state's congressional delegation in Washington was comprised of twenty five Republicans and nine Democrats Red State explores why this transformation took place and what these changes imply for the future of Texas politics Wayne Thorburn analyzes a wealth of data to show how changes in the state's demographics including an influx of new residents the shift from rural to urban and the growth of the Mexican American population have moved Texas through three stages of party competition from two tiered politics to two party competition and then to the return to one party dominance this time by Republicans Thorburn reveals that the shift from Democratic to Republican governance has been driven not by any change in Texans ideological perspective or public policy orientation even when Texans were voting Democrat conservatives outnumbered liberals or moderates but by the Republican party's increasing identification with conservatism since 1960
