The Idea Of Psychology Reclaiming The Disciplines Identity:

The Idea of Psychology Donald Lindskoog,1998 *Counseling Persons of African Descent* Thomas A.

Parham,2002-03-19 Though important strides have been made in the last three decades in the research efforts on African Americans there continues to be a lack of significant new understanding about the impact of the African American culture on the therapy process and dynamics This volume provides an in depth analysis of the counseling literature pertaining to African American clients Specifically the analysis includes a review of the different variables client counselor counseling process and assessment that have received the bulk of research attention This sets the stage for the presentation of a counseling model for African American clients The authors discuss philosophical premises upon which the model is based and suggest specific counseling strategies and interventions related to the model Case study material is integrated throughout the chapters focusing on individual and group approaches This volume is an important work for counseling professionals as well as for students in social work and counseling programs **African American Women and HIV/AIDS** Dorie J. Gilbert,Ednita M.

Wright,2003-03-30 AIDS is the second leading cause of death among African American women between the ages of 18 and 44 African American women constitute 63% of all cases of AIDS among women in the United States This volume brings together the collective wisdom of scholars researchers and social work professionals dealing with these concerns Focusing attention on the primary population of women impacted by AIDS this book presents culturally sensitive responses that meet the specific needs of African American women An historical and current overview of the alarming HIV infection rate among African Americans in particular women introduces the crisis Subsequent chapters highlight HIV AIDS prevention and intervention strategies that are successfully impacting the African American population Guided by a feminist perspective and grounded in social construction theory social work theory and social work practice this volume privileges the voice of African American women the group that is the most disenfranchised and least accurately represented in AIDS related research and writing This essential guide sheds light on a calamity too often overlooked making it especially valuable for scholars students researchers and practitioners involved with HIV AIDS issues in the African American community and with women s and black studies

Exploring Psychology and Christian Faith Paul Moes,Donald J. Tellinghuisen,2023-07-11 Drawn from more than sixty years of classroom experience this introductory guide provides students with a coherent framework for considering psychology from a Christian perspective Paul Moes and Donald Tellinghuisen explore biblical themes of human nature in relation to all major areas of psychology showing how a Christian understanding of humans can inform the study of psychology The first edition has proven to be a successful textbook with over 11 000 copies sold The second edition has been updated and revised throughout based on student and instructor feedback Brief accessible chapters correspond to standard introductory psychology textbooks making this an excellent supplemental text The book includes end of chapter questions An updated test bank for professors is available through Textbook eSources **Recovering from Psychosis** Stephen

Williams, 2015-11-19 The use of first hand service user accounts of mental illness is still limited in the professional literature available This is however beginning to change with a new recovery focus in mental health services meaning that the voices of service users are finally being heard Recovering from Psychosis Empirical Evidence and Lived Experience synthesises a narrative approach alongside an evidence based review of current treatment by including Stephen Williams own personal experience as it relates to psychosis recovery and treatment A mental health professional himself the author s account of his own recovery from severe mental health difficulties without sustained intervention challenges the orthodoxy of representation of service users in mental health Recovering from Psychosis critically explores and reviews the current state of the art of research and knowledge about the nature and treatment of psychosis Working simultaneously from empirical lived experience and philosophical perspectives Stephen Williams Evaluates political and power related issues in professional understanding knowledge creation and treatment of people with psychosis Introduces the current recovery movement unpacking its origins and implications for the future development of recovery oriented services Reviews summarizes and critiques the current state of recovery research looking at the advantages and disadvantages of such an approach examining how this is influencing the transformation of UK mental health services Analyses the difficulties in organisational implementation of recovery approaches summarises the most empirically robust approaches to practice personal and service delivery measurement Reviews current models of psychosis and how various professional scientific groups explain the experience and nature of psychosis Uses lived experience accounts taken from the scientific literature portraying the nature of such experiences and analysing them in the face of contemporary psychological models Recovering from Psychosis is an essential comprehensive guide for mental health professionals psychologists social workers and carers who are working with people with severe and enduring mental health difficulties diagnosed as psychosis It addresses the practical implications of working with such difficult conditions and serves as a hopeful story of recovery for service users Claiming Disability Simi

Linton, 1998-01-01 From public transportation and education to adequate access to buildings the social impact of disability has been felt everywhere since the passage of the Americans with Disabilities Act in 1990 And a remarkable groundswell of activism and critical literature has followed in this wake Claiming Disability is the first comprehensive examination of Disability Studies as a field of inquiry Disability Studies is not simply about the variations that exist in human behavior appearance functioning sensory acuity and cognitive processing but the meaning we make of those variations With vivid imagery and numerous examples Simi Linton explores the divisions society creates the normal versus the pathological the competent citizen versus the ward of the state Map and manifesto Claiming Disability overturns medicalized versions of disability and establishes disabled people and their allies as the rightful claimants to this territory **Subject Guide to Books in Print**, 1991 **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences**, 1999 The Oxford Handbook of Identities in Organizations Andrew

D. Brown, 2020-01-09 Conceived as the meanings that individuals attach to their selves a substantial stockpile of theory related to identities accumulated across the arts social sciences and humanities over many decades continues to nourish contemporary research on self identities in organizations In times which are more reflexive narcissistic and fluid the identities of participants in organizations are increasingly less fixed and less certain making identity issues both more salient and more interesting Particular attention has been given to processes of identity construction often styled identity work Research has focused on how why and when such processes occur and their implications for organizing and individual group and organizational outcomes This has resulted in a burgeoning stream of research from discursive dramaturgical symbolic socio cognitive and psychodynamic perspectives that most often casts individuals efforts to fabricate identities as intentional relational and consequential Seemingly intractable debates centred on the nature of identities their relative stability or fluidity whether they are best regarded as coherent or fractured positive or not and how they are fabricated within relations of power combined with other conceptual issues continue to invigorate the field However these debates have also led to some scepticism regarding the future potential of identities research Yet as the chapters in this Handbook demonstrate there are considerable grounds for optimism that identity as root metaphor nexus concept and means to bridge levels of analysis has significant potential to generate multiple compelling streams of theorizing in organization and management studies

Reclaiming Men's Spirituality Christopher Felix Bezzina, 2024-02-16 Reclaiming Men's Spirituality is a study that investigates men's spirituality by exploring three research questions Can a form of spirituality about men be identified and described how can this spirituality be examined and what is it that needs to be reclaimed To answer these questions and at the same time remain committed to the importance of lived experience this study opted to investigate the lives of men by attending to ten spiritual histories The study is situated in Malta and the ten spiritual histories provide access to various features expressions and contours that relate closely to men's being Semi structured interviews were also conducted with ten spiritual directors who have men as spiritual directees Their contribution clarifies the structure of men's spirituality the effort required when directing male spiritual directees and the impact generated in the lives of men thanks to spiritual direction To provide a frame of reference for the examination of all the gathered data John of the Cross's spiritual framework has been chosen as the mystical instrument against which men's spiritualities are studied leading to richer insights into the operations motives goals and problems of such spiritualities
