Preaching to Korean Immigrants Rebecca Seungyoun Jeong, 2022-09-14 In terms of practical theology s critical reflection on marginalized people s wounds in a wider society this book investigates the question How to proclaim the good news in response to first generation Korean immigrants contextual suffering in the United States To answer the question the book starts with investigating Korean immigrant hearers contextual predicaments in a new land to point out emerging practical theological issues in relation to the practice of preaching In this book the primary subjects are first generation Korean immigrants especially those who have relatively low socio economic status and struggle with the purpose of their lives as immigrants particularly those whose material dreams have been shattered In order to proclaim the good news this book proposes a more appropriate immigrant theology for in the practice of preaching by reclaiming the priorities of God s future in our lives and confirming God s active identification with Korean immigrant congregations in the depths of their predicament Such reconstructive work for immigrant theology arises in response to their existential hardships marginality ethnic discrimination and relative powerlessness in life While acknowledging both the possibilities and limits of the diverse forms of current Korean immigrant preaching the book then offers a strategic proposal for a new homiletic theory namely a psalmic theological homiletic This proposed homiletic is deeply rooted in the theology of the Psalms and their rhetorical movement This re envisioned mode of eschatological and prophetic preaching in times of difficulty recovers ancient Israel s psalmic rhetorical tradition that aims toward faith Its theological rhetorical strategy intends to both transform hearers habitus of living in faith and enhance their hope filled life through communal anticipation of God s coming future on the margins Specifically this proposed homiletic critically adopts key features from psalms of lament and their typical fourfold theological rhetorical movement i e lament retelling a story confessional doxology and obedient vow as now core elements of a revised Korean immigrant preaching practice

The Immigrant Other Rich Furman, Greg Lamphear, Douglas Epps, 2016-03-01 The immigrants profiled in *The Immigrant Other* shed light on a system designed to dehumanize and disenfranchise them and they describe the difficulty of finding shelter in an increasingly globalized and unsympathetic world They include Muslims facing discrimination from both the War on Terror and the War on Immigration Latino day laborers Filipino immigrants supporting themselves and their families back home and Brazilian parents terrified of being separated from their naturalized children Immigrants living in Spain Australia Greece and Qatar are also represented showcasing the similarities and

differences in the treatment of immigrants worldwide Each chapter in this anthology pairs a description of specific state national and transnational immigration laws and regulations with the testimony of individuals struggling to find legitimacy and sanctuary among them

Identity Politics on the Israeli Screen Yosefa Loshitzky, 2010-01-01 2002 A Choice Outstanding Academic Book The struggle to forge a collective national identity at the expense of competing plural identities has preoccupied Israeli society since the founding of the state of Israel In this book Yosefa Loshitzky explores how major Israeli films of the 1980s and 1990s have contributed significantly to the process of identity formation by reflecting projecting and constructing debates around Israeli national identity Loshitzky focuses on three major foundational sites of the struggle over Israeli identity the Holocaust the question of the Orient and the so called in an ironic historical twist of the Jewish question Palestinian question The films she discusses raise fundamental questions about the identity of Jewish Holocaust survivors and their children the second generation Jewish immigrants from Muslim countries or Mizrahim particularly the second generation of Israeli Mizrahim and Palestinians Recognizing that victimhood marks all the identities represented in the films under discussion Loshitzky does not treat each identity group as a separate and coherent entity but rather attempts to see the conflation interplay and conflict among them

Becoming New Yorkers Philip Kasinitz, John H. Mollenkopf, Mary C. Waters, 2004-08-20 More than half of New Yorkers under the age of eighteen are the children of immigrants This second generation shares with previous waves of immigrant youth the experience of attempting to reconcile their cultural heritage with American society In *Becoming New Yorkers* noted social scientists Philip Kasinitz John Mollenkopf and Mary Waters bring together in depth

ethnographies of some of New York's largest immigrant populations to assess the experience of the new second generation and to explore the ways in which they are changing the fabric of American culture. *Becoming New Yorkers* looks at the experience of specific immigrant groups with regard to education, jobs, and community life. Exploring immigrant education, Nancy Lopez shows how teachers' low expectations of Dominican males often translate into lower graduation rates for boys than for girls. In the labor market, Dae Young Kim finds that Koreans young and old alike believe the second generation should use the opportunities provided by their parents' small business success to pursue less arduous, more rewarding work than their parents. Analyzing civic life, Amy Forester profiles how the high-ranking members of a predominantly black labor union who came of age fighting for civil rights in the 1960s adjust to an increasingly large Caribbean membership that sees the leaders not as pioneers but as the old guard establishment. In a revealing look at how the second generation views itself, Sherry Ann Butterfield and Aviva Zeltzer Zubida point out that black West Indian and Russian Jewish immigrants often must choose whether to identify themselves alongside those with similar skin color or to differentiate themselves from both native blacks and whites based on their unique heritage. Like many other groups studied here, these two groups experience race as a fluid, situational category that matters in some contexts but is irrelevant in others. As immigrants move out of gateway cities and into the rest of the country, America will increasingly look like the multicultural society vividly described in *Becoming New Yorkers*. This insightful work paints a vibrant picture of the experience of second-generation Americans as they adjust to American society and help to shape its future.

Rebuilding the Crown Timothy C.J. Murphy, 2012-12-17 It is the spring of 1952. Mick Joyce, Tom Sullivan, and Kate Collins are leaving Ireland with a youthful exuberance in the hope of making their fortune. England is still in economic turmoil after the war but still fares much better than the Emerald Isle. In the Ireland of the nineteen fifties, the cottages are still thatched and if there is money in the house it is slated. As a compromise between the rich and the not so rich, you might see a corrugated iron roof. Either way, Ireland is an empire a few centuries behind our closest neighbour. So it is common place to see the ferry boat the *St David* full of Irish after Christmas heading to England to earn the King's shilling. The tears flow each time Ireland's sons and daughters depart. Hearts are heavy but this is Ireland of the nineteen fifties. The mothers and wives are left behind to keep the nest together from season to season with an ancient sadness that they never really spoke of. Over the next ten years, their lives would intertwine intermittently. The story that ensues is one of love, laughter, drink, hard work, and loss. The book also tells of their encounters with other emigrants: Irish, African, West Indians, a Russian woman who could fill a cement mixer faster than any Irish navvy, and a Pole who little by little created a life for himself and his Irish lady from nothing. It was in one of London's dingy bedsits that Tom and Mick first settled in. They grubbed, drank by the imperial gallon, fought in the pubs and on the streets of London as if re-enacting their modern version of the Irish War of Independence on foreign soil. By night they tore London asunder and were on site the next morning at 8 a.m. to rebuild it from the ground up. This is the story of the life of Tom Sullivan, now in his senior years.

having returned to his home town of Tralee A man of wisdom self educated in the ways of the world he tells his story with a wit and honesty that will bring both tears of laughter and sadness to the reader *The Oxford Handbook of Feminist Approaches to the Hebrew Bible* Susanne Scholz, 2020-10-01 The Oxford Handbook of Feminist Approaches to the Hebrew Bible brings together 37 essential essays written by leading international scholars examining crucial points of analysis within the field of feminist Hebrew Bible studies Organized into four major areas globalization neoliberalism media and intersectionality the essays collectively provide vibrant relevant and innovative contributions to the field The topics of analysis focus heavily on gender and queer identity with essays touching on African Korean and European feminist hermeneutics womanist and interreligious readings ecofeminist and animal biblical studies migration biblical studies the role of gender binary voices in evangelical egalitarian approaches and the examination of scripture in light of trans women s voices The volume also includes essays examining the Old Testament as recited in music literature film and video games The Oxford Handbook of Feminist Approaches to the Hebrew Bible charts a culturally hermeneutically and exegetically cutting edge path for the ongoing development of biblical studies grounded in feminist womanist gender and queer perspectives
