

SISTER REVOLUTIONS

French Lightning.

American Light

"*Sister Revolutions* is a keen and judicious meditation on the two great revolutions that created the modern world."

—Arthur Schlesinger, Jr.

SUSAN DUNN

Sister Revolutions French Lightning American Light

Michael P. Federici

Sister Revolutions French Lightning American Light:

Sister Revolutions Susan Dunn, 2024-07-02 A keen and judicious meditation on the two great revolutions that created the modern world what they had in common and where and why they diverged Arthur Schlesinger Jr Pulitzer Prize winning author In 1790 the American diplomat and politician Gouverneur Morris compared the French and American Revolutions saying that the French have taken Genius instead of Reason for their guide adopted Experiment instead of Experience and wander in the Dark because they prefer Lightning to Light Although both revolutions professed similar Enlightenment ideals of freedom equality and justice there were dramatic differences The Americans were content to preserve many aspects of their English heritage the French sought a complete break with a thousand years of history The Americans accepted nonviolent political conflict the French valued unity above all The Americans emphasized individual rights while the French stressed public order and cohesion Why did the two revolutions follow such different trajectories What influence have the two different visions of democracy had on modern history And what lessons do they offer us about democracy today In a lucid narrative style with particular emphasis on lively portraits of the major actors Susan Dunn traces the legacies of the two great revolutions through modern history and up to the revolutionary movements of our own time Her combination of history and political analysis will appeal to all who take an interest in the way democratic nations are governed Stimulating and provocative shows not only how the French and American experiments developed but also why their differing examples have continued to beguile leaders Paul Gray Time

Without Precedent Joel Richard Paul, 2019-02-19 From the author of *Unlikely Allies* and *Indivisible* comes the remarkable story of John Marshall who as chief justice statesman and diplomat played a pivotal role in the founding of the United States No member of America's Founding Generation had a greater impact on the Constitution and the Supreme Court than John Marshall and no one did more to preserve the delicate unity of the fledgling United States From the nation's founding in 1776 and for the next forty years Marshall was at the center of every political battle As Chief Justice of the United States the longest serving in history he established the independence of the judiciary and the supremacy of the federal Constitution and courts As the leading Federalist in Virginia he rivaled his cousin Thomas Jefferson in influence As a diplomat and secretary of state he defended American sovereignty against France and Britain counseled President John Adams and supervised the construction of the city of Washington D C This is the astonishing true story of how a rough cut frontiersman born in Virginia in 1755 and with little formal education invented himself as one of the nation's preeminent lawyers and politicians who then reinvented the Constitution to forge a stronger nation *Without Precedent* is the engrossing account of the life and times of this exceptional man who with cunning imagination and grace shaped America's future as he held together the Supreme Court the Constitution and the country itself **Teaching American History in a Global Context** Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students understanding of American history It includes a wide range of

materials from scholarly articles and reports to original syllabi and ready to use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view The contributors include well known American history scholars as well as gifted classroom teachers and the book's emphasis on immigration race and gender points to ways for teachers to integrate international and multicultural education America in the World and the World in America in their courses The book also includes a Views from Abroad section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants A comprehensive annotated guide directs teachers to additional print and online resources

Jefferson's Second Revolution Susan Dunn, 2018-06-01 An excellent history of the tumultuous early years of American government and a constitutional crisis sparked by the Electoral College Booklist In the election of 1800 Federalist incumbent John Adams and the elitism he represented faced Republican Thomas Jefferson Jefferson defeated Adams but through a quirk in Electoral College balloting tied with his own running mate Aaron Burr A constitutional crisis ensued Congress was supposed to resolve the tie but would the Federalists hand over power peacefully to their political enemies to Jefferson and his Republicans For weeks on end nothing was certain The Federalists delayed and plotted while Republicans threatened to take up arms In a way no previous historian has done Susan Dunn illuminates this watershed moment in American history She captures its great drama gives us fresh finely drawn portraits of the founding fathers and brilliantly parses the enduring significance of the crisis The year 1800 marked the end of Federalist elitism pointed the way to peaceful power shifts cleared a place for states rights in the political landscape and set the stage for the Civil War Dunn a scholar of eighteenth century American history has provided a valuable reminder of an election in which the stakes were truly enormous and the political vituperation was far more poisonous than the relatively moderate attacks heard today An excellent work that effectively explains this critical contest that shaped the history of the new republic Booklist Dunn does a superb job of recounting the campaign its cast of characters and the election's bizarre conclusion in Congress That tense standoff could have plunged the country into a disastrous armed conflict Dunn explains but instead cemented the legitimacy of peaceful if not smooth transfers of power Publishers Weekly Dunn simultaneously teaches and enthralls with her eloquent five sensed descriptions of the people and places that shaped our democracy Entertainment Weekly *History's*

Locomotives Martin Edward Malia, 2006-01-01 This masterful comparative history traces the West's revolutionary tradition and its culmination in the Communist revolutions of the twentieth century Unique in breadth and scope History's *Locomotives* offers a new interpretation of the origins and history of socialism as well as the meanings of the Russian Revolution the rise of the Soviet regime and the ultimate collapse of the Soviet Union History's *Locomotives* is the masterwork of an esteemed historian in whom a fine sense of historical particularity never interfered with the ability to see the large picture Martin Malia explores religious conflicts in fifteenth and sixteenth century Europe the revolutions in England America and France and the twentieth century Russian explosions into revolution He concludes that twentieth

century revolutions have deep roots in European history and that revolutionary thought and action underwent a process of radicalization from one great revolution to the next Malia offers an original view of the phenomenon of revolution and a fascinating assessment of its power as a driving force in history

The Political Philosophy of Alexander Hamilton

Michael P. Federici, 2012-07-09 America's first treasury secretary and one of the three authors of the Federalist Papers Alexander Hamilton stands as one of the nation's important early statesmen Michael P. Federici places this Founding Father among the country's original political philosophers as well Hamilton remains something of an enigma Conservatives and liberals both claim him and in his writings one can find material to support the positions of either camp Taking a balanced and objective approach Federici sorts through the written and historical record to reveal Hamilton's philosophy as the synthetic product of a well-read and pragmatic figure whose intellectual genealogy drew on Classical thinkers such as Cicero and Plutarch Christian theologians and Enlightenment philosophers including Hume and Montesquieu In evaluating the thought of this republican and would-be empire builder Federici explains that the apparent contradictions found in the Federalist Papers and other examples of Hamilton's writings reflect both his practical engagement with debates over the French Revolution capital expansion commercialism and other large issues of his time and his search for a balance between central authority and federalism in the embryonic American government This book challenges the view of Hamilton as a monarchist and shows him instead to be a strong advocate of American constitutionalism Devoted to the whole of Hamilton's political writing this accessible and teachable analysis makes clear the enormous influence Hamilton had on the development of American political and economic institutions and policies

The Citizenship Experiment René Koekoek, 2020-01-23

The Citizenship Experiment explores the fate of citizenship ideals in the Age of Revolutions While in the early 1790s citizenship ideals in the Atlantic world converged the twin shocks of the Haitian Revolution and the French Revolutionary Terror led the American French and Dutch publics to abandon the notion of a shared Atlantic revolutionary vision of citizenship Instead they forged conceptions of citizenship that were limited to national contexts restricted categories of voters and advanced stages of civilization Weaving together the convergence and divergence of an Atlantic revolutionary discourse debates on citizenship and the intellectual repercussions of the Terror and the Haitian Revolution Koekoek offers a fresh perspective on the revolutionary 1790s as a turning point in the history of citizenship

George Washington Reconsidered

Don Higginbotham, 2001 George Washington heroic general of the Revolution master of Mount Vernon and first president of the United States remains the most enigmatic figure of the founding generation with historians and the public at large still arguing over the strengths of his character and the nature of his intellectual and political contributions to the early republic Representing the finest recent scholarship on Washington these thirteen essays by the leading scholars in the field strike a balance between Washington's personal life and character and his public life as a soldier and political figure Editor Don Higginbotham provides an introduction about Washington and his treatment by historians and an afterword devoted to how

the American people have viewed Washington including the 1999 commemorations of the bicentennial of his death With three essays written specifically for this volume *George Washington Reconsidered* is the first collection of its kind to be published in over thirty years **Agents of Atrocity** Neil J. Mitchell, 2009-03-15 The book provides a general explanation of why the relationship between a government and its citizens deteriorates into violence by examining in both contemporary and historical settings the motives of those involved *Gale Researcher Guide for: Foundations of the North Atlantic Revolutions and the Global Context of Popular Revolt* Celeste Chamberland, 2018-09-28 Gale Researcher Guide for Foundations of the North Atlantic Revolutions and the Global Context of Popular Revolt is selected from Gale's academic platform Gale Researcher These study guides provide peer reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research

Embracing the Track of Phrase: An Mental Symphony within **Sister Revolutions French Lightning American Light**

In a world consumed by screens and the ceaseless chatter of fast transmission, the melodic elegance and mental symphony developed by the prepared word often fade in to the backdrop, eclipsed by the relentless sound and disruptions that permeate our lives. However, located within the pages of **Sister Revolutions French Lightning American Light** a marvelous literary prize brimming with raw feelings, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, this interesting masterpiece conducts visitors on an emotional journey, well unraveling the hidden melodies and profound affect resonating within each cautiously crafted phrase. Within the depths with this poignant assessment, we shall discover the book is central harmonies, analyze their enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
