The Ideological Imagination:

The Ideological Imagination Louis Joseph Halle,1972 **No Less a Man** Douglas Robinson,1994 Through close readings of these three figures Robinson argues that more is going on among American men than meets the casual eye and that much of what is going on is reflected in the most popular of our art forms detective novels action movies and rock music

The Ideological Imagination Louis Joseph Halle,1972 **Ideology and False Consciousness** Christopher L. Pines,1993-07-01 In this book Christopher Pines demonstrates that Karl Marx conceived of ideology as false consciousness He shows how the different meanings of false consciousness found in the writings of Marx and Engels reflect the influence of the views of the Baconian French Enlightenment and of Hegelian Feuerbachian philosophies Pines argues that for Marx the diverse senses of false consciousness all generally denote a social consciousness that takes certain false things to be true regarding matters of significance to class divided societies

Imagining the University Ronald Barnett,2013 Around the world what it is to be a university is a matter of much debate The range of ideas of the university in public circulation is however exceedingly narrow and is dominated by the idea of the entrepreneurial university As a consequence the debate is hopelessly impoverished Lurking in the literature there is a broad and even imaginative array of ideas of the university but those ideas are seldom heard We need consequently not just more ideas of the university but better ideas Imagining the University forensically examines this situation critically interrogating many of the current ideas of the university Imagining the University argues for imaginative ideas that are critical sensitive to the deep structures underlying universities and are yet optimistic in short feasible utopias of the university The case is pressed for one such idea that of the ecological university The book concludes by offering a vision of the imagining university a university that has the capacity continually to re imagine itself

Revisionary Interventions Into the Americanist Canon Donald E. Pease,1994-06-17 Throughout the era of the Cold War a consensus

reigned as to what constituted the great works of American literature Yet as scholars have increasingly shown and as this volume unmistakably demonstrates that consensus was built upon the repression of the voices and historical contexts of subordinated social groups as well as literary works themselves works both outside and within the traditional canon This book is an effort to recover those lost voices Engaging New Historicist neo Marxist poststructuralist and other literary practices this volume marks important shifts in the organizing principles and self understanding of the field of American Studies Originally published as a special issue of boundary 2 the essays gathered here discuss writers as diverse as Kate Chopin Frederick Douglass Emerson Melville W D Howells Henry James W E B DuBois and Mark Twain plus the historical figure John Brown Two major sections devoted to the theory of romance and to cultural historical analyses emphasize the political perspective of New Americanist literary and cultural study Contributors William E Cain Wai chee Dimock Howard Horwitz Gregory S Jay Steven Mailloux John McWilliams Susan Mizruchi Donald E Pease Ivy Schweitzer Priscilla Wald Michael Warner Robert Weimann *Legends of People, Myths of State* Bruce Kapferer, 2011-12-01 The civil war in Sri Lanka and the part that nationalism seemed to play in it inspired the writing of this book some twenty three years ago The argument was developed through a comparative analysis of nationalism in Sri Lanka with the author s native Australia At the time this constituted an innovative approach to comparison in anthropology as well as to nationalism and its possibilities It was not based on differences but on the way in which perspectives from within the two nationalisms when seen side by side could present an understanding of their implication in producing the violence of war racism and social exclusion The book has lost none of its importance and urgency as proven by the chapters in the Appendix written by top scholars working in Sri Lanka and in Australia These contributions bring together new material and critically explore the book s themes and their continued relevance to the various trajectories in nationalist processes since the first publication of the book
