Faith, Family, and Children with Special Needs David Rizzo, 2012-04-01 It s hard enough for today s parents to raise faith filled children But for the parents of kids with special needs the challenges can be almost overwhelming these parents own spirituality may suffer amidst the daily obstacles of raising a child with disabilities and they may wonder how or even if their child can ever experience a meaningful spiritual life In Faith Family and Children with Special Needs David Rizzo whose 12 year old daughter has autism offers great hope for parents who want to grow in their own spirituality while helping their children with disabilities experience God in a deeper way Throughout the book Rizzo s abiding though sometimes tested Catholic faith is made clear as he thoughtfully explains everything from the practical such as how parents can maintain sanity during Mass when the child with special needs becomes disruptive to the profound such as how parents can understand God in a way that is relevant to their predicament

At other times Rizzo's advice is intended to help the child grow in his or her own faith as when he explains how kids with special needs can participate meaningfully in the Eucharist. By looking at big picture issues of faith while also providing specific tips to nurture spiritual growth in parents and in their children with disabilities, *Faith Family and Children with Special Needs* will serve as a highly useful and inspiring resource for anyone in the community of faith who interacts with children with disabilities.

Education for Special Needs Rudolf Steiner, 2014-12-15 Steiner describes polarities of illness and courses of treatment from a comprehensive analysis. He considers many cases and gives indications on therapeutic exercises, diet and medicine, how the I relates directly to the physical body and spirit, and soul need to be taken into consideration when making diagnoses. Revolutionary in its approach, the far-reaching perspectives of these lectures are a living source of inspiration to both professionals, parents, and others seeking spiritual insight.

How Children Learn - Book 4 Shirley Allen, Peter Gordon, 2017-02-21 The comprehensive guide to the most influential theorists and their ideas on how children with special educational needs learn and develop.

Spirituality across Disciplines: Research and Practice Marian de Souza, Jane Bone, Jacqueline Watson, 2016-06-29 This book collects multiple disciplinary voices which explore current research and perspectives to discuss how spirituality is understood, interpreted, and applied in a range of contexts. It addresses spirituality in combination with such topics as Christian mysticism, childhood and adolescent education, midwifery, and sustainability. It links spirituality to a variety of disciplines including cognitive neuroscience, sociology, and psychology. Finally, it discusses the application of spirituality within the context of social work, teaching, health care, and occupational therapy. A final chapter provides an analytical discussion of the different voices that appear in the book and offers a holistic description of spirituality which has the potential to bring some unity to the meaning, expression, and practice of spirituality across a variety of disciplines as well as across cultural, religious, and secular worldviews. A strength of the book is that each chapter is characterized by a fearless confronting of oppositional perspectives and use of the latest research in addressing them. The book takes the difficult topic of spirituality into almost every nook and cranny of personal and professional life. There is a persistent grasping of the contentiousness of the topic together with addressing counter positions and utilizing updated research across a range of fields. In doing this, the opening and closing chapters serve as book ends that keep the whole volume together. Terence Lovat, The University of Newcastle, Australia. The interdisciplinary nature of the work is by far the strongest aspect of this volume. It has the potential to contribute to a dialogue between different professions and disciplines. This prospective publication promises to promote a more holistic approach to the study of spirituality. This volume takes into consideration a wide variety of issues. The way the editors have structured the sequence of chapters contributes to facilitate any possible dialogue between the different areas. Adrian Mario Gellel, University of Malta, Malta.

The Emotional Lives of Young People with Autism Tom Billington, Prithvi Perepa, Hui-Fen Wu, 2019-06-20 This study questions the validity of the American Psychiatric Association's definition of autism and offers evidence that even non-verbal children

have an emotional life Drawing on data from a series of intimate interviews with the parents of children with autism from three different cultures namely the UK India and Taiwan the reader is shown how children with autism have emotional competence and do experience both negative and positive emotions Parents of children with autism have to make many sacrifices and worry about their child s ability to become independent Good parent teacher relationships are essential and doctors and their teams need to be sensitive and help families find the resources that they need In some cases religion plays an important role as does the acceptance by society in general The book will be of particular interest to families teachers and professionals dealing with autism
