Cornelius Castoriadis

The Imaginary Institution Of Society:

The Imaginary Institution of Society Cornelius Castoriadis, 1987 This is one of the most original and important works of contemporary European thought First published in France in 1975 it is the major theoretical work of one of the foremost thinkers in Europe today This is one of the most original and important works of contemporary European thought First published in France in 1975 it is the major theoretical work of one of the foremost thinkers in Europe today Castoriadis offers a brilliant and far reaching analysis of the unique character of the social historical world and its relations to the individual to language and to nature He argues that most traditional conceptions of society and history overlook the essential feature of the social historical world namely that this world is not articulated once and for all but is in each case the creation of the society concerned In emphasizing the element of creativity Castoriadis opens the way for rethinking political theory and practice in terms of the autonomous and explicit self institution of society *The Imaginary Institution of Society* Cornelius Castoriadis, 1997 *The Imaginary Institution of Society* Cornelius Castoriadis, 1987-01 The most original ambitious and reflective attempt to think through the liberating mediation of history society external and internal nature once again as praxis Jürgen Habermas *The Philosophical Discourse of Modernity* Castoriadis's *The Imaginary Institution of Society* is a work of great power and originality As a work of social theory I would argue that it belongs in a class with the writings of Habermas and Arendt Jay Bernstein University of Essex This is one of the most original and important works of contemporary European thought First published in France in 1975 it is the major theoretical work of one of the foremost thinkers in Europe today Castoriadis offers a brilliant and far reaching analysis of the unique character of the social historical world and its relations to the individual to language and to nature He argues that most traditional conceptions of society and history overlook the essential feature of the social historical world namely that this world is not articulated once and for all but is in each case the creation of the society concerned In emphasizing the element of creativity Castoriadis opens the way for rethinking political theory and practice in terms of the autonomous and explicit self institution of society *The Power to Assume Form* Sean McMorrow, 2023-08-15 *The Power to Assume Form* Cornelius Castoriadis and *Regulative Regimes of Historicity* examines the major contribution of Cornelius Castoriadis's work which elucidated the role of the social imaginary within human societies What is significant Sean McMorrow argues is that Castoriadis's work presents a unique perspective on the regimes of historicity modes of instituting power that establish the legitimacy of institutional order in relation to the extensive social imaginary articulations of the world The author assesses Castoriadis's theorization of the radically creative capacity of the social imaginary and suggests that there remains a tendency to present an overly dichotomous view of autonomous and heteronomous modes of institution McMorrow assesses how adherence to this inclination hinders the development of further insights into the creative capacities of social imaginary while also imposing limits on Castoriadis's own assessment of the partially autonomous situation of modern societies The author suggests that one way forward is to

consider the role of an implicit dimension of instituting power involved in the reproduction of dominant social imaginary articulations of the world and which also shape the regulation of historicity more generally The main purpose of this book is to develop the critical depth of Castoriadis's work showing how it remains an insightful framework to analyze the significance of the deepening depoliticization of contemporary liberal democratic regimes and the partially autonomous dynamics that underlie their shift toward increasingly authoritarian modes of governance World in Fragments Cornelius

Castoriadis, David Ames Curtis, 1997 This collection presents a broad and compelling overview of the most recent work in philosophy politics and psychoanalysis by a world renowned figure in contemporary thought **Subjective Agency and**

Poststructuralism Cillian Ó Fathaigh, Gavin Rae, 2024-12-02 Poststructuralism has long been acknowledged to offer a radical critique of the foundational subject as a precursor to affirming a constituted subject Its detractors have however held that the resultant position cannot offer a coherent account of agency strong version or alternatively that while it may be able to account for non subjective agency it is unable to develop a coherent explanation for subjective agency weak version Somewhat strangely this issue has been largely ignored by commentators predisposed to poststructuralist thought In contrast this volume focuses on the works of Judith Butler Cornelius Castoriadis Gilles Deleuze Jacques Derrida Michel Foucault Luce Irigaray Jacques Lacan and Catherine Malabou to show that the question of the subject is a key one for many poststructuralist thinkers that they are aware of the problematic status of agency that arises from their decentering of the foundational subject and that they offer heterogeneous responses to it Subjective Agency and Poststructuralism will therefore be an invaluable resource for researchers and advanced students interested in philosophy political theory psychoanalysis critical theory history of ideas feminist theory and cultural studies **Adventures of the Symbolic** Warren

Breckman, 2013-06-18 Warren Breckman critically revisits thrilling experiments in the aftermath of Marxism Artistic Agency Alistair Macaulay, Timothy Deane-Freeman, Antonia Pont, 2025-11-29 This volume seeks to explain the notion of control artists possess and given they are changed by the action the sense in which they can claim an artwork as theirs Standard explanations of action and agency struggle to explain various artistic practices Requiring recourse to a prior intention these accounts are challenged by the spontaneity of dance and musical improvisation a painter's realization of an artwork and how writers manifest meaning in a piece of writing Furthermore in such artistic practices the artist is changed by the demands of the action This interdisciplinary volume combines thirteen contributions from various artistic practices in photography music dance and painting with philosophical perspectives from post war France to consider the changing role of the artist This identifies what it is about an artistic practice that is creative and how everyday occurrences can become artistic describing the ethical and political implications of various artistic practices **Castoriadis: Psyche, Society, Autonomy** Jeff Klooger, 2009-05-27 This book is a critical exploration of the philosophical underpinnings and implications of Cornelius Castoriadis reflections on Being society and the self The book introduces the reader to the main concepts of

Castoriadis work but goes further to uncover the fundamental philosophical issues addressed by Castoriadis and to critically examine the issues his work opens up assessing and where necessary offering suggested amendments to the answers Castoriadis himself puts forward Key conceptual problems addressed include the distinction between autonomy and heteronomy the nature of the self and self creation and the nature of determination in a fundamentally indeterminate universe Society and Psyche Kanakis Leledakis, 2020-08-25 Providing interpretations and drawing critically from classical and modern social theory post structuralism and psychoanalytic theory this original study offers an alternative way of thinking about the social and the individual It offers critical analyses of among others Marx Giddens Bourdieu Derrida Laclau and Mouffe Castoriadis Freud and modern psychoanalytic theorists and considers their roles in advancing our present day conceptualization of the social and the self In theorizing that behaviour is both socially determined and autonomous it avoids the impasses of either individualist or structuralist approaches
