and catapulted Spain to global hegemony However Nahuatl records reveal that Indigenous migrants were no mere auxiliaries to European colonial causes they also subverted imperial aims and pursued their own agendas wresting lands privileges and even rights to self rule from the Spanish Crown Via Nahuatl language hidden transcripts of Native allies motivations and agendas The Forgotten Diaspora reimagines this critical yet neglected component of the hemispheric colonial era scattering of the Americas Indigenous peoples

Formations of Belief Philip Nord, Katja Guenther, Max Weiss, 2019-09-17 For decades scholars and public intellectuals have been predicting the demise of religion in the face of secularization Yet religion is undergoing an unprecedented resurgence in modern life and secularization no longer appears so inevitable Formations of Belief brings together many of today's leading historians to shed critical light on secularism's origins its present crisis and whether it is as antithetical to religion as it is so often made out to be Formations of Belief offers a more nuanced understanding of the origins of secularist thought demonstrating how Reformed Christianity and the Enlightenment were not the sole vessels of a worldview based on rationalism and individual autonomy Taking readers from late antiquity to the contemporary era the contributors show how secularism itself can be a form of belief and yet how its crisis today has been brought on by its apparent incapacity to satisfy people's spiritual needs They explore the rise of the humanistic study of religion in Europe Jewish messianism atheism and last rites in the Soviet Union the cult of the saints in colonial Mexico religious minorities and Islamic identity in Pakistan the neuroscience of religion and more Based on the Shelby Cullom Davis Center Seminars at Princeton University this incisive book features illuminating essays by Peter Brown Yaacob Dweck Peter E Gordon Anthony Grafton Brad S Gregory Stefania Pastore Caterina Pizzigoni Victoria Smolkin Max Weiss and Muhammad Qasim Zaman

The Nahuas After the Conquest James Lockhart, 1994-09-01 A monumental achievement of scholarship this volume on the Nahua Indians of Central Mexico often called Aztecs constitutes our best understanding of any New World indigenous society in the period following European contact Simply put the purpose of this book is to throw light on the history of Nahua society and culture through the use of records in Nahuatl concentrating on the time when the bulk of the extant documents were written between about 1540-50 and the late eighteenth century At the same time the earliest records are full of implications for the very first years after contact and ultimately for the preconquest epoch as well both of which are touched on here in ways that are more than introductory or ancillary

Nahuas and Spaniards James Lockhart, 1991 The Nahua Indians of central Mexico often misleadingly called Aztecs after the quite

ephemeral confederation that existed among them in late pre Hispanic times were the most populous of Mesoamerica's cultural linguistic groups at the time of the Spanish conquest. They remained at the center of developments for centuries thereafter since the bulk of the Hispanic population settled among them and they bore the brunt of cultural contact. This collection of thirteen essays, five of them previously unpublished by the leading authority on the postconquest Nahuas and Nahuatl-Spanish interaction, brings together pieces that reflect various facets of the author's research interests. Underlying most of the pieces is the author's pioneering large-scale use of Nahuatl manuscripts to illuminate the society and culture of native Mexicans in the Spanish colonial period. The picture of the Nahuas that emerges shows them far less at odds with the colonial world than it was useful to them and far more capable of maintaining their own pre-conquest identity than has previously been suggested.

The Aztecs at Independence Miriam Melton-Villanueva, 2022-06-14. This ethnohistory uses colonial-era native language texts written by Nahuas to construct history from the indigenous point of view. The book offers the first internal ethnographic view of central Mexican indigenous communities in the critical time of independence when modern Mexican Spanish developed its unique character founded on indigenous concepts of space, time, and grammar. *The Aztecs at Independence* opens a window into the cultural life of writers, leaders, and worshippers. Nahuatl women and men in the midst of creating a vibrant community.
