Slow Lightning:

Slow Lightning Eduardo C. Corral, 2012-04-03 Showcases the poems which seamlessly braiding English and Spanish bring his experiences as a Chicano and gay man to life of the first Latino poet to win the Yale Series of Younger Poets

Slow Lightning Jack McDevitt, 2000 Classic sense of wonder sf from the author of THE ENGINES OF GOD **The Cry of the Senses** Ren Ellis Neyra, 2020-10-26 In *The Cry of the Senses* Ren Ellis Neyra examines the imaginative possibility for sound and poetics to foster new modes of sensorial solidarity in the Caribbean Americas Weaving together the black radical tradition with Caribbean and Latinx performance cinema music and literature Ellis Neyra highlights the ways Latinx and Caribbean sonic practices challenge antiblack colonial post Enlightenment and humanist epistemologies They locate and address the sonic in its myriad manifestations across genres and forms in a legal trial and in the art and writing of Xandra Ibarra the Fania All Stars Beatriz Santiago Muñoz Glissant and Eduardo Corral while demonstrating how it operates as a raucous form of diasporic dissent and connectivity Throughout Ellis Neyra emphasizes Caribbean and Latinx sensorial practices while attuning readers to the many forms of blackness and queerness Tracking the sonic through their method of multisensorial poetic listening Ellis Neyra shows how attending to the senses can inspire alternate ethical ways of collective listening and being **Planetary Atmospheric Electricity** François Leblanc, Karen Aplin, Yoav Yair, Giles Harrison, Jean Pierre Lebreton, M. Blanc, 2008-10-01 This book is a comprehensive discussion of all issues related to atmospheric electricity in our solar system It details atmospheric electricity on Earth and other planets and discusses the development of instruments used for observation **Scores** John Clute, 2016-11-24 For more than 50 years John Clute has been reviewing science fiction and fantasy As *Scores* demonstrates his devotion to the task of understanding the central literatures of our era has not slackened There are jokes in *Scores* and curses and tirades and apologies and riffs but every word of every review in the end is about how we understand the stories we tell about the world Following on from his two previous books of collected reviews *Strokes* and *Look at the Evidence* this book collects reviews from a wide variety of sources but mostly from *Interzone* the *New York Review of Science Fiction* and *Science Fiction Weekly* Where it has seemed possible to do so without distorting contemporary responses to books these reviews have been revised sometimes extensively 125 review articles over 200 books reviewed in more than 214 000 words **The California Ranger**, 1937 **Weird Weather** David A. J. Seargent, 2012-03-02 This book is in a sense a sequel to David Seargent's first Springer book *Weird Astronomy* 2010 Whereas *Weird Astronomy* extended over a broad range of purely astronomical topics the present work concentrates on phenomena closer to home the atmospheric and shallow space events as opposed to deep space events The line between astronomy and meteorology is blurred a fact that is discussed in *Weird Weather* It is not primarily a book of wonders or of the unexplained although some of the topics covered remain mysteries It is primarily directed toward those who are fascinated by climate and weather and who are open minded when considering Earth's climate what drives it and what are the causes of climate

change The author David A J Seargent presents the facts with a balanced and scientific approach Weird Weather Tales of Astronomical and Atmospheric Anomalies is about strange unusual and apparently inexplicable observations of the air and sky Primarily these are in the Earth s atmosphere but there are corresponding phenomena in the atmospheres of other planets of the Solar System lightning on Venus Jupiter and Saturn whirlwinds and dust storms of Mars and auroras on Jupiter Topics include anomalous lights anomalous sounds spectacular effects of cloud illumination by the Sun or Moon lightning phenomena electrophonic sounds of lightning aurora and meteors tornado and whirlwind phenomena on Earth and Mars usual atmospheric effects mirages and the possible astronomical influences on cloud and climate Pivotal Voices, Era of Transition Rigoberto Gonzalez, 2017-09-14 Pivotal Voices Era of Transition gathers Rigoberto Gonzalez s most important essays and book reviews many of which consider the work of emerging poets whose identities and political positions are transforming what readers expect from contemporary poetry A number of these voices represent intersectional communities such as queer writers of color like Natalie Diaz Danez Smith Ocean Vuong and Eduardo C Corral and many writers such as Carmen Gimenez Smith and David Tomas Martinez have deep connections to their Latino communities Collectively these writers are enriching American poetry to reflect a more diverse panoramic and socially conscious literary landscape Also featured are essays on the poets literary ancestors including Juan Felipe Herrera Alurista and Francisco X Alarc n and speeches that address the need to leverage poetry as agency This book fills a glaring gap in existing poetry scholarship by focusing exclusively on writers of color and particularly on Latino poetry Gonzalez makes important observations about the relevance urgency and exquisite craft of the work coming from writers who represent marginalized communities His insightful connections between the Latino African American Asian American and Native American literatures persuasively position them as a collective movement critiquing challenging and reorienting the direction of American poetry with their nuanced and politicized verse Gonzalez s inclusive vision covers a wide landscape of writers opening literary doors for sexual and ethnic minorities **Orange Judd American Agriculturalist** ,1879 **Engineering** ,1888
