The Concept of Equity in Calvin's Ethics Guenther H. Haas, 1997-02-10 Ever since Calvin wrote his Institutes of the Christian Religion admonishing the reader that it would not be difficult for him to determine what he ought especially to seek in Scriptures and to what end he ought to relate its contents scholars have endeavoured to identify a doctrine or theme at the heart of his theology In his landmark book *The Concept of Equity in Calvin's Ethics* Guenther Haas concludes that the concept of equity is the theme of central importance in Calvin's social ethic in a similar way that union with Christ lies at the heart of his theology Haas provides in Part One a brief survey of the development of the concept of equity from Aristotle to the scholastics and as it was used by Calvin's contemporaries Haas also examines the influences on Calvin's thinking before and after his conversion to Protestantism with special attention paid to those influences that employed the concept of equity In the heart of this study Part Two *Equity in Calvin's Ethics* Haas presents a thorough exposition and analysis of the extensive role the concept of equity plays in Calvin's ethics demonstrating that Calvin's approach to ethics is not restricted to meditation of Scripture text This book will force a re-examination of approaches to Calvin studies that have not appreciated the historical context and background of Calvin's thought *The Concept of Equity in Calvin's Ethics* establishes that the Protestant tradition in Christian ethics founded by Calvin has a distinctive and vital contribution to make to Christian ethics as well as to the broader discussion of social ethics as they are practised today **The Concept of Environment in**

Judaism, Christianity and Islam Christoph Böttigheimer, Wenzel Maximilian Widenka, 2023-03-06 On the seventh day God rested and thus completed his creation Likewise man should rest on the seventh day and every seven years leave the fields fallow to rest If you like a divine economic and environmental programme is encountered here Subdue the earth is not to be misunderstood as a mandate to subjugate and exploit but on the contrary as a call to preserve God's very good creation Its current explosiveness illustrates precisely this fundamental relationship Even secular circles now speak of the integrity of creation as a matter of course And in Muslim countries scholars and activists are preparing to launch a green Islam based of course on Quranic principles At the same time faith communities and churches with their commitment to nature and to a just world of work are moving into the concrete focus of public attention and are serious players in the current discourse Reason enough then to get to the bottom of the concept of environment in the world religions How do religions position themselves on the ecological question What are the foundations of their decisions And can they make a significant contribution to the current problem and to the enquiries of many people Inspired Finance M. Looft, 2014-10-02 By tracing an arc of thought and action from both historical and religious figures up through modern microfinance practitioners Looft illustrates the many ways religious inspiration continues to remain at the crux of international economic development while raising compelling questions around God and Mammon working together to help the poor *The Oxford Companion to Christian Thought*
