Sinister Purposes:

Reports of Cases Decided in the High Court of Chancery ... Great Britain. Court of Chancery, 1843 Codifications proposal ... Jeremy Bentham, 1830 **The Seven Purposes** Margaret Cameron, 1918 **John Dewey, America's Peace-Minded Educator** Charles F. Howlett, Audrey Cohan, 2016-07-27

One of America's preeminent educational philosophers and public intellectuals John Dewey is perhaps best known for his interest in the study of pragmatic philosophy and his application of progressive ideas to the field of education. Carrying his ideas and actions beyond the academy, he tied his philosophy to pacifist ideology in America after World War I in order to achieve a democratic world order. Although his work and life have been well documented, his role in the postwar peace movement has been generally overlooked. In *John Dewey: America's Peace-Minded Educator*, authors Charles F. Howlett and Audrey Cohan take a close look at John Dewey's many undertakings on behalf of world peace. This volume covers Dewey's support of and subsequent disillusionment with the First World War as well as his postwar involvement in trying to prevent another world war. Other topics include his interest in peace movements in education, his condemnation of American military intervention in Latin America and of armaments and munitions makers during the Great Depression, his defense of civil liberties during World War II and his cautions at the start of the atomic age. The concluding epilogue discusses how Dewey fell out of favor with some academics and social critics in the 1950s and explores how Dewey's ideas can still be useful to peace education today. Exploring Dewey's use of pragmatic philosophy to build a consensus for world peace, Howlett and Cohan illuminate a previously neglected aspect of his contributions to American political and social thought and remind us of the importance of creating a culture of peace through educational awareness.

The Impending Midnight Cry Befekadu Admassu, 2019-12-17

The world is in great turmoil. Nuclear cataclysm is a real and present danger and the talk of a third world war has become all too common even among the most influential personalities. Political instability is shaking the great nations that once claimed to be bastions of democracy and rule of law. Geopolitical rivalry among the superpowers is ripping apart the institutions that ensured relative peace and stability around the globe for the past several decades. Moral decline is destroying the nuclear family and the fabric of society, particularly in the once Christian West as more people abandon faith and traditional family values. Paradoxically, we also live in the most technologically advanced age that humanity has ever seen. We have the highest level of material wealth, information and knowledge, governments, global and regional organizations, schools, universities and research centers, hospitals, doctors and experts in every field of knowledge. We have by far the fastest, efficient, cost-effective and convenient means of communication, travel, production and distribution as well as health care and entertainment than even our most recent progenitors. And yet we are becoming more cruel to each other. Our leaders want to take us somewhere but they themselves do not know the destination. There appears to be a broad realization that the world is not going in the right direction. Many are the calls for change of course and diverse the propositions for direction. Are we humans left to our own

devices to extricate ourselves from the quagmire into which we have fallen Are we condemned to endless failure Is there a hope for us as individuals families communities and nations The Jewish prophets of old who penned the books of the Bible not only foresaw the storms that would billow throughout the many millennia that followed their times but also assured us of a beautiful and lasting final outcome Their predictions have proved true time and again The most intriguing promise of the prophets was the coming of the Messiah who will rule the world with truth and righteousness The Gospels tell us an even more audacious story that the predictions of the prophets actually came true in the birth of Jesus Christ two thousand years ago The writers of the New Testament have also penned for us the promises of Jesus of Nazareth the only Son of God to come back at the end of the age to establish God s kingdom Could the turmoil we see today be the very birth pangs that will finally usher in the promised kingdom of God
