eased the inevitable hardships **James J. Hill** Michael P. Malone, 2013-06-14 In this volume Michael P. Malone provides a succinct interpretive biography of James J. Hill the Empire Builder so called for his work in developing the region of the United States between the Great Lakes and the Pacific Northwest. Malone explores Hill's complex life and personality, his activities and interests, and recreates both the story of the railroad race to the Pacific and the complex interactions involved in the development of the region. Michael Malone has written a model interpretative biography of James J. Hill. He has drawn on the research of others published and unpublished as he says, but also on his own knowledge of American economic development in Hill's time as a leading historian of mining and of a state in whose development Hill's railroads were major factors. Earl Pomeroy Professor of History, Retired, University of Oregon and University of California, San Diego "The Touch of Civilization"

Steven Sabol, 2017-03-15 The Touch of Civilization is a comparative history of the United States and Russia during their efforts to colonize and assimilate two indigenous groups of people within their national borders: the Sioux of the Great Plains and the Kazakhs of the Eurasian Steppe. In the revealing juxtaposition of these two cases, author Steven Sabol elucidates previously unexplored connections between the state building and colonizing projects these powers pursued in the nineteenth century. This critical examination of internal colonization, a form of contiguous continental expansion, imperialism, and colonialism that incorporated indigenous lands and peoples, draws a corollary between the westward moving American pioneer and the eastward moving Russian peasant. Sabol examines how and why perceptions of the Sioux and Kazakhs as ostensibly uncivilized peoples and the Northern Plains and the Kazakh Steppe as uninhabited regions that ought to be settled reinforced American and Russian government sedentarization policies and land allotment programs. In addition, he illustrates how both countries encountered problems and conflicts with local populations while pursuing their national missions of colonization, comparing the various forms of Sioux and Kazakh martial, political, social, and cultural resistance evident throughout the nineteenth century. Presenting a nuanced, in-depth history and contextualizing US and Russian colonialism in a global framework, The Touch of Civilization will be of significant value to students and scholars of Russian history, American history, and Native American history, and the history of colonization **The Diplomacy of Trade and Investment**

David M. Pletcher, 1998 Based on a thorough examination of government documents, congressional debates, and reports, private papers of government and business leaders, and newspapers, David M. Pletcher begins this monumental study with a comprehensive survey of U.S. trade following the Civil War. He goes on to outline the problems of building a coherent trade policy toward Canada, Mexico, Central America, the Caribbean, and South America. The study concludes by analyzing a series of abortive trade reform efforts and examining the effects of the Spanish American War. Pletcher rejects the long-held belief that American business and government engaged in a deliberate, consistent drive for economic hegemony in the hemisphere during the late 1800s. Instead, he finds that the American government improvised and experimented with ways to further trade expansion.
