*The Innocents* Christopher Frayling, 2019-07-25 Jack Clayton's gothic masterpiece The Innocents though not a commercial success on its release in 1961 has been hailed as one of the greatest psychological thrillers of all time Dividing reviewers with its ambiguous depiction of ghosts the film ignited a debate about the aesthetics of horror which still rages today In this stimulating introduction to The Innocents Sir Christopher Frayling traces the film from its genesis in the original novel The Turn of The Screw by Henry James via contemporary critical contexts and William Archibald's 1950 stage adaptation of the same name to the screenplay by William Archibald Truman Capote and John Mortimer Drawing on unpublished material from Jack Clayton's archive including Capote's handwritten drafts for the film and interviews with Deborah Kerr Freddie Francis and John Mortimer Frayling explores how this classic ghost story came to life on screen This special edition features original cover artwork by Matthew Young

*The Massacre in History* Mark Levene, Penny Roberts, 1999 The role of massacre in history has been given little focused attention either by historians or academics in related fields This is surprising as its prevalence and persistence surely demands that it should be a subject of serious and systematic exploration What exactly is a massacre When and why does it happen Is there a cultural as well as political framework within which it occurs How do human societies respond to it What are its social and economic repercussions Are massacres catalysts for change or are they part of the continuity of the human saga These are just some of the questions the authors address in this important volume Chronologically and geographically broad in scope The Massacre in History provides in depth analysis of particular massacres and themes associated with them from the 11th century to the present Specific attention is paid to 15th century Christian Jewish relations in Spain the St Bartholemew's Day massacre England and Ireland in the civil war era the

19th century Caucasus the rape of Nanking in 1937 and the Second World War origins of the Serb Croat conflict The book explores the subject of massacre from a variety of perspectives its relationship to politics culture religion and society its connection to ethnic cleansing and genocide and its role in gender terms and in relation to the extermination of animals The historians provide evidence to suggest that the massacre is often central to the course of human development and societal change

Childhood in the Middle Ages and the Renaissance Albrecht Classen, 2011-12-22

Earlier theses on the history of childhood can now be laid to rest and a fundamental paradigm shift initiated as there is an overwhelming body of evidence to show that in medieval and early modern times too there were close emotional relations between parents and children The contributors to this volume demonstrate conclusively on the one hand how intensively parents concerned themselves with their children in the pre modern era and on the other which social political and religious conditions shaped these relationships These studies in emotional history demonstrate how easy it is for a subjective choice of sources coupled with faulty interpretations caused mainly by modern prejudices toward the Middle Ages in particular to lead to the view that in the past children were regarded as small adults The contributors demonstrate convincingly that intense feelings admittedly often different in nature shaped the relationship between adults and children
