Texas Victory Pb 2003:

Journal of the West Lorrin L. Morrison, Carroll Spear Morrison, 2004 **Narrative and Ethical Understanding** Garry L. Hagberg, 2024-07-05 There has been a steady stream of articles written on the relations between ethics and the interpretation of literature but there remains a need for a book that both introduces and significantly contributes to the field particularly one that shows how we can think more openly and creatively about the multiform powers of ethical narrative by considering ethically significant literature This volume offers an analytically acute and culturally rich way of understanding how it is that we can productively think philosophically about the narrative structures that describe our ethical lives and what kind of distinctive conceptual and in some cases personal progress we can make by doing so Given the extremely widespread interest in ethical issues this volume will strike resonant chords far and wide on arrival while offering something new in bringing together the study of long form narrative the language of moral psychology and detailed literary case studies Given the vast expansion of narrative studies in recent years the time for just such a volume is right *Oildom*, 1922

Collaborative Intelligence J. Richard Hackman, 2011-05-16 This practical guide draws on cognitive science and work with Fortune 500 companies to help readers develop essential collaborative skills Collaborative intelligence is a measure of our ability to think with others on behalf of what matters to us all It is emerging as a new professional currency at a time when influence is more important than power and success relies on the ability to inspire Through a series of practices and strategies this book helps us develop our own collaborative intelligence The authors teach us how to value intellectual diversity and recognize our own mind patterns By mapping the talents of our teams we are able to embark together on an aligned course of action and influence Collaborative Intelligence is the culmination of more than fifty years of original research that draws on Dawna Markova's background in cognitive neuroscience and her most recent work with Angie McArthur as a Professional Thinking Partner to some of the world's top CEOs and creative professionals In their experience managers who appreciate intellectual diversity will lead their teams to innovation employees who understand it will thrive because they are in touch with their strengths and an entire team who understands it will come together to do their best work in a symphony of collaboration **Forthcoming Books** Rose Arny, 2003-04 **Facing the Rising Sun** Gerald Horne, 2018-01-16 The surprising alliance between Japan and pro Tokyo African Americans during World War II In November 1942 in East St Louis Illinois a group of African Americans engaged in military drills were eagerly awaiting a Japanese invasion of the U S an invasion that they planned to join Since the rise of Japan as a superpower less than a century earlier African Americans across class and ideological lines had saluted the Asian nation not least because they thought its very existence undermined the pervasive notion of white supremacy The list of supporters included Booker T Washington Marcus Garvey and particularly W E B Du Bois Facing the Rising Sun tells the story of the widespread pro Tokyo sentiment among African Americans during World War II arguing that the solidarity between the two groups was significantly corrosive to the

U S war effort Gerald Horne demonstrates that Black Nationalists of various stripes were the vanguard of this trend including followers of Garvey and the precursor of the Nation of Islam Indeed many of them called themselves Asiatic not African Following World War II Japanese influenced Afro Asian solidarity did not die but rather foreshadowed Dr Martin Luther King s tie to Gandhi s India and Black Nationalists post 1970s fascination with Maoist China and Ho s Vietnam Based upon exhaustive research including the trial transcripts of the pro Tokyo African Americans who were tried during the war congressional archives and records of the Negro press this book also provides essential background for what many analysts consider the coming Asian Century An insightful glimpse into the Black Nationalists struggle for global leverage and new allies Facing the Rising Sun provides a complex holistic perspective on a painful period in African American history and a unique glimpse into the meaning of the enemy of my enemy is my friend

Research Companion to Language and Country Branding Irene Theodoropoulou, Johanna Tovar, 2020-11-16 Research Companion to Language and Country Branding brings together entirely new interdisciplinary research conducted by scholars working on various sociolinguistic semiotic anthropological and discursive analytical aspects of country branding all over the world Branding is a process of identity construction whereby countries gain visibility and put themselves on the world map as distinctive entities by drawing on their history culture economy society geography and their people Through branding countries aim not only at establishing their uniqueness but also and perhaps most importantly at attracting tourism investments high quality human capital as well as at forging financial military political and social alliances Against this backdrop this volume explores how countries and regions imagine and portray others and themselves in terms of gender ethnicity and diversity today as well as the past In this respect the book examines how branding differs from other related policies and practices such as nation building banal nationalism and populism This volume is an essential reference for students researchers and practitioners with an interest in country nation and place branding processes

Copyright as a Constraint on Creating Technological Value Kasper Drazewski, 2024-01-19 Can we regulate something that doesn t exist yet Can Europe create its own Silicon Valley Who gets to create technological value in today s world Whatever happened to the once flourishing idea of rags to riches Will new and exciting innovations only ever come from big tech companies Can the EU establish its own flexible framework for boosting innovation e g by facilitating the transformative use of technologies and data This book seeks to answer these questions by exploring the differences in copyright culture in Europe and the United States with its flexible fair use framework The findings are anything but obvious and decades of case law on both sides of the Atlantic tell a story of judges going to great lengths to deal with new challenges while navigating the imperfections of statutory law both where it is too broadly formulated and where it is too prescriptive How can the population s creative potential best be fostered What do software innovations have in common with the evolution of living organisms What are the vulnerabilities of distributed creativity Answers are sought in the processes that came into being during the early years of the digital revolution and were then

forced to take a back seat as control of the means of production was increasingly placed in the hands of tech companies The findings and insights presented here are highly relevant for today s digital policymaking Market concentration processes in innovation haven t ceased they are ongoing And in an age where data driven services are creating and reinforcing global oligopolies the question posed by the U S Supreme Court in Google v Oracle is now more relevant than ever who should hold the keys to digital innovation

American Civil Wars Alan Taylor,2024-05-21 A Kirkus Reviews Best Book of 2024 A masterful history of the Civil War and its reverberations across the continent by a two time Pulitzer Prize winner In a fast paced narrative of soaring ideals and sordid politics of civil war and foreign invasion the award winning historian Alan Taylor presents a pivotal twenty year period in which North America s three largest countries the United States Mexico and Canada all transformed themselves into nations The American Civil War stands at the center of the story its military history and the drama of emancipation the highlights Taylor relies on vivid characters to carry the story from Joseph Hooker whose timidity in crisis was exploited by Robert E Lee and Stonewall Jackson in the Union defeat at Chancellorsville to Martin Delany and Mary Ann Shadd Cary Black abolitionists whose critical work in Canada and the United States advanced emancipation and the enrollment of Black soldiers in Union armies The outbreak of the Civil War created a continental power vacuum that allowed French forces to invade Mexico in 1862 and set up an empire ruled by a Habsburg archduke This inflamed the ongoing power struggle between Mexico s Conservatives landowners the military the Church and Liberal supporters of social democracy led ably by Benito Juarez Along the southwestern border Mexico s Conservative forces made common cause with the Confederacy while General James Carleton violently suppressed Apaches and Navajos in New Mexico and Arizona When the Union triumph restored the continental balance of power French forces withdrew and Liberals consolidated a republic in Mexico Canada was meantime fending off a potential rupture between French speaking Catholics in Quebec and English speakers in Ontario When Union victory raised the threat of American invasion Canadian leaders pressed for a continent wide confederation joined by a transcontinental railroad The rollicking story of liberal ideals political venality and corporate corruption marked the dawn of the Gilded Age in North America

Mars Adapting Francis Hoffman,2021-03-15 As Clausewitz observed In war more than anywhere else things do not turn out as we expect The essence of war is a competitive reciprocal relationship with an adversary Commanders and institutional leaders must recognize shortfalls and resolve gaps rapidly in the middle of the fog of war The side that reacts best and absorbs faster increases its chances of winning Mars Adapting examines what makes some military organizations better at this contest than others It explores the institutional characteristics or attributes at play in learning quickly Adaptation requires a dynamic process of acquiring knowledge the utilization of that knowledge to alter a unit s skills and the sharing of that learning to other units to integrate and institutionalize better operational practice Mars Adapting explores the internal institutional factors that promote and enable military adaptation It employs four cases drawing upon one from each of the U S armed services Each case was an extensive

campaign with several cycles of action counteraction In each case the military institution entered the war with an existing mental model of the war they expected to fight For example the U S Navy prepared for decades to defeat the Japanese Imperial Navy and had developed carrier based aviation Other capabilities particularly the Fleet submarine were applied as a major adaptation The author establishes a theory called Organizational Learning Capacity that captures the transition of experience and knowledge from individuals into larger and higher levels of each military service through four major steps The learning change cycle is influenced he argues by four institutional attributes leadership organizational culture learning mechanisms and dissemination mechanisms The dynamic interplay of these institutional enablers shaped their ability to perceive and change appropriately
