Maiorov, Roman Hautala, 2021-08-25 The Routledge Handbook of the Mongols and Central Eastern Europe offers a comprehensive overview of the Mongols military political socio economic

and cultural relations with Central and Eastern European nations between the thirteenth and fifteenth centuries The Mongol Empire was the largest contiguous land empire in history and one which contributed to the establishment of political commercial and cultural contacts between all Eurasian regions The Golden Horde founded in Eastern Europe by Chinggis Khan's grandson Batu in the thirteenth century was the dominant power in the region For two hundred years all of the countries and peoples of Central and Eastern Europe had to reckon with a powerful centralized state with enormous military potential Some chose to submit to the Mongols whilst others defended their independence but none could avoid the influence of this powerful empire In this book twenty five chapters examine this crucial period in Central Eastern European history including trade confrontation and cultural and religious exchange between the Mongols and their neighbours This book will be an essential reference for scholars and students of the Mongols as well those interested in the political social and economic history of medieval Central Eastern Europe **Between East and West** Marat Shaikhutdinov, 2021-11-23

Drawing on a wide range of sources and historiographical material *Between East and West* provides a comprehensive analysis of the efforts of the Moscow princes to form a centralized Russian state According to the author the unification of Russia around Moscow was not historically inevitable Tver Novgorod and the Grand Duchy of Lithuania also claimed this role and if they had been victorious a less authoritarian less autocratic and less despotic Russian state could have emerged Professor Shaikhutdinov rejects the concept of the Mongol Tatar yoke and claims that relations between Moscow and Ulus Jochi Golden Horde were more complicated and interdependent The influence of Ulus Jochi on Moscow was especially strong in the political economic and military spheres while the religious field was dominated by the influence from Byzantium The volume discusses in detail the geopolitical aspirations of Russia and the Moscow Third Rome theory In sum the formation of the Moscow state was directly influenced by both internal and external factors countries of the East and the West Some Observations on the Influence of Byzantine Institutions on Ottoman Institutions Mehmet Fuat Köprülü, 1999 **Turkistan.
