

Text Generation

Input

Natural Language Processing (NLP) is a subfield of artificial intelligence that is concerned with the interactions between computers and human (natural) languages.

Text Generation Model

Output

It deals with the automatic manipulation of natural language, such as speech recognition, natural language understanding, and natural language generation. NLP is a relatively new field, having only emerged in the 1950s. However, it has grown rapidly in recent years, with advances in machine learning and artificial intelligence. NLP is used in a variety of applications, such as automatic summarization, question answering, machine translation, and text-to-speech synthesis.
