**Impressionism and Post-Impressionism** Nathalia Brodskaja, 2018-03-13 Impressionism is the most famous artistic movement But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality As Monet Sisley Pissarro and many others sought to capture the ephemeral nature of light the next generation would reject naturalism Indeed post impressionists such as Gauguin Van Gogh C zanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete In doing so they laid the formal foundations of 20th century modern art This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity *Impressionism and*

Within a year of closing the last Impressionist exhibition in 1886 a large and disparate group of movements had appeared each with its own beliefs about the nature and function of art From Neo Impressionism to Symbolism from Gauguin and van Gogh to Matisse and Munch the program of 20th century art was emerging These individual styles are now collectively referred to as Post Impressionism This book imposes coherence and a sense of pattern upon this diverse mix of movements and individuals that reacted against the style and subject matter of the Impressionists The sociohistoric background against which Post Impressionism evolved and the international reverberations of the movement are presented Special emphasis is given to the revolution that Post Impressionism created in Russia which had effects far beyond the confines of art
