Cross-Cultural Perspectives on Hagiographical Strategies Massimo A. Rondolino,2017-01-12 This book examines the potential of conducting studies in comparative hagiology through parallel literary and historical analyses of spiritual life writings pertaining to distinct religious contexts In particular it focuses on a comparative analysis of the early sources on the medieval Christian Saint Francis of Assisi 1182 1226 and the Tibetan Buddhist Milarepa c 1052 1135 up to and including the so called standard versions of their life stories written by Bonaventure of Bagnoregio 1221 1274 and Tsangny n Heruka 1452 1507 respectively The book thus demonstrates how in the social and religious contexts of both 1200s Italy and 1400s Tibet narratives of the lives deeds and teachings of two individuals recognized as spiritual champions were seen as the most effective means to promote spiritual doctrinal and political agendas Therefore as well being highly relevant to those studying hagiographical sources this book will be of interest to scholars working across the fields of religion and the comparative

study of religious phenomena as well as history and literature in the pre modern period

Business Daniel Boucher, Shayne Clarke, 2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism's art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen's many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen's most noteworthy influence the study of the Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen's scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition's most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen's considerable impact on our understanding of Buddhists in India
