Text D. C. Greetham, W. Speed Hill, Peter Shillingsburg, 1996-04 The distinguished annual in interdisciplinary textual studies

Text D. C. Greetham, W. Speed Hill, 1989-09-01 *Text and Genre in Reconstruction* Willard McCarty, 2010 In this broad reaching multi disciplinary collection leading scholars investigate how the digital medium has altered the way we read and write text In doing so it challenges the very notion of scholarship as it has traditionally been imagined Incorporating scientific socio historical materialist and theoretical approaches this rich body of work explores topics ranging from how computers have affected our relationship to language whether the book has become an obsolete object the nature of online journalism and the psychology of authorship The essays offer a significant contribution to the growing debate on how digitization is shaping our collective identity for better or worse *Text and Genre in Reconstruction* will appeal to scholars in both the humanities and sciences and provides essential reading for anyone interested in the changing relationship between reader and text in the digital age

Texts Jorge J. E. Gracia, 1996-07-03 This book completes the theory of textuality whose logical and epistemological dimensions were presented in Gracia's book *A Theory of Textuality The Logic and Epistemology* SUNY Press It provides an ontological characterization of texts consistent with the conception of texts defended in the earlier book it explores the issues raised by the identity of various texts and it presents a view of the identity and function of authors and audiences and of their relations to texts The discussion is systematic comprehensive and detailed Gracia raises all of the important issues related to texts within the areas he explores and takes into account the pertinent literature The style is argumentative and clear and the position Gracia defends is based on common sense He stays clear of the extreme views some contemporary authors have taken with respect to texts and textuality This is the only book of its kind It is the first to develop a comprehensive theory and to adopt an integrative approach where the issues and their solutions are seen as closely connected

Texts on Texts and Textuality E.F. Kaelin, 2022-07-18 *Texts on Texts and Textuality* argues the case for an American phenomenology as applied to works of literary artworks The argument is made by a surrounding frame the Preface and the Afterword that encloses ten chapters The chapters are divided into two parts the phenomenological theory and practical criticism In making his case Kaelin traces the development in the American academic tradition from the American New Criticism through structuralism to the French nouvelle critique He calls his theory phenomenological structuralism and shows its derivation from American pragmatism contextualism to an unabashed phenomenology through the criticisms of Roman Ingarden Martin Heidegger and Paul Ricoeur The structuralism derives from the work of Ferdinand de Saussure as incorporated into the philosophical linguistics of Maurice Merleau-Ponty Part II contains five chapters each concerned with either direct application of the theory in acts of criticism or in the metacriticism of accepted critical theories such as the Aristotelians of early dramatic critics Chapter 6 or of applied procedures in recent academic critical circles Chapter 10 The argument is concluded in the author's Afterword where pedagogical issues are introduced to suggest the

future applicability of the theory A glossary of technical and new terms is added and a double index of names and a subject matter is included to map out the author's own interpretation of his bibliographic references

A Synoptic Hamlet: a Critical-Synoptic Edition of the Second Quarto and First Folio Texts of Hamlet Jesús Tronch-Pérez, Jesús Tronch, 2002 A Synoptic Hamlet is an alternative response to the editorial problems of this multiple text play Like most critical editions it presents the early texts in a manner helpful to the general reader by modernizing spelling and punctuation and emending non-sensical readings However it does not hide the text's diversity by exclusively selecting readings from either the Second Quarto or the First Folio in order to reconstruct a single reading version corresponding to the authentic Hamlet Rather it makes their significant variants immediately available in the line itself offering alternative editorial interpretations of identical or similar readings at certain points Thus the reader can have a direct appreciation of the divergence and similarity between these early texts from which the Hamlet of today is known

Shakespeare and the Urgency of Now C. DiPietro, H. Grady, 2013-07-19 These essays address the intersections between Shakespeare history and the present using a variety of new and established methodological approaches from phenomenology and ecocriticism to the new economics and aesthetics

Handbook of Stemmatology Philipp Roelli, 2020-09-07 Stemmatology studies aspects of textual criticism that use genealogical methods to analyse a set of copies of a text whose autograph has been lost This handbook is the first to cover the entire field encompassing both theoretical and practical aspects of traditional as well as modern digital methods and their history As an art ars stemmatology's main goal is editing and thus presenting to the reader a historical text in the most satisfactory way As a more abstract discipline scientia it is interested in the general principles of how texts change in the process of being copied Thirty eight experts from all of the fields involved have joined forces to write this handbook whose eight chapters cover material aspects of text traditions the genesis and methods of traditional Lachmannian textual criticism and the objections raised against it as well as modern digital methods used in the field The two concluding chapters take a closer look at how this approach towards texts and textual criticism has developed in some disciplines of textual scholarship and compare methods used in other fields that deal with descent with modification The handbook thus serves as an

introduction to this interdisciplinary field

The Lost Italian Renaissance Christopher S. Celenza, 2004 In this groundbreaking work of intellectual history Christopher Celenza argues that serious interest in the intellectual life of Renaissance Italy can be reinvigorated and the nature of the Renaissance itself reconceived by recovering a major part of its intellectual and cultural activity that has been largely ignored since the Renaissance was first discovered the vast body of works literary philosophical poetic and religious written in Latin by major figures such as Leonardo Bruni Lorenzo Valla Marsilio Ficino and Leon Battista Alberti as well as minor but interesting thinkers like Lapo da Castiglionchio the Younger

The Anglo-Scottish Ballad and its Imaginary Contexts David Atkinson, 2014-03-12 This is the first book to combine contemporary debates in ballad studies with the insights of modern textual scholarship Just like canonical literature and

music the ballad should not be seen as a uniquely authentic item inextricably tied to a documented source but rather as an unstable structure subject to the vagaries of production reception and editing Among the matters addressed are topics central to the subject including ballad origins oral and printed transmission sound and writing agency and editing and textual and melodic indeterminacy and instability While drawing on the time honoured materials of ballad studies the book offers a theoretical framework for the discipline to complement the largely ethnographic approach that has dominated in recent decades Primarily directed at the community of ballad and folk song scholars the book will be of interest to researchers in several adjacent fields including folklore oral literature ethnomusicology and textual scholarship
