The Identical Lunch:

The Identical Lunch Philip Corner, 1973 **Journal of the Identical Lunch** Alison Knowles, 1971 **Identical Lunch** Kaley Bean, 2018 Zine about how Alison Knowles turned an observation about her lunch habits into art and how learning about this changed her perspective about her own daily lunch Almost nothing Anna Dezeuze, 2016-12-21 What does an assemblage made out of crumpled newspaper have in common with an empty room in which the lights go on and off every five seconds This book argues that they are both examples of a precarious art that flourished from the late 1950s to the first decade of the twenty first century in light of a growing awareness of the individual's fragile existence in capitalist society Focusing on comparative case studies drawn from European North and South American practices this study maps out a network of similar concerns and practices while outlining its evolution from the 1960s to the beginning of the twenty first century This book will provide students and amateurs of contemporary art and culture with new insights into contemporary art practices and the critical issues that they raise concerning the material status of the art object the role of the artist in society and the relation between art and everyday life *Practicing Pragmatist Aesthetics* Wojciech Malecki, 2014-05-01 This is the first collection in English devoted exclusively to pragmatist aesthetics Its main aim is to employ the resources of that rich and exciting tradition in studying artistic phenomena such as film sculpture bio art poetry the novel cuisine and various body arts But it also attempts to provide a wider background for such studies by sketching the history of pragmatist reflection on the aesthetic and by discussing some of the main positions that this history has produced the aesthetic conceptions of C S Peirce William James John Dewey Joseph Margolis Richard Shusterman somaesthetics in particular and others **Fluxus** Natasha Lushetich, 2014-06-01 Focusing on the most definition resistant art movement in history and departing from its two chief characteristics intermediality and interactivity this book develops an original theory of practice the experiential philosophy of non duality which is the philosophy of dynamic co constitutivity This is done by tracing the performativity of intermedial works works that fall conceptually between the art and the life media such as Bengt af Klintbergs's event score Eat an orange as if it were an apple in five key areas of human experience language temporality the sensorium social rites and rituals and systems of economic exchange The main argument woven with the aid of the Derridian blind tactics the Gramscian production of social life and the Zen derived interexpression of Kitaro Nishida is that the practical philosophy of co constitutivity arises from the logic of the intermedium In pursuing this argument the book does three things 1 it theorises an oeuvre that has remained under theorised due to its fundamentally non discursive nature and in doing so reinstates Fluxus as an influential cultural rather than a merely artistic paradigm 2 it serves as a companion to thinking by doing since most Fluxus intermedia are ready made and as such readily available in the everyday environment and 3 it establishes the counter hegemonic logic of fluxing while tracing its legacy in contemporary practices as diverse as the culture jamming activism of The Yes Men the paradoxical performance work of Song Dong and the pervasive game

Corporate Imaginations Mari Dumett, 2017-08-22 The first extended study of the renowned artists collective Fluxus Corporate Imaginations examines the group as it emerged on three continents from 1962 to 1978 in its complexities contradictions and historical specificity The collective s founder George Maciunas organized Fluxus like a multinational corporation simulating corporate organization and commodity flows yet it is equally significant that he imagined critical art practice in this way at that time For all its avant garde criticality Fluxus also ambivalently shared aspects of the rising corporate culture of the day In this book Mari Dumett addresses the business of Fluxus and explores the larger discursive issues of organization mediatization routinization automation commoditization and systematization that Fluxus artists both manipulated and exposed A study of six central figures in the group George Brecht Alison Knowles George Maciunas Nam June Paik Mieko Shiomi and Robert Watts reveals how they developed historically specific strategies of mimicking the capitalist system These artists appropriated tools occupied spaces revealed operations and ultimately performed the system itself via aesthetics of organization communication events branding routine and global mapping Through corporate imaginations Fluxus artists proposed strategies for living as conscious creative subjects within a totalizing and increasingly global system demonstrating how these strategies must be repeated in an ongoing negotiation of

new relations of power and control between subject and system Fluxus Administration Colby Chamberlain, 2024-07-09

George Maciunas is typically associated with the famous art collective Fluxus of which he is often thought to have been the leader. In this book, critic and art historian Colby Chamberlain wants us to question two things: first, the idea that Fluxus was a group in any conventional sense, and second, that Maciunas was its leader. Instead, Chamberlain shows us how Maciunas used the paper materials of bureaucracy in his art: cards, certificates, charts, files, and plans, among others, to subvert his own status as a figurehead of this collective and even as a biographical entity. Each of the book's chapters situates Maciunas's artistic practice in relation to a different domain: education, communication, production, housing, and health. We learn about his use of the postal service to make Fluxus into an international network; his manipulation of US copyright law to pursue a Soviet ideal of collective authorship; his intervention in Manhattan's zoning restrictions as founder and manager of the Fluxhouse artists' lofts in SoHo; and his performances protesting against normative ideals of health and family, focusing on his own ultimately failed medical self-management. Fluxus Administration is not a biography, but it does delve more deeply than any other book into Maciunas's life and work, showing the lengths to which the artist himself went to disrupt any easy account of himself.
